Products of Canadian Manufacturers on View at Toronto Fair.

"Toy making in Canada" is treated extensively in the supplement to The Weekly Bulletin, published by the authority of Right Hon. Sir George E. Foster, minister of trade and com-merce. The article deals with the toy obtaining goods to make up the shortage occasioned by German supplies being cut short on account of the war. It will be recalled by those who visited the exhibit that the number of tays collected and the evidence of workments in the supplies that the number of tays collected and the evidence of workmanship superior to anything that might have been expected in the short time that had been expended upon the output, were matter of pleasurable surprise, the collection being larger than anything anticipated and the quality and makeup, in some instances,

showing no small amount of artistic skill, as was the case in some of the dolls made during the months immediately preceding the fair. The Bulletin comments on the interest shown by various women's organizations, an interest evidenced by the attendance at a conference and of the resolution passed asking that the resolution passed asking that the "Made in Canada" dolls and other toys be brought to the knowledge of women thruout the Dominion, and also that there be a "toy fair" at the time of the

Chicago Counts on a Thirty Days' Meeting-In the South.

(By Bert E. Collyer.) CHICAGO, Aug. 11.—Sufficient time low having elapsed to clarify the local racing atmosphere, conditions warrant the prediction that Chicago will have at least one race meeting next year of no less than thirty days' duration. Present indications are that this will begin about July 1, thereby avoiding any serious con-

while there is some talk of repairing the old Worth race track, owned jointly in the hey-day of the sport here by the Wagner brothers and John Condon, this.

Under whose financial auspices next year's meeting will be conducted has not yet been made definitely clear. While the meeting will undoubtedly be held by th "Illinois Jockey Club," a shifting of the stock of that body from the original stockholders to Thomas Carey, owner of Hawthorne, in consideration of his assuming and paying the deficit, said to be \$10,300, of the recent meeting, leaves the question of financial responsibility somewhat up in the air. Indications are, however, that Carey will again be the power behind the throne, unless a rumored project on the part of certain interests hene of leasing the track, lock, stock and barrel, for the thirty days, materializes.

There is good reason to suspect at this writing that Juarez will be without its

customary meeting this winter. Under normal conditions on the border, with New Orleans again in full swing and the Pacific Coast, it would have been a serious problem to get sufficient horses to hold a meeting at the Mexican town; but, with political conditions as they are, and the necessary "back door" to the powers that were effectually barricaded, a winter session seems folly to attempt. That the management also is inclined to hold this view is evidenced by the fact hat Manager Winn has thus far withheld-his customary assurances of a meeting, while Secretary Jasper has accepted a similar position at Essex Park, Hot Springs, running collaterally with the usual first month at Juarez.

Private advices from the east indicate that C. J. Fitzgerald will be the general manager of the coming winter meeting at New Orleans, to replace Judge Joseph A. Murphy. It seems a pity that in the general explosion of racing affairs at the Crescent City, following the last meeting, Judge Murphy should be the one to suffer most. Murphy brought back the sport in Louisiana, amid all the turmoil, and he should have been allowed to enjoy the fruit of his labor in times of peace. If Murphy must go, however, the Business Men's Racing Association of New Orleans, in selecting Fitzgerald, might have gone further and fared worse.
