**PARADISE**

Sunday's sermons were of unusual interest. Pastor Smith gave to his congregations an interpretation of the church's history from the time of its organization in 1810, this being one of the oldest churches in the Maritime Provinces. Following the facts it was noted that present history compares favorably with past history for the most part; that present growth is less phenomenal but more steady, while the financial responses of today are greater not only because of a larger circulation of money but because of a more definite sense of personal responsibility. The increased years of training on the part of pastors, missionaries, and others has naturally born fruit, in giving in these later days. This church in its past stood particularly for moral, or religious discipline. In this matter only is it a weaker or less active church today. Perhaps on this point it is claimed that our fathers went to the extreme. If so we of today surely have gone to the other extreme. Mr. Smith also pointed out that workers were raised to fill the ranks of those who labored before them, that the work was never left without its outstanding leaders—and that while some of today can see no future for this church when present days "stand-by" or "pillars" are gone, God most surely has them somewhere in the making. In Sabbath School or B.Y.P.U. and will as carefully guard and guide His cause here in the future as in the past.

**SOMETHING TO LEARN**

There is a story published in a bank magazine that a lady customer wrote: "Will you please send me a new cheque-book, as I have lost the one you sent me last week. This does not much matter as I have signed all the cheques in it, so it will not be of much use to anyone else." The satirical comment in the bank magazine is "Not Much." It is perfectly astounding the want of knowledge some people have in regard to the issuance of cheques.—Montreal Gazette.

Much credit is due these people for the efficient way each performed their part. Proceeds \$9.45 was given to Professor Butler, our blind music teacher. Owing to the inclemency of the weather the crowd was not as large as it otherwise would have been, but it is thankful we are for small favors.
