My dear Sir Arthur Currie

Our journey is not over yet but as we are on the last stretch I feel I should let you know briefly how we have fared as Representatives of McGill. One person evidently felt McGill should not have Representatives but its principal on such a trip and addressed the enclosed letter to you. I expect there is little that I can tell you about the Educational conditions in the islands. McGill is well known of course and some of her Graduates are outstanding. The schools look more to London and Edinburgh but except in Medicine welcome everywhere their own or other sons who are trained in McGill.

On account of the action of the Medical Councils in Ontario, Quebec and New Brunswick
