**PROFESSOR FREES WIFE WHO FINDS "PERFECT LOVER"**

Chicago Lecturer Quietly Divorces Spouse so That She May Marry Another.  
Chicago.—To enable his wife to marry another man, for whom she confessed a "passionate, passionate" love and with whom she was said in evidence to have been living in Evanston for more than a year, Dr. Alfred Lawrence Hall-Quest, director of the University of Pittsburgh extension work, and noted lecturer, has obtained a divorce.

Every precaution was taken to guard the name of the man, the cultured love letters telling of her infatuation for him having been copied into the record with his name deleted. In her letters, the wife pleaded for her freedom, so that "social laws might sanction" her life with the other man for whom she said she was ready "to give up everything else."

After the signing of the decree by Judge H. A. Lewis, every effort was made to shield Dr. Hall-Quest from publicity.  
Dr. Hall-Quest, aged 44, was educated at Princeton and recently while a professor at Columbia University, took the degree of Doctor of Philosophy.

**SNAKES ARE NOT ALWAYS IMAGINARY.**

Springhill.—Philip Landry was arrested by Police Officer Chas. Atkinson charged with being drunk and causing a disturbance Tuesday evening. In the morning Landry complained of snakes, and of killing one in the lockup. He said they were bothering him. The Chief thought it was on account of moonshine. Landry it is alleged had been drinking, but the Chief decided to investigate and on examining the floor in the toilet room which is made of wood, he found a nest of snakes under the floor. The snakes measured from eight to eighteen inches in length—about a dozen in all.  
Mayor Wilson has ordered the floor taken up and replaced with concrete, to do away with snakes bothering prisoners.

A family by the name of Rogers, who have been occupying the house owned by Mrs. John McCormick are moving east this week.  
A wet week has broken the spells

of delightful weather with which the Valley has been blessed. Farmers are progressing favorably with harvesting. The potato crop is reported good and far above the average, ranging from very low. Apples are plentiful and better price in market than last year. The cereals remind us of winter crops at home but nature speaks loudly, giving us its annual view of radiant beauty, especially upon the hills from which cometh our help reminding us ever of the fact "The hands that plant them are divine." Let us realize amidst many trials and discouragements, our land is the best and we on the whole the most highly favored people in the world. Let this thought be our watchword for our annual Thanksgiving Day which must be near at hand.

**Mrs. Elwyn Daniels.**

At the Middleton Memorial Hospital Sunday morning, Oct. 5th, after a protracted illness, attended with acute suffering but borne with rare courage and submission to the Divine Will, Mrs. Elwyn Daniels passed from earthly scenes to the Home beyond at the age of 40 years. Mrs. Daniels was formerly Miss Carrie Nichols of Bridgetown. In 1906 she became the wife of Mr. Daniels and to them were born three sons, Murray, Harry and Frank, who are now left without a devoted mother's loving care. Mrs. Daniels had sought, but without avail, and with a courage and persistence unrivalled healing of the severe illness with which she had been afflicted for several years. All that medical skill could do was done to save her precious life. Once at Victoria General Hospital, Halifax, and again at the Memorial Hospital, Middleton, she had been operated upon but with little success. Hoping that another effort might prove availing she was led to go through the experience once more but with a body weakened by extreme suffering, she was not in a condition to stand the test and her bright spirit took its flight to her Heavenly Father.

Mrs. Daniels was a woman of great courage and hopefulness devoted to her home, a loyal friend and cheerful in the most trying hour, the secret of it all being largely her unshaken faith in her Saviour.  
To Mr. Daniels and the three boys, to whom the loss seems irreparable, to the mother and two brothers, and also to Mr. and Mrs. Harris Daniels,

the aged parents in Lawrencetown, to whom she was a true and loving daughter, the deep sympathy of a large circle of friends is extended.  
The funeral service held at the home on Tuesday afternoon, Oct. 7th was conducted by Rev. A. H. Whitman assisted by Rev. W. H. Rackham and was very largely attended.  
The body was laid to rest in the beautiful Fairview Cemetery, Lawrencetown, there to await the Resurrection Morning.

**A STATISTICIAN'S POINT OF VIEW.**

Roger W. Babson has a world-wide reputation as an authority on statistics. More than that, his business advice and his periodical reports guide the operations of many of the largest business corporations in the States. In one of his recent reports he says, "The prosperity of our country depends upon the motives and purposes of the people. These motives and purposes are directed in the right course only through religion. With the forces of evil backed by men and money, systematically organized to destroy, we must back with men and money all campaigns for Christian education. As the great life insurance companies are spending huge sums of money on doctors, scientific investigations, and district nurses to improve the health of the nation, so we business men should spend huge sums to develop those fundamental religious, qualities of integrity, industry, faith and service, which make for true prosperity. This is not the time to reduce investments in schools, colleges or in the Y. M. C. A. This is the time of all times to increase such subscriptions."

**Prince of Wales' "Little Grey Home in the West"**

WHERE THE ROYAL RANCHER LIVES  
THE PRINCE AND HIS 10 GALLON HAT  
THE PRINCE'S THOROUGHBRED SHEEP  
After having enjoyed about as much privacy as the proverbial goldfish during the international polo games near New York, the Prince of Wales retired to the quiet and seclusion of his Canadian "Little Grey Home in the West," 25 miles from High River, Alberta, a station on the Canadian Pacific, to rest for a few days, recreate and work far from curious crowds, reporters, still photographers and "movie" men. It is very pleasant, no doubt, to be the most popular young man in the world, but about once a year the rolling hills and rich prairie land of his "E. P. Ranch" call the Prince of Wales, Baron Rentrew or "Davy Windsor," as they refer to H.R.H. in Alberta, back to the land.  
The prince is a real farmer and rancher, and is honestly endeavoring to improve the breed of horses, sheep and cattle in Western Canada. His pure-bred, imported animals and their offspring have won many prizes in competition at live stock shows in Western Canada, not because they were from the royal ranch, but because they were the very best exhibited. Since he bought his 4,100 acre ranch in Alberta in 1919,

Sunday of heart trouble. Mr. Camp—Chicago.
