rest here.

## FAVOR UNION OF CHURCHES AT ASSEMBLY

Conference or Presbyterians  
Horses Principle of Amal-  
gamation—Vote Was Over-  
whelming

Hamilton, June 9.—The Presbyterian  
General Assembly concluded its delib-  
eration on church union yesterday  
and adopted Principal Patrick's mo-  
tion. The vote indicated a largely  
preponderating opinion in favor of the  
principle of union in the ranks of the  
clergy and elders in the church. The  
afternoon was devoted to the consid-  
eration of the augmentation and church  
life and work committees' reports, and  
the evening to the reports of the Sun-  
day school and French evangelization  
committees.

### Debate on Union

Yesterday the assembly at once  
got down to a continuance of the de-  
bate on church union.  
Rev. Dr. Taylor, New Westminster,  
said they were not the united people  
they were supposed to be. He chal-  
lenged the extraordinary doctrinal  
basis placed before him by the sup-  
porters of union, and he styled the re-  
port of the joint committee a thing of  
swords and patches.

Rev. Dr. Pringle, Sydney, said that  
as a start, he was out and out an  
unionist. Those supporting it were  
not going to be scared by the title  
tattle from the street or the street  
car. He would not be ashamed to be-  
long to an united church which had  
its roots in Knox, Hampden, Cromwell  
and John Wesley.

J. Lawson, of Charlottetown, said if  
the Methodists want union let them  
join a church equal to themselves.

Edward Brown, Portage la Prairie,  
thought if union was submitted to the  
people it would be voted down by an  
overwhelming majority, as they were  
not ripe for it. At the same time he  
could conscientiously vote for Prin-  
cipal Patrick's motion, and still re-  
serve his right to vote against union  
or for it as he deemed fit, when it  
went to the people.

Rev. D. N. Morden, of St. Mary's,  
said it was no disparagement to the  
prophetic vision of the members of  
the joint committee to say that a large  
number of people were in a position  
where they could vote for union. He  
said if they voted it down it would  
be a generation before it could be  
brought up again.

Rev. P. A. Walker, Malsonneuve,  
said Principal McKay's amendment  
was a red herring drawn across the  
track.

Rev. Dr. Sedgwick, Tatamagouche,  
said Principal McKay's amendment  
must have commended itself to many  
right thinking men. He thought  
Principal Patrick's motion to be-  
come a window dresser in the  
store. Dr. Sedgwick remarked that  
the joint committee's report was a  
hopeless mixup, and reminded him of  
Alice in Wonderland.

### Best For Christianity

Principal Patrick said he hoped  
they gave one another credit for ab-  
solute honesty of purpose. He had  
abandoned now the belief that God  
had established only the Presbyterian  
policy, though they believed in the re-  
formation. They were constrained by  
conscience to unite with those that  
believed the same as they.  
It seemed that it would be utter folly  
after the committee had negotiated  
with the Methodist and Congrega-  
tionalists for organic union for the  
rest of the assembly to turn round  
and ask them for separation. Prin-  
ciple Patrick said he did not want.  
He was a loyal Presbyterian, but he  
was desirous of doing what was best  
for the interests of Christianity in Can-  
ada.

The vote was then taken. The  
amendment of Principal McKay was  
defeated, 154 voting against and 54  
for it. The original motion was next  
put and carried, only those who had  
spoken against it during the debate  
voting against it.

At the afternoon session Rev. A. E.  
Mitchell, Hamilton, presented the re-  
port of the committee on church life  
and work. The report, with a num-  
ber of recommendations bearing on it,  
was adopted.

The moderator, Rev. Dr. Lyle, pre-  
sented the report of the augmentation  
committee of the western section. The  
receipts were \$35,830.81 and expendi-  
tures \$43,362.81. During the year 27  
congregations became self-supporting.  
Rev. Dr. Smith presented the report  
of the eastern section. The income  
from all sources was \$13,122.80 and  
the expenditures \$10,000. Both re-  
ports were adopted.

Rev. Dr. Mowat at the evening ses-  
sion presented the report of the bureau  
on French evangelisation, and Rev.  
A. C. McGillivray of Toronto that of  
the Sunday school committee.

## STEEL COMPANY RESTORES WAGE SCALE

Pennsylvania Concern Which Cut Its  
Wages 10 Per Cent Changes  
Mind

Harrisburg, Pa., June 9.—Announce-  
ment was made today that the wages  
of the Pennsylvania Steel Company  
at Steelton, which was cut ten per  
cent on April 1, will be restored in all  
departments of the plant on July 1.  
The order will affect nearly 7,000 men.  
The announcement came as a surprise  
as it was not expected that the cut  
would be restored so soon.

