strife in all parts of the Dominion.

EDITORIAL COMMENT. THE Times says we are fighting Henry

Trine. We are simply doing what the Times never yet had the honesty to do—showing the electors from Henry George's own book, what that system really is.

Honest electors should know that the way in which Mr. John Grant would remove many of the existing abuses under the present systems of taxation, would be on the road side, a man making wooden hoops out of spring pine trees, which he split into two or three breaks, according to the size of the sapling. The workman turned out to be a Scotchman, and the hoops were being made for lime barrels. Following the line of telegraph a short distance further the Metchosin road branched off to the left. No settlement appears the present systems of taxation, would be the present systems of taxation, would be on the road for some miles until another be a "fair and equitable basis of taxation." some good farms. Mr. Cole has a fine "We must make the land common programs crop nearly ready for the scythe,
