CURRENT TRADE CONDITIONS.

ONTARIO.

Prices of lumber at the mills throughout Ontario have hardened somewhat, though no decided advance has taken place. With the exception of the backward spring, which it is feared may affect the yield of wheat, general conditions are favorable, and it would probably not be found difficult to make an all-round advance in lumber prices. This, however, is not likely to occur, as most of the manufacturers are of the opinion that the wiser policy is to encourage the consumption of lumber by keeping prices at a normal level. There will doubtless be some advances on certain grades, such as box lumber, owing to the unusually light supply. Ten and 12 inch pine dressing is stronger at the present time, and Norway is showing a little more activity and strength. High prices are also being paid for mill culls. Warmer weather has increased the hardwood trade. There is a splendid enquiry for elm and birch, while thick stock in nearly all classes is in steady request. Lath prices are firm at the recent decline. No. 1 white pine is held at the mills at \$2.75 and No. 2 at \$2.25. For No. 1 and 2 Norway \$2.50 and \$2 respectively are asked.

QUEBEC AND NEW BRUNSWICK

A fair movement of lumber for local account is now in progress, and there is a