### Ontario Editor Dies

London, Ont., June 9.—Sheriff W. A.  
t, one of the best known officials  
of this country, died last night after a  
protracted illness. He was 67 years  
old. He practiced law for a number  
of years, from which he drifted into  
the newspaper profession, having  
charge of the editorial work on the  
Brantford Expositor.

### No Wedding Bells for Gerry.

Berlin, June 9.—Geraldine Farrar, re-  
plying to an inquiry concerning the  
report recently published that she was  
engaged to be married to Antonio  
Scotti, the singer, writes from Badel-  
star as follows: "You may officially  
deny the reports of my engagement or  
marriage. They are fabrications which  
long ago ceased to interest me."

## DESPAIRING APPEAL TO COMMON SENSE

Daily News Says That Colonies  
Can Take Useful Part by  
Aiding to Keep Up Fleet in  
Europe

London, June 9.—The Daily News,  
referring to the speech of Lord Rose-  
bery and Sir Edward Grey, at the Im-  
perial Press Conference, says that  
statesmen who see clearly ought to  
have some resource before a despair-  
ing appeal to the common sense of  
the working man.  
The workingman is not to blame.  
The News points out that if a strug-  
gle, constant talk about which it de-  
precates, is to take place, it will be in  
home waters. If the colonies wish to  
assist they can take a useful part not  
only by keeping money or ships to fleets  
maintained in Europe. A fleet of  
second-class cruisers such as Canada  
is supposed to be contemplating  
would represent money wasted.

## ITALY CELEBRATES SUCCESS IN WAR

Rome, June 9.—The people of Rome  
showed much interest this morning in  
the departure of a number of bicycli-  
sts carrying special messages from the  
mayor of this city to the munici-  
cipalities of Milan and Paris con-  
gratulations on the fiftieth anni-  
versary of successful conclusion of  
the war of 1859.  
The streets early were filled with  
people who gave the riders an en-  
thusiastic send-off. The messengers  
were accompanied for some distance  
by various cycle clubs and cheered  
by local political organizations.

### To Prosecute Cuban Claim.

Paris, June 9.—A special despatch  
from Madrid says that the Spanish  
government considers that the Cuban  
debt was not repudiated by the treaty  
of Paris and that the claim will be  
followed up.

### Midget Dies at Shamokin.

Shamokin, Pa., June 9.—Harry  
Botts, 44 years old, three feet eight  
inches tall, died here yesterday. For  
twenty-five years he has worked com-  
edies in circuses and theatres. He  
hurt his back five years ago while  
performing.

## BAPTIST CLERGY SHOW HESITATION

Toronto, June 9.—At a meeting of  
the Toronto Association of Baptist  
Churches yesterday afternoon this  
resolution was unanimously adopted:  
"While not able to support the plan  
of union set out in the report of the  
committee of twenty appointed by the  
General Conference, we favor a Do-  
minion gathering of an inspirational  
character to meet every four or five  
years."  
There will be further discussion of  
the subject today.

## A YOUNG AERONAUT MAKES BRILLIANT RECORD

With Birdlike Machine Herbert  
Latham Has Startled Paris  
By a Series of Clever  
Flights

Paris, June 9.—The interests of  
French aviation have been focussed  
of late on the young and clever  
aeronaut, Herbert Latham, who has  
been flying at Mourmelon Le Grande in  
a motor plane.

Following up his performance of  
three days ago when he remained in  
the air for one hour seven minutes  
and forty-five seconds, M. Latham  
made a series of brilliant flights yester-  
day evening in his machine, and  
demonstrated considerable stability in  
the face of a fifteen mile breeze.  
He showed also good general con-  
trol and facility to change from one  
altitude to another. His flight  
ranged from seven to thirty yards.  
"Latham's machine suggests a bird.  
It has two rigid wings, a foot thick  
fins designed to give stability. The  
space between the two layers of can-  
vas is water-tight and is calculated  
to ensure safety should the machine  
fall into the water."

## EMMA'S SPEECH WAS FAIRLY SANE

Emma Goldman Spoke in a Barn and  
Didn't Fire the  
Hay

Esatorage, N.Y., June 9.—Under the  
high social patronage of Alden Free-  
man, the wealthy Socialist of this  
place and the full complement of  
police officers of the town in attend-  
ance to guard against any incendiary  
utterances, Emma Goldman yesterday  
delivered a lecture which had for its  
theme "The modern drama as a dis-  
seminator of free thought."

With the refusal of the local author-  
ities to permit a lecture to be delivered  
in a public hall, Miss Goldman was  
compelled to speak in the barn of Joel  
Freeman. The lecture was very mod-  
erate in tone and no effort was made  
by the police to prevent or cut short its  
delivery. Alexander Berkman was pre-  
sent but did not speak.

