

### CRITICS, SAYS GLOVER, USED UNFAIR METHODS

#### Academy of Medicine Surprised Him by Declining to Examine Clinical Cases After Requesting This Privilege—No Further Probe Behind Closed Doors—Perfected Serum Will Be Available for World.

Dr. Thomas J. Glover, who returned from New York on a flying visit yesterday gave out a lengthy statement in which he contends that the recent report of the committee of the Academy of Medicine, strongly adverse on the subject of the Glover anti-cancer serum, was not a fair one.

Dr. Glover later said that when he is satisfied that the serum has been brought to as near perfection as can be attained, he will immediately place it at the disposal of the world in the same way as vaccines and anti-toxins are placed.

**Apparent Cures.**

In his prepared statement Dr. Glover says: "My clinic shows that I have apparently cured cases of cancer which could not be improved by operation, administration of radium or X-ray methods. This can be verified by both doctors and patients who are brought to us from different parts of Canada and the United States.

"Until recently I had not been sure of the correct dosage of my serum and had to be content to use small doses and proceed slowly until I had perfected my serum."

**A Change of Front.**

He goes on to say that in the last week of September the deputy minister of health asked him to appear before the Academy of Medicine and give a clinical demonstration, and he agreed to do so. On October 14 an American authority on private business and the privilege of seeing some of Dr. Glover's patients, and later this authority asked Dr. Glover that the serum appeared to be a cure.

**On October 15 Dr. Glover was surprised to receive a letter signed by Dr. J. H. McPhedran, secretary of the special committee of the Academy of Medicine, stating that the committee would be unable to examine any clinical cases. Dr. Glover's statement suggests that the committee may have been induced to change its plans after hearing from the U. S. authorities.**

**Dr. Glover expressed great surprise that his statements as to the condition of his cases, and that the committee's time could be more profitably spent in a general discussion.**

Dr. Glover expresses great surprise that his statements as to the condition of his patients should be thus accepted, and asks why, in this case, a further investigation should be considered necessary.

**A Long Conference.**

Dr. Glover tells of getting into touch with the deputy minister of health, the president of the Academy and the chairman of the special committee on the night of October 12. The conference lasted from 11 p.m. to 4 a.m. Dr. Glover firmly holding that the clinical demonstration should be proceeded with. The president finally agreed and promised that the same committee or a new one would meet Dr. Glover on the morning of October 19. The committee appeared in Dr. Glover's office at the appointed hour. Dr. Glover's statement adds: "The committee endeavored to spend most of their time in securing from me the formula of my serum and the scientific preparation, which I refused to give. It was evident after that what their one object was."

**"Ridiculous" Haste.**

"I explained to them that, according to the arrangements, this was a clinical demonstration, and later on I would give a demonstration of my scientific work I nevertheless disclosed sufficient details to enable them to lay a foundation for a clinical demonstration. I suggested a number of times that they examine my cases. I may say that the president of the Academy of Medicine also suggested that this be done, as that was the purpose for which they had come. They examined twelve cases out of twenty."

**"Ridiculous" Haste.**

which I had present. This they did in about an hour, which is ridiculous. Ignoring said. Experts.

"In selecting cases for the demonstration, I did not select cases which would show the serum in its best beneficial light, but selected cases which would demonstrate every known type of cancer. There were six members of the committee present, including the president. The examining was chiefly done by two members. They did not go into the histories of the cases in detail, but were satisfied with the summary of the reports. The different doctors who were present at the clinic. Notwithstanding the expense incurred and time lost by these prominent medical men, the committee elected to ignore them entirely.

**Reports Available.**

"Every case submitted to the special committee had been previously diagnosed by competent and reliable medical and surgical men, and every known type had been done to arrive at a correct diagnosis, except in one case, where a section of my clinic from distant points to be a case, and had been treated by radium for six months before coming to me. The reports of the different doctors on the various patients were available while the committee were carrying on their investigation."

**Didn't Visit Laboratory.**

"It notes from the report made by the committee, they have seen fit to find fault with me because I refused to allow a member of the committee to go thru my laboratory. I may say that I never at any time suggested that I show them thru my laboratory. About three o'clock one afternoon I received a letter which stated that one of the members was going to New York that night (presumably on private business) and give a demonstration on the date suggested by them, at which time the academy had my letter stating that it was impossible for me to comply with the request."

**False Reports.**

"Touching upon the question of 'psychic effect,' Dr. Glover says the value of the serum has no relation to the mental state of the patient. His only suggestion that a spontaneous cure of cancer is possible. He concludes: 'From what I have written in my reports have been given to the press by certain parties. These appeared to be given for a purpose. I cite one fact which appeared in one of the morning papers some time ago, that I refused to meet the Academy of Medicine and give a demonstration on the date suggested by them, at which time the academy had my letter stating that it was impossible for me to comply with the request.'"

