CHATHAM. - - - - SEPTEMBER 16, 1880. The Work of Lumber-Driving. Through some mismanagement, or vant of good management, there are now about 20,000,000 feet of logs "hung up" in the Miramichi River, and, owing to the failure of those controlling them to have them driven, nearly all the mills are shut down, or running only occasionally. If these logs had failed to reach the booming ground owing to any very unusual difficulties in the way of driving, it would not appear so bad, but when their being hung up is due to neglect that has grown out of a vicious practice in the business, the occasion is an opportune one for enforcing the lesson it teaches. There is no equitable arrangement put into practice under the law by which lumber can be driven, the result being that those who are most anxious to get logs to market, are frequently obliged to drive both for themelves and others on account of drives

Miramichi Advance.

being mixed. It seems that each operator interested in the 20,000,000 now hung up, depended on one or more of the others doing his work for him. They all discovered, however, when too late. that the " lie and wait" game had failed them. To make the matter worse. the water has been lower all summer than for many years, and has remained

so later than usual. If the experience gained will lead to the principal men engaged in the lumber trade moving practically in the matter of organizing a lumber-driving company, it will, perhaps, be a gain in the end. It is conceded that after logs reach the main river.so that drives from that a few monopolists in other provindifferent branches and streams get mixed up, they should be taken hold of fit to support the present Dominion and forwarded with all expedition to the rafting ground. The general interests of the trade demand such an arangement, and no time should be lost

be lessened and the idleness of mills when they should be at work, obviated. The "Sun" and the Lumbor Trade.

When publishing some Miramichi trade returns recontly we remarked :-"There is a gratifying increase of busi-ness in favor of 1870 shown in the above returns—all due to the improvement of the lumber trade in Great Britain and

The St. John Sun quoted our figures and the above paragraph, adding as fol-

lows :--"We are glad to hear this, as it was feared that Mr. Snowball, M. P., had suc-ceeded in inducing the N. P. to kill off the lumber trade aforesaid."

are that everybody connected with the in spite of it. The lumber trade is susenlightened and free-trade England.

A "Gratifying" Increase. The Advocate publishes the trade re-

turns of Newcastle for June, July and Anonst and commenting thereon says During this period in 1879 the value of goods imported was \$1951, and the duties paid \$757.01. During the same months in 1880 the imports advanced the chairman had taken his place, Mr. almost a threefold increase.

The figures quoted show that the interrupted by Mr. John Young's making duties paid for the three months in the remark that Mr. Anglin had spoken a at 2, p. m. 1879 amounted to a little over 38% of long time, and that he might allow Mr. the value of goods imported and those Turgeon, who was present, to speak for an paid for 1880 to nearly 38% of the im- hour, as he was sure many were anxious to parts. The tariff under the late government was a $17\frac{1}{2}$ per cent one, so, but for the N P the properties between the meeting was called by himself for the for the N. P, the proportions between the value of Newcastle's imports and the when he was done, any one wishing to adduties paid would have stood as foliows: dress the meeting would be at liberty to
