

LACROSSE MATCH ENDS IN RIOT

Bad Feeling Between Mainland Teams Leads to General Battle

CROWD RUSHES ON FIELD

George Paris Uses Revolver and is Threatened With Lynching

Vancouver, Sept. 28.—The final championship lacrosse game of the season between Vancouver and Westminster at Westminster this afternoon broke up in a riotous row that has disgraced the game for years. The fight, which was emboldened by one shot from a revolver, occurred at half time, at 6 o'clock, when Vancouver was hopelessly beaten with a score of eight to nothing against them.

The bad feeling had started earlier in the game from a smash which Vernon Green of Vancouver is alleged to have dealt Gordon Spring, who was playing in a championship game for the first time. Later Green laid a hard one over Westminster's Westminister, and just before the half time whistle would have sounded he struck Tommy Gifford.

Green was the principal object of the wrath of his hand. Burnett, who had escaped to the club house. There he was defended by George Paris, the colored trainer of the Vancouver team and a prize fighter of the colored players. Paris pulled a revolver when he was pressed, and Dave Burnett, a city employee, of Westminster, attempted to wrest it from his hand. Burnett grasped the barrel and held the muzzle towards the ground when the first shot was fired. The bullet scratched his palm and penetrated his wrist. A doctor from Paris, who was turned over to two policemen.

Somewhere in the fracas, Referee Archie McNaughton was hit in the eye with an egg, but he was otherwise unhurt. No effort was made to resume the game.

At the police station, Paris' revolver was found to be fully loaded with the exception of one round. A crowd followed the police to the station, but later dispersed.

Vancouver's team was short-handed today, and Munn of Westminster played in goal for the visitors.

At the moment of the shooting by Paris, there were cries of "lynch him," "let us lynch him," from the crowd, which closed around the colored player. Only the arrival of the police saved him. Later an attempt was made to get Paris away from the police, and the cries for lynching were repeated.

The car which conveyed the Vancouver players home was spattered with rotten eggs as it left the city.

CHOLERA INTERFERES

Manila's Formal Welcome to Battleship Fleet to Be Postponed Until November

Manila, Sept. 28.—As has been predicted, the formal welcome to the battleships of the American fleet has been postponed on account of the development of cholera in this city.

The committee in charge of the reception after a conference with Governor-General Smith and a number of business men decided that it would be wisest and safest to cancel all preparatory until the fleet returns from Japan in November. In honor of the fleet's presence, however, the committee decided to carry out the water parade on the day of arrival.

Governor-General Smith is advising the government at Washington of the development of strong criticism directed against the health authorities of the city because of the fact that Manila was not protected by quarantine and closed districts where cholera claimed the greatest number of victims. It is probable that an investigation will be ordered.

Movement for a Jury Trial to Determine Mental Condition is So Far Unsuccessful

White Plains, N.Y., Sept. 28.—Harry K. Thaw's plea for a jury trial to determine his present mental condition was denied today by Justice Mills in the supreme court.

At the same time Justice Mills informed counsel in the case that on Oct. 5 next he would give Thaw a summary hearing under the application and that in the meantime the prisoner will be held in the county jail here.

One of the interesting developments of today was the formal withdrawal from the Thaw case of District Attorney Jerome, of New York county, who conducted the prosecution of Thaw at both trials, and who has had an active part in the efforts to prevent Thaw obtaining his freedom since he was committed to the asylum for the criminal insane at Matteawan.

Justice Mills, in his decision today, held that the original commitment of Thaw to Matteawan was lawful and authorized by the criminal code.

National committee chairman Mack said he had conferred with the committee of a very embarrassing situation, and his action is generally commended.

Mr. Haskell's resignation was announced by himself three hours after his arrival in Chicago from Guthrie, Okla., and after he had conferred with officials of the Democratic national headquarters. In giving out his decision, Mr. Haskell, in response to a question, declared he did not desire to be responsible for any embarrassing situation which might result to the Democratic party by his retaining the office of the treasurer.

SCORE OF LIVES ARE CRUSHED OUT

Many Passengers Meet Death in Wreck of Burlington Road Train

COLLISION WITH FREIGHT

Smoking Car Telescoped and All Its Inmates Killed or Injured

Livingston, Mont., Sept. 28.—Ploughing through a snow storm, eastward bound, a Chicago, Burlington and Quincy passenger train, running over the Northern Pacific railroad, today crashed head-on into a freight train at Young's Point, where the trains were to pass. In the crash, a score of lives were crushed out, and a score of persons were injured, several probably fatally.

