### A Few Reasons Why People Collect Trading Stamps

1. They are tired of paying the other fellow's bills.
2. They are entitled to their discounts for the same reasons that merchants get their discounts.
3. They know that an honest merchant can better afford to give discounts to his cash than to sell on credit.
4. They know that under ordinary systems the cash customers pay all the losses, errors and expenses caused by credit.
5. They know that the merchants who give trading stamps do not require to borrow money from the banks and pay 7 per cent., but by selling at "small profits, with quick returns," can get all the money they require from their customers, and can give their customers, and not the banks, the full benefits of the discounts they receive themselves.
6. They know that by collecting Dominion Trading Stamps their families are no longer worried with overhanging debts, they have money ahead in place of debts behind, that they are more careful in their purchases when paying cash, and that the discounts they save amount to more than double the interest banks pay.