### Three Cent Rate in Missouri.

Kansas City, Mo., June 9.—The  
Santa Fe and the Cotton Belt rail-  
roads, following the Missouri Pacific's  
action yesterday, posted notices to-  
day that the passenger fare in Mis-  
souri is now at the rate of three cents  
a mile.

## CORRECTION WILL BE THE TOPIC HERE

Sixty-Sixth Annual Convention  
of Charities and Correction  
Calls Together Notable  
Gathering

Buffalo, N. Y., June 9.—The sixty-  
sixth annual conference of Charities  
and Correction which opens here to-  
night, has brought together a splendid  
body of men and women, many of  
whom have made their life's work  
in the study of the best means of  
caring for or reforming the defective  
or incorrigible, feeding the hungry,  
clothing the naked, educating the ig-  
norant and reforming the transgress-  
ors. It is believed that in number of  
these present the conference will be  
the greatest ever held.

The gathering is strictly non-sectarian and includes in its roster of  
speakers the leaders of all creeds. The  
conference is peculiar in that it never  
formulates a policy or binds itself by  
resolution or otherwise to any specifi-  
cation of action. It is in fact, just  
what the word implies, a conference,  
where the best thought of the time on  
social problems is given expression.  
It is understood a movement has  
been started in some quarters to build  
up some sort of a permanent organi-  
zation, but this will meet with strong  
opposition from the many leading  
delegates, who consider present modes  
of procedure the best. Anstey Wilcox  
of Buffalo, chairman of the General  
Committee of Arrangements, will pre-  
side at the opening session this morn-  
ing.

### STARTLING BUT NOT VERACIOUS

Berlin, June 9.—The report  
published recently by the Lon-  
don Daily Chronicle that the  
German Naval League had ex-  
pressed a desire for the regular  
despatch of German warships to  
American ports was today de-  
clared officially to be wholly en-  
tirely untrue. Neither at the recent  
national convention of the  
league at Kiel nor at any form-  
er meeting was such a wish ut-  
tered.

### Stolen Kiss Steals First.

Beverly, Eng., June 9.—The Bishop  
Burton states that the Duke of  
Gloucester has been awarded each  
with 100 sovereigns added for two  
year olds, distance five furlongs, was  
run here today and won by Stolen  
Kiss. August Boudier was second and  
Quickstart third. Eight horses ran.

### ROSENFELD FINDS THE MISSING LINK

Discovers Ape in African Jungle  
That Graduated from Amer-  
ican College and is Now  
Teaching Fellows

(By Lingermore Liesome)  
By Gressed Cable.

Gintzko, B. E. A., June 9.—Having  
assumed a quiet and dignified ap-  
pearance, Col. Rosenfeld, who has  
been a quiet rest prior to con-  
tinuing his studies in which he fully  
expects to put the kibosh on the re-  
maining three-quarters. At present  
he is putting in his time in the  
house of Mr. Dingo Callawano and by  
way of exercise he is tearing off a  
few chapters of his book "Kibosh  
House in the Jungle." He is also do-  
ing a touching treatise for "Mug-  
wump's Monthly" on "Wild Animals I  
Have Et." This will be profusely and  
completely illustrated by a photo-  
graph of the famous Col. Rosenfeld  
shoulder of a big Hippopotamus with  
one hand and cleaning "No rifles and  
a hunting knife with the other."  
Many stories have leaked out con-  
cerning the Col's past experiences in  
the jungle. One of these (which the  
writer has been able to confirm) re-  
lates how he used a snake as a rope  
to haul himself into a bingo bush  
when pursued by a ferocious doo-  
do. But by far the most important  
announcement, and one on which Col.  
Rosenfeld will not make a statement, is  
to the effect that in the depth of the  
Rijbaake jungle he encountered a  
large ape of an entirely new species  
which was able to converse quite in-  
telligently and showed the colonel a  
certificate of graduation from a well  
known American college. It is said  
that much to the colonel's surprise he  
learned that this ape is a descendant  
of the much sought after missing  
link, and that he is now engaged in  
the task of educating his fellows. Col.  
Rosenfeld, it is understood, is to pre-  
pare a startling paper on this ape and  
his work. The strange, half-human  
animal, it is said, was taken to Amer-  
ica in a menagerie several years  
ago. It escaped and obtained work  
under an assumed but well known  
name as a mason's helper in New  
York where it passed its life as a  
government engineer. The ape, sav-  
ing enough money to get a start the  
animal entered an art school and was  
graduated. Without disclosing its identity  
it returned at once to educate its fel-  
lows.

