

Good Things Coming to Theatres of St. John

WELL, HERE ARE MORE BIG THINGS AT THE GEM Ethel Clayton is here tonight in "The Web of Desire." If you want a really good picture, see this. And don't fail to see the Tania Midgets. They're all other vaudeville, too. A lot of entertainment for a little money.

HOUSEWIVES' LEAGUE WANT TO MEET THE KINGS MILKMEN

While the city commissioners are grappling with the milk price problem, members of the Housewives' League are taking a deep interest in the matter. When it was learned that the council would invite representatives of the Kings County Producers' Association to meet with them on Monday, representatives of the league sought to arrange a conference with the producers on the same occasion and it is expected that this meeting will be held on Monday, when the ladies will discuss the matter with the producers' representatives. A member of the league said that that organization is determined to prevent the imposition of the twelve cent price if it is at all possible to avoid it.

FREDERICTON SOLDIERS HOME FROM THE FRONT

Fredricton, Sept. 12.—Gunner John Cain of this city, invalided home on account of rheumatism contracted while on service in France with the Canadian Field Artillery, and Private H. J. Donovan of Springfield, invalided on account of wounds, arrived here last night. Bandsman Joseph Donovan of Fredericton, member of the 104th Battalion band, and Corporal Vincent of Keswick, former member of the 140th Battalion, arrived yesterday. The report that Lieut. Charles Fitz Randolph was to be relieved last night was not correct, that officer being confused with Lieut. Guy Fitz Randolph, who is expected soon.

EXEMPTION FORMS IN PRINTERS' HANDS

Ottawa, Sept. 12.—More than two million forms of exemption reports under the military service act are in the hands of the printers and will be distributed in the course of a few days. Distribution will be effected through the post office department and the forms will be available at any post office in the dominion. Medical boards are to be established almost immediately in all the large centres of population. While a man in the first class to be called out is expected to submit himself for medical examination until the time limit for exemption expires, it is hoped by the military service council that full use will be made of the boards. In the interests of both the employers and men, it is essential that a man who is not fit for service should be obtained without delay. A certificate of physical unfitness granted by one of the medical boards will be accepted by the tribunals and the man exempted from service on that ground. Should a man feel that he has not received justice from the medical board, he can still appeal to the tribunal and submit outside medical opinion as to his physical fitness or unfitness.

READY BEFORE WINTER SEASON

Comptroller Russell gave assurance this morning that the repairs to the railway trestle which serves Nos. 5, 6 and 7 tracks in West St. John, will be completed in good time before the opening of the winter season. He has been giving the matter his attention, but was prepared to report to the council yesterday afternoon and expects to do so on Thursday morning. He is in mind arrangements which will make it possible to complete the work in good time.

MAY BE LIMITED OF FIVE TONS TO ANY CITIZEN

Coal to be Placed Probably in McLeod Wharf Warehouse—Transportation Not Yet Arranged. Now that the 10,000 tons of anthracite is available for the use of the citizens of St. John, provided means of transportation can be secured, further steps regarding this feature of the matter is being awaited with interest. Mayor Hayes said this morning that he has received no reply yet to his wire addressed to the Century Coal and Coke Company in which he asked about the possibility of arranging rail transportation. When the coal reaches St. John, it is the intention to store it in one of the city warehouses, probably that on McLeod wharf, and then retail it to the citizens to the best advantage. As the coal is being brought here chiefly for the benefit of those who can least afford the present high prices and who may have difficulty in securing coal at any price, it is the intention to place a limit on the amount which will be sold to any one citizen. The quantity which will mark the limit has not yet been fixed, but it is probable that it will not be more than five tons.

NEWS OF DEATH OF WIFE AWAITS HIM

Explorer Bernier Now Off Labrador Coast; in Quebec in Few Days. Quebec, Sept. 12.—The steam schooner Guide, under Captain Joseph Bernier, of this city, a noted far north explorer, has been reported officially today off Point Amour, Labrador coast, and will be here within five days. Captain Bernier is now returning after his fifth cruise in the frozen Polar regions. During this trip he and his crew have discovered a number of islands. Captain Bernier knows nothing of this sad occurrence. He sailed two years ago.

BONAR LAW SAYS ALLIES OWE MUCH TO UNITED STATES

London, Sept. 12.—Andrew Bonar Law, chancellor of the exchequer, speaking today at a luncheon given by the Empire Parliamentary Association to McGill McCormick, congressman at large for Illinois, said: "Everything connected with the military arm, the Germans have shown remarkable results, even genius. But in dealing with questions of human nature they have repeatedly made mistakes which have been the salvation of the Entente Allies. No mistake has been made which would be so great in its consequences as that which drove the United States into the war." "The Germans lately," he continued, "have been saying that the Entente was relying on the United States as their last hope. I want you to know that we do rely on the United States." "As chancellor of the exchequer, I am ready to say to you now, what I should have been sorry to have had to say six months ago, namely, that without the United States' financial assistance, the Allies would have been in disastrous straits today."

