"Let them come—this is the best country I ever struck for a man with a few thousand dollars to go into stock. I only raise oats for my horses and have some eighty head of cattle, so cannot say much about crops. I will have 60 to 70 bushels of oats to the acre this season.

"JAMES FULLERTON,  
"Cook's Creek."

"From what I have seen in other countries this is as good a place as any man can come to. For my part, I have done better here than I could ever do in any other country. I raised wheat here, and there have been men from California and other places, looking at it, and they said they never saw anything like it before. One year I raised 35 bushels to the acre of Black Sea wheat, and I have raised wheat which stood 6½ feet high, and not one straw of it lay down. I would be glad if half of the people of Ireland were here,—and they would then be in the best part of the world. Every one who comes here can do well if it is not their own fault.

"JAMES OWENS,  
"St. Anne, Pt.-Du-Chêne."

"Good advantages for settlers in this country; plenty of hay and pasturage. Can raise any quantity of stock without interfering with the grain crop. Good water and plenty of wood.

"JOHN HALL,  
"St. Anne, Pt.-Du-Chêne."

"We think this country cannot be beat for farming, and farmers can raise all the stock they want and cost them nothing, as they can cut all the hay on the prairie they want for winter feed, and their cattle will grow fat on it if well watered and cared for.

"JAMES LAWRIE & Bro.,  
"Morris."

"Any man with \$500, willing to work, can soon be independent here.

"ALEX. ADAMS,  
"Clear Springs."

"I had twenty-eight acres in crop last year, and had eleven hundred bushels of grain of which I sold four hundred and fifty dollars' worth, besides having feed for my team and bread for my family.

"JAMES DAVIDSON,  
"High Bluff."

We have not space to give all the evidence from farmers which we have received in favour of the country. We have given the names and addresses however of those who are willing to bear testimony, and it not only speaks well for the country but also for those farmers who can thus come forward and give evidence that they have prospered in the new land.

Wherever you go throughout this land you will find the settlers industrious, prosperous, and contented, enjoying the advantages of church worship, schools, and Post Office facilities, thanks to the energy of the authorities for extending the benefits of civilization as fast as new settlements are formed.

At present there is a good home market, and this is likely to continue for some time, while immigration goes on and public works are proceeded with, thus creating a large demand for produce.

In addition to this, however, the rapid construction of railways will give immediate facilities, so that between a home and foreign demand the farmers of the Canadian North-West can look forward to years of prosperity, having as they will, *a fertile soil with willing hands to work it.*
