The United States government, though carrying on extensive armories of its own, has recently contracted with a private company in Connecticut for the supply of 30,000 pistols, at six dollars and fifty cents each; or 125,000 dollars' worth of these weapons so much in vogue with duellists and assassins. The American Bible Society congratulates itself on receiving, the past year, one hundred and sixty-six thousand, six hundred and fifty-two dollars, the aggregate of all that has been given through the Union for the dissemination of the Word of Life at home and abroad. So it goes; Christendom expends more in one year on the means and instruments of human slaughter, than has been given to the promulgation of the Gospel since Jesus Christ died on the cross!
