EASTERN NEWS.

The mail services for the Pacific States for the next four years, the contracts for which were closed last Wednesday, the 14th, number in California, ninety-nine routes; in Oregon, twenty-one; in Washington Territory, nineteen; in Idaho, seven; in Utah, twenty-five; in Colorado, twenty-one; in Arizona, eleven; and in New Mexico, eight. The competition throughout was greater than at any former period, and the prices are reduced on those now paid.

The following was to-day laid before the House of Representatives, dated the Treasury Department, March 17th:

Sir—I have the honor to acknowledge the receipt of a resolution from the House, dated the 5th inst., requesting a statement of the amount of money now in the Treasury, including all sums in the hands of Assistant Treasurers, National Banks, and other depositories, designating the amount in each separately. I transmit herewith a communication from the Treasurer of the United States, together with statements prepared by him, from which it appears that the available balance in the Treasury, according to the returns to the 10th inst., is \$123,423,885, consisting of coin \$57,799,921, and of currency \$65,623,964, of which sum \$2,178,030 58 was on deposit in the National Banks.

(Signed) HUGH McCULLOCH.
This letter was addressed to Speaker Colfax.

THE RUSSIAN-AMERICAN TELEGRAPH.
New York, March 12th.—The following is a telegraph dispatch sent to St. Petersburg by the line from the Amoor, mailed to this city and transmitted to Col. Balkley, of San Francisco, the Superintendent of the Western Union enterprise:—"Count S. Abasa telegraphs his brother at St. Petersburg, from Irkutsk, February 19th, that the entire extent of the line between the Anadyr and Ochotsk Districts has not only been surveyed, but the route of the lines been determined by me in person. Notwithstanding the extreme scarcity of laborers in the country, I have commenced preparatory work in Anadyr, Ghijinsk, Towek, and Ochotsk. The engineers from the mouth of the Anadyr River have not yet met, but have sent a party to look out for them. I am in daily expectation of meeting the corps of engineers from Nioulaiefski, through Ajain. I am going myself to meet them. We shall avoid submarine lines around the Ochotsk Sea." This is very encouraging and shows that the work is being pressed with all diligence.

THE CATTLE PLAGUE.
Official reports in England show that vaccination has so far proved a certain safeguard to cattle, against the plague that has raged so fearfully in the British Islands. The disease continues because this remedy is practiced only by the few. Would it not be well for agricultural societies in the different States to urge the immediate vaccination of cattle and sheep? The country cannot afford to lose its stock, and now that a sure, attainable safeguard has been discovered, it ought to be applied as quickly as possible.

The Secretary of the Treasury, in accordance with the Act of Congress in relation to the importation of foreign cattle and hides has determined to allow importation from countries other than Europe, as cattle disease does not seem prevalent elsewhere. Custom officers are directed to take care that no cattle or hides, coming directly from Europe are landed on any pretext whatever after May.

LIST OF PARDONS.
WASHINGTON, March 11th.—Mr. Clark, the Attorney-General, is making a list of pardons, in answer to an enquiry of the House of Representatives, which will show about fifteen thousand pardons under the \$20,000 clause.

More Fenian Sensations.

New York, March 20.—In this city the Central Council of the Fenians, at Union Square, are in secret session, but nothing of their proceedings has been given to the public. Funds and rifles are still flooding in both here and at the Sweeney Headquarters and it is reported that Mahoney has within a few days gone with an expedition of 5,000 men to some point unknown to the public. The total strength of Sweeney's force organized into regiments and battalions up to date is given as 136,091, and it is stated that before the month is passed the number will be doubled. Contributions of money and munitions of war continue to pour into the Treasury and ordnance depots of both branches of the Brotherhood.

New York, March 20.—The Herald's special Toronto dispatch says that a battery left there for the frontier on Saturday and other detachments of troops for the frontier are reported at four different points, the organization of new companies was pushing forward with great activity. The alarm seemed unabated; everybody now believes that the Fenians intend to make a desperate attempt to make Canada a base. Very little dependence is placed on the American Government's professions of neutrality. The authorities feel that they can expect no sympathy from the United States, and must help themselves if they would maintain peace. The public statements show that 1500 regulars and 1000 volunteers are under arms. 1500 men more are drilled and armed but not under pay.

The Herald's special dispatch says a plot has been discovered to blow up the drill shed and volunteers while drilling. A large city sewer runs under the shed with an entrance 100 yards off. The reports say that barrels of powder were to be rolled up the sewer, and when the volunteers met for drill the whole

to be blown up. The sewer is guarded day and night.

European.

PORTLAND, Me., Mar. 20.—The Peruvian from Liverpool via Londonderry, March 9th, arrived this evening. Sir John L. Gray's motion for the Irish Church, has been fixed for Tuesday. The resolution he proposes is: That the Church in Ireland is a grievous wrong to the people of that country, and its continued maintenance prevents them from having any confidence in the justice or wisdom of the Imperial Parliament.

The number of prisoners arrested under the suspension of the Habeas Corpus Act is 176, of whom 64 are British Americans; four have been discharged.

The London Owl says a German crisis is imminent. The Prussian Government dispatched to Vienna a summons in respect to Holstein which was peremptory. Denmark is ready to face war and its consequences. Austria will at once take up the gauntlet or yield to the pretensions of Prussia in a somewhat ignominious manner.

LONDON, Mar. 9.—The Atlantic Telegraph Co., unanimously approved the arrangements of the directors for laying the cable this year.

The War in Paraguay.

NEW YORK, March 20.—The Herald's Rio Janeiro correspondent gives further advice regarding the Rio Platte war. Immense preparations were making for the battle which was imminent at the date of last advices.

The allied army of Brazilians and Uruguayans numbering about 50,000 and supported by a considerable and efficient naval fleet are on the bank of Paraguay River in the vicinity of Paso De La Platte, controlled on the north side by the Paraguayans, estimated at only 22,000 men. Works of great strength are held by the latter, which neutralizes the number and advantages possessed by the allies, the latter, it is reported, design to cross the river; a desperate struggle was anticipated. They had also in contemplation a flank movement and an attack on the Paraguayans' rear. Parties of Paraguayans have crossed in boats over the river; skirmishing had occurred. The allies however had repulsed the Paraguayans with small loss.

Tragedy on the Overland Route.

CHICAGO, March 21.—The St. Louis Republican has the particulars of a terrible tragedy in the Overland Coach bound East, between Alkali and Cottonwood Stations, during the night of Tuesday the 13th.

It appears that a ruffian named Henschild, a fugitive desperado from Montana, alarmed lest one of his fellow passengers, W. W. Barlow from Denver, Deputy United States Marshal, was preparing to arrest him, attempted to murder the whole party while sleeping. One of the passengers was killed and two wounded before the situation was fairly understood, when Barlow shot Henschild which ended the tragedy.

Special Dispatch to the "Colonist."

Eastern News.

New York, March 20.—Much dry goods has been sold of late for currency at less than cost in gold. Several failures are reported in the provision trade at Buffalo, and some excitement was occasioned here to-day by the disappearance of a Broad street produce dealer with \$100,000. Insurance circles have thrown out mysterious hints of other companies being about to pass into the hands of receivers.

Boston, March 21.—Certain liquors seized at Taunton, Mass., last week by the State constables, were yesterday re-seized by the

Marshal, and returned to the owners, on the ground that the U. S. License under the Internal Revenue Law took precedence of the State license. The case excites much comment and raises an interesting issue.