The freight train failed to signal the passenger train to prevent the collision, it is said, because of the blinding snow. The express car was raised over the platform of the smoking car, and the superstructure swept away. Not a passenger in the smoking car escaped death or injury. Passengers in other cars escaped with cuts and bruises.

On the train were the Spokane delegation to the national irrigation congress at Albuquerque. None of them were injured. Among the passengers were Fireman Ora Babcock, who jumped and killed himself, striking on his head. Milo Holloway, a brakeman, was killed by both sides as they were separated only with great difficulty. It was impossible to succor the wounded without trampling on the dead.

Wrecking and relief trains were sent out from Livingston and Billings. The freight train, which was bound for Chicago, was under the charge of Conductor Hickey, was heading in at the east end of the siding on short time, when the passenger train running into the siding snow block struck it. On account of the storm, neither train had any warning, and the passenger struck the freight locomotive full in the side, and the baggage cars and smoking car and partly crushing the side coach. Little could be done towards rescuing the buried and injured passengers until the wrecking trains arrived.

Charges Are Also Levelled at Mr. Cowan, Conservative Candidate

Vancouver, Sept. 28.—Characterizing him as a degenerate demagogue, W. B. McInnes, the Liberal candidate, made sensational charges against Mr. Martin at tonight's rally at the Liberal headquarters. At the outset he said that Mr. Martin was responsible for keeping the Dunsmuir government in power, before accusing him of making fruitless attempt last summer to secure the support of Mr. Kelly, the Liberal leader in Vancouver.

"Mr. Martin," said Mr. McInnes, "has betrayed the great principles he fought for in Manitoba. Seven years ago at Victoria he threw them to the winds when he accepted a campaign subscription of \$2,500 from the White Pass and Yukon Railway and turned a deaf ear to the clamor of the people of the north, who wanted railway competition as the result of the exorbitant freight and passenger rates, and at a moment when a syndicate was prepared to build a competing road."

"But this deal falls into insignificance compared with the other deal in which Mr. Martin was the prime factor. I am prepared to prove on the public platform that in the provincial campaign of 1900 he received a subscription of \$25,000 from J. J. Hill, of the Great Northern railway, to the which he threw his principles to the winds for \$25,000 what concessions was he prepared to make for the larger gift?" asked Mr. McInnes, and he was cheered by his supporters.

Continuing he said that Mr. Cowan, the Conservative had gone east nominally to attend a religious convention, but in reality to extort pledges from the Conservative party in regard to the Asiatic and other questions that would never be fulfilled. "At the earliest opportunity an anti-public platform was prepared to show that Mr. Cowan had been instrumental in blocking the advent of new railways to Vancouver."

"The chief actor in one of the greatest pieces of political treachery ever enacted in Canada. These pledges to the Conservative party were prepared to prove as soon as Mr. Cowan returned from Ottawa."

SEVERE SUFFERING FROM LONG DROUGHT

People on Lake Champlain District Feel Shortage of Water

Westport, N.Y., Sept. 28.—The water in Lake Champlain is at its lowest point in a long time, five feet below high water mark, and steamers have been obliged to abandon some of their trips. The difficulty of making landings at the docks. The mountain brooks are almost dry, and the beds of some of the largest rivers in this region carry mere threads of water. The drought and the forest fires have seriously affected agriculture. The farmers are dried up and farmers are feeding stock their winter fodder, the yield of which has been very light this season, and hay is selling at 12 per ton.

Pulpmill pollution of the streams adds to the troubles of the inhabitants. The water of the Au Sable river is a black, heavy fluid from this cause. The residents along its banks some time ago appealed to Governor Hughes to issue an executive order, in accordance with chapter six of the public health laws, to compel the mills to make sanitary disposition of their refuse, and they and other people in other localities so affected, have petitioned the governor, died recently, leaving an affidavit in which he swore that his own illness and that of his family and his many friends, was due to the use of the Au Sable river water.

The village of Keeseville has given up the use of the water for drinking purposes, which formerly furnished the regular supply. The refuse borne on the waters of the Ticonderoga river, which empties into Lake Champlain, is so objectionable that the national park, is visible far out into the lake, and even to the Vermont shore.
