

Is this a good advertisement?

Yes, if it has attracted your attention. This is the time of year when good stock can find ready purchasers, but you must let people know what you have to sell. An advertisement in THE BRITISH COLUMBIAN FANCIER may help you. Try it and see.

BLACK and WHITE MINORCAS, BARRED PLYMOUTH ROCKS, LACK LANGSHANS.

Our Minorcas are too well known to need comment. They are of the true Minorca type, (not Black Leghorns) all being standard weight. Our stock have won highest honors at the largest exhibitions, including New York, Worcester, Detroit, Toronto, Hamilton, London, and New Hamburg. Our record on these grand varieties has never been beaten, if ever equalled, by any other breeder in America.

Our Rocks are as good as can be found anywhere. They are standard weight, beautifully marked, and have won everywhere. Our Yards contain prize-winners at the largest exhibitions in the United States and Canada.

Our Langshans are winners everywhere shown. We won 1st on cockrell at the late Ontario show, in competition with the best birds in Canada. Stock for sale at all times. Eggs, in season, \$3 per setting, two, \$5

Special attention given to the shipment of stock and eggs to the Pacific Coast.