**Provincial Force Make Big Seizures.**

O.T.A. Administration Results in Heavy Fines—Many Convictions.

According to the annual report of the superintendent of provincial police issued yesterday there was seized during the fiscal year ending last October, 22,314 bottles of whisky, one keg of whisky, 219 bottles of beer, also four barrels and two kegs of beer, five gallons of high wines and 64 gallons of alcohol, all of which was turned over to the license department.

The force during the year secured 418 convictions for O.T.A. Fines were imposed for O.T.A. to the extent of \$116,203. Under the inland revenue act for manufacturing liquor, 77 convictions were secured and fines imposed to the amount of \$6,610.

**Chasing Run Runners.**

Dealing with the possession of ten special constables who were members of the Ontario provincial police force, but who were sent to Windsor and the border cities under Inspector Scrimger of the criminal investigation department, for the purpose of assisting in the "round-up" of the alleged run runners, Superintendent Rogers says that between August 4 and September 24 last they handled 104 prosecutions and only had three dismissals. Fines imposed for various offences under the criminal code and the statutes of Ontario amounted to \$11,006. Of these 47 prosecutions were under the O.T.A., and \$8882 was collected in fines. The salaries of the special men and the expenses of the officers engaged in this work amounted to \$3,517, leaving a surplus of \$8,088 to the province.

**Heavy Fines Collected.**

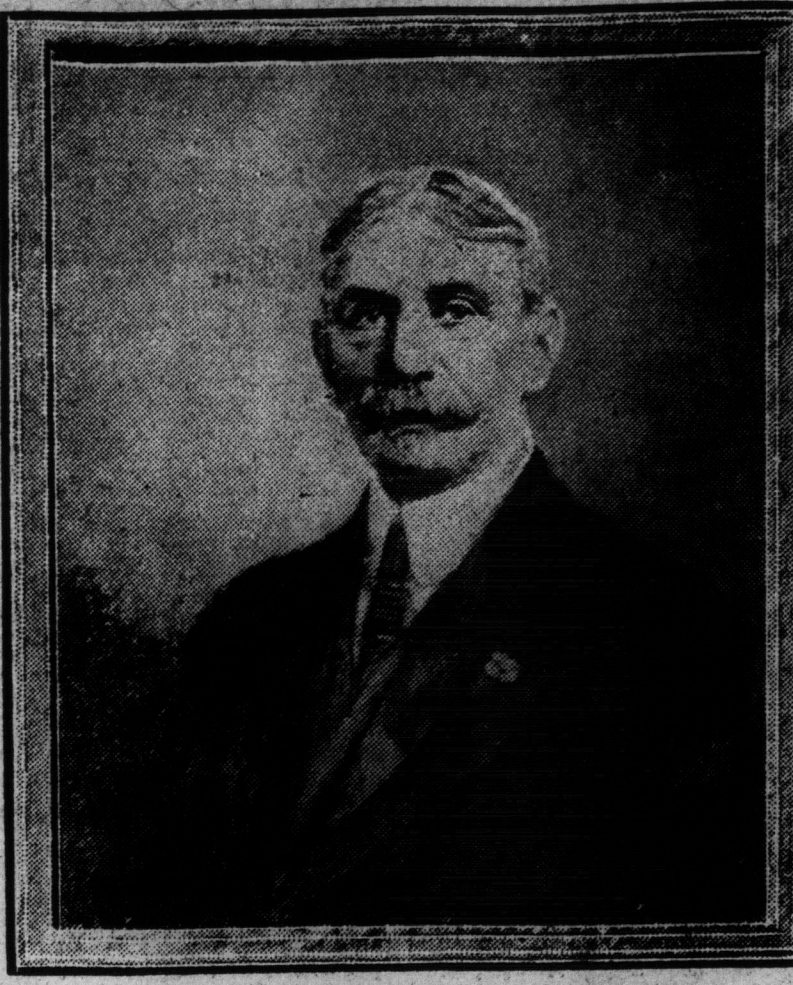

The total amount of fines imposed for the year was \$135,838, an increase of \$54,653. This is the highest figure in fines since the force was organized. The expense of the police force, including salaries, insurance, contingencies, uniforms, phones and traveling expenses amounted to \$72,423. It has, according to Superintendent Rogers, more than paid for its maintenance by \$63,415.

The amount of expenses repayable by the counties in respect to various investigations, requests for such services having been made by the county crown attorneys, is \$2,005. The amount of fees received by the officers of the force and turned into the treasury department was \$4,768.

The number of convictions secured was 1,222, which is slightly over 10 per cent. of all arrests made and summonses served.

