

It might be well to bring to the notice of the members the fact that very few of the graduates pay the necessary fee to entitle them to life membership and our annual pamphlet:

Also that the cost of our pamphlet far exceeds the sum received from our advertisers. If our life members would assist us in this matter we would soon be in a position to make our publications more valuable than they now are. All of which is respectfully submitted.

Yours,

E. A. JAMES,
Treasurer.
