

1,000 and 1,500 feet above sea-level. The principal locality visited on the Yukon River was a gravel hillside, sloping towards the south, within a short distance of the town of Dawson. Another locality was a rocky hill, also facing the south, a couple of miles further up the valley. The localities on Bonanza and Hunker creeks were either on the swampy flats or on the swampy hillsides. Chandindu River was visited once, on July 13th, and the plants, as labelled, were collected either on the wide swampy flat in the bottom of the valley, on a grassy hillside on the north side of the valley, or on a sandy bar at the mouth of the river where it joins the Yukon River. Forty-mile River was visited for a few days between June 29th and August 8th, and the plants were collected close to the banks of the river as we ascended and descended in a canoe."

*ANEMONE PATENS*, Linn., var. *NUTTALLIANA*, Gray.

Yukon River, in flower May 1st; Klondike River, April 30th.

*ANEMONE PARVIFLORA*, Michx.

Hunker Creek, May 30th.

*ANEMONE RICHARDSONII*, Hook.

Chandindu River, June 13th.

*RANUNCULUS MULTIFIDUS*, Pursh, var. (?)

Chandindu River.

*RANUNCULUS LAPPONICUS*, Linn.

Chandindu River, June 13th.

*AQUILEGIA BREVISETA*, Hook.

Chandindu River.

*DELPHINIUM SCOPULORUM*, Gray.

Chandindu River.

*ACONITUM DELPHINIFOLIUM*, DC.

40-mile Creek; Chandindu River.

*PAPAVER NUDICAULE*, Linn.

40-mile Creek. This species is out of range and better specimens may indicate a new species.

*CORYDALIS GLAUCA*, Pursh.

Chandindu River.

*CORYDALIS AUREA*, Willd.

Bank of Klondike behind Dawson, June 11th.
