He followed sailing for some years, eventually drifting into the upper peninsula of Michigan, and is now employed by the Keel Ridge mining Co. A few weeks ago a family of emigrants left the train at Keel Ridges. Being strangers and unacquainted with the English language, they made enquiries as to French families resident, and were directed to the house of the young Frenchman, who gave them lodgings for the night. In the course of the evening the fact came to light that the emigrants and their host came originally from the same portion of the dominion. The host repeated the story of his kidnapping. The family of emigrants had lost a son years ago, who mysteriously disappeared and was never heard of since. The interest of both parties was aroused, and further of both parties was aroused, and further questioning resulted in developing the fact that the host of the emigrant family was
