EXPORT MARKETS FOR CANADIAN-MADE SHOES AND
BOOTS

Question No. 565—**Mr. Yewchuk:**

To date, what action has been taken by the Department of Industry, Trade and Commerce to secure markets for Canadian-made shoes and boots in (a) Africa (b) People's Republic of China (c) U.S.S.R. (d) US (e) Yugoslavia?

Mr. Bruce Howard (Parliamentary Secretary to Minister of Industry, Trade and Commerce): (a) None. The bulk of the footwear used in Africa is manufactured locally. This market is supplied from "low-cost countries" in view of the fact that footwear demand is for a low-cost footwear not normally manufactured in Canada. (b) In discussions between Chinese officials and departmental representatives, including the arrangements for the Canadian Trade Exposition in Peking in August, it has been made clear that the Chinese authorities are unwilling to allocate their limited foreign exchange to pay for imports of consumer goods—particularly footwear which can be supplied locally. (c) and (e) No action has been taken by the Department to secure markets for Canadian-made shoes and boots in the USSR and Yugoslavia. Wage differentials and other costs between Canada and these two countries make it difficult to penetrate this market. (d) A cost benefit analysis of export opportunities has indicated that the best
