

director and a good friend to the School, who left us a legacy of 250 dollars.

We are sorry to say we end the year with a deficit of \$925, so that we cannot appeal too strongly to our many friends and supporters for increased assistance. Surely when it is seen we cannot do as well for the boys as we would like to, generous assistance will be accorded, that we may be enabled to add a couple of other trades, in order that boys might choose what they were best adapted for and so make success more assured.

We want an outside building fitted up as a gymnasium and play room to relieve the Home in wet and stormy weather. "Who will provide the School with it?"

We cannot close without bearing testimony to the indefatigable labors of Mr. and Mrs. Norman. We also wish to thank Dr. Lindsay, the Press, and all others who have kindly assisted us.
