LONDON, Jan. 6.-The compromise c which the Conservative leaders agreed to the passage of the Parish Councils bill ha tied the hands of the House of Lords a regards the modification or rejecting of this measure, which is intended to revolutionize the whole system of rural government in England. The concessions granted as the compromise to the Conservatives in no wise alter the main proposals to place the control of the main administration under the popular vote. #### COMING LEGISLATION.

The ministers have given pledges to the Irish members that the Queen's speech at the re-opening of the session shall announce the urgency of a bill to reinstate evicted tennants in Ireland. The bill has been already prepared, in accordance with the recommendation of Justice Mathews' com-mission, which was appointed in Dec., 1892. to inquire into the condition of the evicted tenants. It will be pressed through the House of Commons without delay. The other bills which will be promised in the Queen's speech will provide for Welsh disestablishment, one man one vote, the local veto, the eight hour day in mines and exceptionally unhealthy industries and equalization of the rates in London. Seeing in the be vy character of this programme, the cer-tainty of a protracted session, the Irish Nationalists agree that it will be futile to traintno des ins Home Rule bill until 1895, shortly before the dissolution.