It is believed that this ape is, be-  
yond a doubt, the missing link be-  
tween the ape and the man, and that  
the famous Darwinian theory of the de-  
scendant of man.

### GIVE SHIP WITHOUT DEBT

Sydney, June 9.—The Federal  
government is scheming for the gift of a Dread-  
nought without borrowing in  
Great Britain. The British govern-  
ment intends to proceed  
with its policy of establishing  
an Australian fleet.

### DR. LEWIS HALL, Mayor of Victoria, B.C.

# Ladies' Untrimmed Hats

Yesterday we received an express shipment of  
the very latest and most advanced styles—newest  
ideas in fancy straws. These shapes are really be-  
witching and need but a few flowers and foliage, or  
some quills, cabochons and a few yards of ribbon to  
make them dressy enough for any occasion at a mini-  
mum expense. We want you to take note also of our  
lovely new ribbons. You'll be surprised at the price-  
reasonableness just now in our millinery department.

## Why Not a New Hat for the Races

### Dent's Gloves for Ladies

A fine, new consignment has just reached us by  
parcel post today.

Dent's Heavy Tan Gloves. Per pair.....\$1.00

### Corset Covers and Skirts

A charming display this week, the very newest  
and most fashionable creations in new muslins. Take  
a look through our White Wear Department—it will  
please you.

## Henry Young & Co.

1123 Government Street

# Western Canada Wood Pulp & Paper Co., Ltd.

HEAD OFFICE, 638 VIEW STREET, VICTORIA, B.C.  
Plant under course of erection at Quatsino Sound, Vancouver Island.

ASSETS  
The company have acquired 55,669 acres of Pulp Land on Quatsino  
Sound, Vancouver Island.

WATER POWER  
In addition to the vast Pulp Limits acquired, the company have  
also secured a 20,000-inch water record on Marley creek, at Quatsino  
Sound, capable of developing from 10,000 to 15,000 h. p. This creek  
derives its source from three lakes, 20 miles in length, and is thus per-  
manent the year round.

CAPACITY OF PLANT  
The plant when fully complete will have a capacity of 600 tons of  
news and wrapping per week, and feel confident that we will have the  
pulp plant with a weekly capacity of 100 tons in operation by Decem-  
ber 1st of this year.

COST OF MANUFACTURE  
With our tremendous pulp limits which enable us to secure our  
pulp wood at a nominal figure and splendid water power, the cost of  
manufacture of news and wrapping paper should not exceed \$30.00 per  
ton; at present news is jobbing in British Columbia at \$50.00 per ton.  
The freight rate in carload lots from Ontario and Quebec being \$17.00  
per ton.

LOCAL MARKETS  
The local market of the company extends east a thousand miles to  
Moose Jaw and tributary region. Within the above territory the an-  
nual consumption of paper is estimated at a thousand tons exclusive  
of that used by printers and newspapers. The five daily papers of  
Victoria and Vancouver alone consume over 100 carloads of paper per  
year.

FOREIGN MARKETS  
The foreign markets of the company consist of China, Japan, New  
Zealand, Australia, Hawaii and the Philippines. In 1908 the above  
countries imported over \$10,000,000 worth of wood pulp, and paper,  
principally from Norway, Sweden, Germany, Eastern United States  
and Eastern Canada.

PREVAILING RATES TO ORIENT  
A freight rate from \$2.00 to \$5.00 per ton can be secured from  
British Columbia to China, Japan, New Zealand and Australia, on wood  
pulp and paper, as against a rate of \$7.00 to \$15.00 per ton on the same  
commodities from Eastern Canada and Europe; being from 3,000 to  
5,000 miles nearer the Oriental market than Eastern Canada or Euro-  
pean mills, we not only are able to secure a much lower freight rate,  
but also a lower insurance rate.

NATURAL ADVANTAGES OF BRITISH COLUMBIA  
News and wrapping paper are manufactured principally from  
Spruce, Hemlock, Balsam and Larch wood; one ton of chemical wood  
pulp requires approximately two cords of four-foot wood. At present  
Spruce and Hemlock wood is worth from \$8.00 to \$9.00 per cord in  
Eastern Canada; our facilities enable us to secure it at less than \$3.00  
per cord. In 1908 the American mills were obliged to pay from \$9.00  
to \$15.00 per cord.

PROGRESS OF WORK  
We are proceeding as fast as possible with the work. The erection  
of the plant has been placed under the exclusive supervision of Mr.  
Chas. E. Pryde, of Appleton, Wis., one of the most distinguished au-  
thorities on the erection of pulp and paper mills in the United States,  
having built more than 50 of the leading mills of the country, and he  
is confident at being able to have the pulp mill in operation by Decem-  
ber 1st of this year.
