

possibility resting on them, they have sunk, easy victims to an enemy whose ravages they faithfully laboured to resist. Many of these men were residents of the infected cities, and though all was consternation around them, they flinched not at that trying hour; whilst others from all parts of our country ardently rushed to the scene of danger, and sacrificed their lives in the vain attempt to check the fearful pestilence. No pompous funeral accompanied our brethren to their silent grave, no music, sad and mournful, rings upon the ear. They lie quietly now, but they have not died in vain. Faithfully have they fulfilled the sacred duties of their calling, and their memories remain an imperishable legacy to the profession they have ennobled and adorned." The following are the names of the gallant band of men, who, undismayed by death in one of its most repulsive forms, remained at, or hastened to, the post of danger, and fell nobly in the discharge of their duty.

Microscopes.—Those of our readers requiring Microscopes, will be glad to learn that these instruments can be obtained as undermentioned from Messrs. Buxham & Sons, Millburn, Lake co, Illinois.

No. 1. Is an upright Microscope with Cast Iron Japanned Stand and all the fittings of brass which stands about thirteen inches high—with a magnifying power of from 350 to 400 Diameters or from 800 to 1000 Diameters for \$75. This is an instrument suited to the medical practitioner generally, and any object that has been observed by the best Microscopes can be satisfactorily with this;—in fact it is a perfect working tool.

No. 2. Is a large Archromatic Microscope mounted on solid brass tripod, with two pillars supporting the bar which carries the body; plane and concave mirrors, Diaphragm plate, and large stage; the body, stage and mirrors having a vertical motion so that the body may be set horizontally—with three separate systems of Achromatic powers ranging from 90, 180, 400 and 1000. This instrument stands about 18 inches in height, the body tube is 1 1-2 inches in diameter, and is altogether a superb instrument. Price, \$180.