KING'S LAW SCHOOL

King's College Law School will re-open this year one month earlier than in other years, making the opening date on the second Tuesday in October. The standard of the school is to be raised, and for this reason the courses will be gone more fully into than in preceding years. The school is by no means of low standard, as a graduate can hold up his name with a graduate of any school in America. The intention of the faculty, however, is to make the standard as high as possible. With the exception of a lecturer in medical jurisprudence to fill the vacancy caused by the death of Dr. T. D. Walker, the faculty will be the same as last year. The appointment to this vacancy has not as yet been announced.

NORTH END TOP WHARFAGE

Regarding the protests which have been made by the owners of wood boats and others against the attempt to collect top wharfage on goods landed on the old city wharf at Indiantown, Commissioner Russell said this morning that he has not decided yet what action will be taken. For many years no charges have been collected, but the attention of the city officials was drawn recently to the fact that the law provides for such collections and there was nothing to do but to carry it out. He will report to the council at a later meeting.

LACK OF MONEY LIMITS WORK

As the appropriation for street repairs is nearly exhausted there will be but little more work of this nature undertaken this fall. At present the public works department is making some repairs to Chesley street and Strait Shore road, and when the work now in hand is completed, some repairs will be made in Portland and Camden streets. This is all the work which Commissioner Fisher expects to be able to accomplish this fall.

PROCLAMATION BY KORNILOFF

(Continued from page 1.) "General Korniloff, son of a peasant and Cosack, declare to all that I regard nothing personally, nothing except the salvation of mighty Russia and I want to lead the nation by the road of victory over the foe to a constituent assembly through which the nation will decide its own fate and choose the president of its own political life. But I shall never betray Russia into the hands of its traditional foe, the man race, or make the Russian people the slaves of Germany. I prefer to die in the field of honor and battle rather than to live in the shame and infamy of Russian land. "Russian people: In your own hands rests the fate of your country. "KORNILOFF."

STATE OF WAR NOW EXISTS IN MOSCOW

(Continued from page 1.) The attitude of General Klembovsky, commander on the northern front, is still enigmatical. General Klembovsky based his refusal to accept the post of commander-in-chief on the fact that the position on his front required his special attention. Asked by the government for an explanation for why he allowed General Korniloff's army to pass through Pskov, he replied that these troops were not subordinate to him. Premier Kerensky, the vice-premier says, has been offered special powers and he has the support of the whole country. The interior of the winter palace presented a remarkable sight owing to the extraordinary precautions which first were taken early yesterday when hope of a compromise was lost finally. Inside the newly erected partition in the grand corridor and outside M. Kerensky's office were posted 200 sailors of the Second Baltic Corps. All through the night M. Kerensky received resolutions from army and navy units promising to support him. The council of workmen and soldiers' delegates sent telegrams to the Korniloff officers declaring that the operators by refusing to work for Korniloff could help to crush the revolt. Premier Kerensky issued an order to Korniloff on trial under the historic 100th statute for "conspiring to overthrow the existing order."

Autocracy Such as Canada Has NEVER SEEN BEFORE

(Continued from page 1.) Dr. Neely's amendment was declared lost on division. Mr. McCraney moved an amendment limiting the vote to soldiers' female relatives, to those born within or without Canada in any of the naval forces. "This Mr. Carvell said would give the vote to the relative of a naval cadet who had never been out of Canada. Mr. Meighen admitted that the clause might be capable of strict limitations, but he promised consideration. Hon. Jacques Bureau of Three Rivers asked if it was the intention of the government to extend the franchise to female next of kin of British subjects from Canada who were resident in the allied countries. Mr. Meighen replied that he had thought of that, but had concluded that it would be very unfair. Mr. McCrae, Sherbrooke said there were from 12,000 to 15,000 officers overseas who had not been able to secure the appointment and had taken no part in the war. Were their female relatives to get the vote? Mr. Meighen replied that Mr. McCrae had very much overstated the number of unemployed officers. He had multiplied the number of the unemployed by the number of the wives. A discussion followed on the system of enumerators proposed in the bill. Mr. Oliver contended that the government were proposing a method which had been abandoned in Alberta. Mr. Oliver contended that the additions to the voters' lists would be posted only three days before election day. Mr. Meighen remarked that all an enumerator could do would be to add to the list the names of any qualified female relative of a soldier or take from it any disfranchised person. Mr. Carvell—"Suppose 300 names were struck off by an enumerator and the election were a close one. If you had to deal with some of the people we have in the maritime provinces it could easily be done. These 300 votes would not be counted, but would be placed in an envelope and would be placed to prove that they are qualified voters. It makes the enumerator practically a dictator. I view the provision with the greatest possible alarm."