**OFFICIALS OPPOSED TO PARTIAL EXEMPTION**

The heads of civic departments are reporting to the board of control against making the by-law providing for partial exemption of dwelling houses effective this year. The city clerk, assessment commissioner, city solicitor and city treasurer were asked to bring in a report. The by-law will probably not be given its third reading until council meets on February 7.

PORTRAIT OF THE LATE C. A. B. BROWN. The painting, a memorial to the former chairman of the board of education, who was struck and killed by a motor car last summer, was presented to the board by Toronto teachers yesterday.

### SANITARIUM SUES CITY FOR ACCOUNT

#### Action to Recover Amount for Maintenance of Patient at Muskoka.

The city pays about \$150,000 a year to the Muskoka and Toronto Free Hospitals, and yet the solicitors for the sanitarium seem to find it necessary to sue the city for a \$300 account and pile up lawyers fees without first seeking an adjustment with the board of control.

The city solicitor wrote the board of control yesterday as follows: "Messrs. Robinson, Godfrey, Phelan and Lawson, as solicitors for the Toronto Free Hospital for Consumptives, have issued a writ against the city claiming the sum of \$327.25 for the maintenance of one, Cyril Wardell, from April 29, 1920, until November 15, 1920. The facts in the case seem to be as follows: Cyril Wardell was formerly a resident of Bridgeburg, Ont., having contracted pulmonary tuberculosis. He went to the Muskoka free hospital, where he was admitted on March 14, 1917. In October 1919, his mother, who formerly also lived at Bridgeburg, moved to 199 Bonaire avenue, where he was admitted on November 17, 1919. The son was discharged from the Muskoka free hospital and came to live with his mother in Toronto. According to a declaration on oath by Cyril Wardell, he resided with his mother at 199 Bonaire avenue, Toronto, until his admission into the Toronto Free Hospital on April 29, 1920. Because of this fact he becomes a resident of Toronto and the city would therefore be liable for his maintenance.

It is thereupon recommended that the sum of \$287.25 be paid to the said plaintiffs, together with an allowance for costs of the solicitors, incurred to date, which amount to \$40.00.

When the letter was read, Vice-Chairman Maguire said that was not the kind of treatment Toronto might expect from the Muskoka sanitarium.

There is at present an application from the sanitarium for a grant of \$71,000 to make up the deficit on the account of the two hospitals for 1920.

**FIRST ZERO WEATHER HIT CITY YESTERDAY**

Dropped to Five Below in Morning, But Rose to Eight Above.

Zero weather hit Toronto yesterday for the first time this winter. At 8 o'clock in the morning the mercury, which had dropped all night, reached its lowest point, five below at the observatory. Temperatures varied all over the city, dropping to as low as twelve below at the Eastern Gap. Torontonians who had been expecting a "mild" winter received somewhat of a surprise.

However, there was not much wind, which made it a little easier to bear. The air also was dry, so that the cold was not greatly felt, except the face, ears and other parts exposed. The mercury started its downward trend at 8 o'clock Monday night, and the slide was gradual. At 8 o'clock it was eight above, 10 p.m., three above, midnight zero, 2 a.m., two below, 3 a.m., 2.5 below, 4 a.m., three below, 5 a.m., 2.5 below, 6 a.m., four below, 7 a.m., and 8 a.m. five below zero. From then on Old Sol warmed the air a little, and the mercury came back at 9 a.m. to four below, 10 o'clock zero, 11 two above, and at noon four above.

In the early afternoon it began to rise until at 2 p.m. the mercury stood at eight above. From then on it began to steadily lower and at 8 p.m. was only four above. During the latter part of the evening and towards morning it began dropping to the zero mark.

**TO SPEAK AT ROTARY CLUB.**

Announcement was made yesterday that Sir John Martin Harvey will address the Toronto Rotary Club at its regular meeting next Friday. As Sir John is a Rotarian member of the London (England) Club, Torontonians are looking forward to Friday with a great deal of anticipatory pleasure.

**CONFER OVER TRANSFER OF TORONTO COURTS**

The board of control had a conference yesterday with the attorney-general regarding the proposal to transfer the high courts from the city hall to Osgoode Hall in order to leave more room in the city hall for the county courts. A decision will be reached at another conference to be held tomorrow.

The board also took up with the attorney-general the question of an adjustment of the accounts between the city and the provincial government, and Mr. Raney said representatives of the government would meet the board again in a few days and go into details.

