

cheering report, with tabulated statement of schools under their care, which is accepted by this Meeting, the Committee released, and the Nominating Committee instructed to bring forward names of Friends for a new Committee.

We your Committee on Bible School work, present the following statistical report from which we gather that the interest in Bible School work is increasing. A Conference has been established in Yonge Street Quarterly Meeting. The work is now under the care of such a Conference in each of the Quarterly Meetings, and we would encourage our members to look on the fields about their own doors, and see if there are not opportunities of extending this branch of work in places where there is need.