**ONTARIO SECURITIES IN NEWFOUNDLAND ESTATE**

Stocks and bonds, valued at \$5,909, are the Ontario securities in the estate of Avariah Dawe, a merchant of Bay Roberts, Newfoundland, who died Jan. 8, 1919, leaving \$255,273. The stocks are 10 shares Steel Company of Canada, \$980.20; Pacific Railway, \$900; 10 Russell Motor Car Co., \$1,090; 23 Canada Locomotive, \$1,985, and 10 Pacific Burt Co., \$800. Three sons, three sisters, three cousins, a nephew, and niece, three grandchildren and a number of friends living in Newfoundland share under the will.

### BUYING IN CANADA FOR KING EDWARD

#### Only Two Small Items Purchased Outside for Extension of Hotel.

Ninety-nine per cent. of the money being spent on the construction and fittings of the new annex will be spent in Canada on Canadian-made materials, George H. O'Neill, general manager of the King Edward Hotel, declared yesterday refuting a report that some of the contracts on the million-dollar structure had been let to American firms.

"Every possible item which can be purchased in Canada has been and will be purchased right here, Canada need not worry about any business that I can get for them," added the general manager.

"Some time ago I requested of the directors that all materials be purchased for the new annex in Canada and they consented," said Mr. O'Neill. Of the hundreds of thousands to be expended only two small items—terra cotta for the roof and some specially constructed doors—have been purchased in the United States, Mr. O'Neill stated. Every big inside and outside job had been contracted for with Canadian firms, he assured his enquirer: "I made a promise to the executive of the Canadian Manufacturers' Association and I have kept my promise," he added.

### FAMOUS BARTONE FOR MENDELSSOHN CHOR

Warrenath, the famous baritone of New York, has been engaged by the Mendelssohn Choir for the society's annual concert with the Philadelphia Orchestra during the second week in April. He will sing the exciting solo part in Vaughan Williams' remarkable composition, "A Sea Symphony."

Recently Mr. Warrenath had an engagement at Hamilton. Despite the pressure on his time, he found occasion to come to Toronto of his own motion and seek a consultation with Mr. H. A. Fricker concerning the tempi and the general interpretation of the "Symphony." At the same time he expressed his pleasure at the prospect of being associated with the most distinctive chorus in America in the production of a work of such beauty and power.

"A Sea Symphony" was first performed at the Leeds Festival under the direction of the composer. As Mr. Fricker was associated with Dr. Williams on that occasion, the Toronto public is assured of a performance which will illustrate very clearly the conceptions of the composer.

### HUSBAND BENEFITS BY TORONTO WOMAN'S WILL

Blanche Kelly Hepburn, who died Oct. 15, left \$21,724. Property at 30 Summerhill Gardens is valued at \$10,500; cash, \$523; bonds, \$6,101; and household and personal effects, \$2,500. The will was executed on September 3, devising jewelry to a daughter, Rebecca Hepburn, and the residue to the husband.

Henry Fields, a retired engineer, died Aug. 16, leaving \$17,689. The estate at 251 Crawford street is valued at \$7,000; cash, \$3,589; insurance, \$2,000, and household and personal effects, \$100. His daughter receives a life interest, and following her death, a niece, Bessie Johnston, of Merrickville, inherits.

### ESTIMATE FOR CHANGING STREET RAILWAY GAUGE

An estimate of the cost of changing the gauge of Toronto street cars to standard, obtained by the transportation commission, is from \$100 to \$200 per car. The T. S. R. have about 675 cars, and the total cost therefore would be about \$101,250, at an average of \$150 a car.

The commission figures that about 80 per cent. of the present roadbed will have to be replaced and that the cost of standard width without extra cost when being rebuilt. The changing of the gauge of the other 20 per cent. of the lines would not be a large item. If a decision is reached to make the change it will be done gradually and on one route at a time.

### CONFER OVER TRANSFER OF TORONTO COURTS

The board of control had a conference yesterday with the attorney-general regarding the proposal to transfer the high courts from the city hall to Osgoode Hall in order to leave more room in the city hall for the county courts. A decision will be reached at another conference to be held tomorrow.

Even. 50c to \$2.50; Wed. Mat., 50c to \$1.50; Sat. Mat., 50c to \$2.00.

### BAILIFFS UNDERTAKE CARE OVER EVICTIONS

The bailiffs of the city had a conference yesterday with the board of control on the question of evictions for non-payment of rent. It was explained to them that many people out of work were in serious difficulties and that the city was endeavoring to help them out, and the cooperation of the bailiffs was desired. The bailiffs undertook to communicate in future with the city department which is handling matters of that kind and with the Salvation Army, and to make no evictions in future except in cases where intent to defraud was apparent.

### NEW SEAT FOR CURRY

It was decided Saturday to seat J. W. Curry, M.L.A., in the place formerly occupied by R. R. Hall, M.L.A., in the Liberal benches. Mr. Hall will move up to Mr. Curry's old seat in the second row, near the Liberal leader.
