THE LOST STEAMENT.

The Atlantic steamer, John Knox, of Glasgow, a large timber-carrying ship, on the let of May, in the South-west Island Wm Cliff, Wm Grindlav, P MGeo Green, John Mersereau, John Mersereau, John Mersereau, Mrs. T. Hurley, Thos Power, F Parks, Rev Thos J Fr. Ist of May, in the South-west Island Channel, Newfoundland, there will be one cargo the less in the British market this spring. The John Knox was of 2,069 tons register, owned by Mr. N. McLean, of Glasgow, and bound from that port to Montreal. She was almost a new ship, having been built in Newcastle as late as 1853. The most terrible part of the news it, in the absence of full particulars, that out of about thirty people on board not one appears to have been saved.

BIG Logs:—A gigantic redwood tree, says the San Francisco Chronicle, "was cut on the south fork of the E.k River,"

John O'Brien, Wan HGeo Green, John Mer Georgen, John Mersoreau, John Petre, Mars T. Hurley, Thos Power, Somuel McElwee, John Weaver, Samuel McElwee, John Mrs. T. Hurley, Thos Power, Thos Power, John Mersereau, John Mrs. T. Hurley, John Weaver, Samuel McElwee, John Mrs. T. Hurley, John Mrs. T. Hurley,

cut on the south fork of the E.k River, and sawed into 21 cuts, 4 of which were to make 2 few remarks with reference to 15 ft. long, 12 were 20 ft. long, and 5 were | the above complaints-The gentleman (ex-24 ft. long, making the total leugth 424 cuse me Mr. Editor for calling him out of ft. An accurate tally at the mills showed that the 21 pieces furnished 79,736 ft. of but it is of no importance, as I do not consurface lumber. The Canadian Manufac- sider him worthy of notice. But in justarer of April 15th tells us of a fir log cut on the Fraser River 24 ft long, 7 ft 4 in. on the Fraser River 24 ft long, 7 ft 4 in. lic generally, I must say that the man diameter at one end, and 6 ft 2 in. diame- (I again ask men's pardon) is a mean conter at the other, was recently cut into temptable and deliberate slanderer, as I lumber at the R yal City Plauing Mills, New Westminister, British Columbia, and many respectable and intelligent people.

| Solumber at the R yal City Plauing Mills, think is clearly proven by the names of so many respectable and intelligent people. New Westminister, British Columbia, and many respectable and intelligent people that it is beyond dispute so, therefore anyway have been tidy-sized timber to many respectable and intelligent people that it is beyond dispute so, therefore Mr. Editor, for the present, I will leave Solicitors' Act of 1860, of their title to a "That he allows the remain uncovered;" "That he wears upa conduct, and that of my traducer .--Launch of the John McLaggan.

It seems like writing history to record a ship launch in these days. At one time a ship launch on our river was of usual occurrence and was spoken of as a thing that happened in the natural hame of Harley, Hawes, Muirhead, Mitchell and a number of others naturally come to our mind when we speak of the ship building industry on our river, but these all seem now to beboys. The business which was once in a flourishing condition has gradually dwindled down and died out. The cause was the introduction of new and the carry from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ship strom the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the wooden ships from the seas. When vessels began to be made of iren the substitute that the fund in question was not money passengers. Mr. Doak stayed in Newcas the and afterwards kept hotel at what is merely money paid in respect of costs durference 6½ inches. Will some of our ferrified the whotels in the first that the fund in question was not money paid in respect of costs durference 6½ inches. Will some of our ferrified the whotels are the first that the fund in question was not money paid in respect of costs durference 6½ inches. Will some of our ferrified the whole that the fund in question was not money paid in respect of costs durference 6½ inches. Will some of our ferrified the wooden was at the total vessels and the substitute of the substitute o pressure on this business, and New Brunswick was no exception. Our Dominion government threw up all the possible legislative barriers to stave off as long as possible the inevitable result of great changes in the world's trade, but nothing could stop the decay of ship

building. On the Miramichi where it was once so active the business has declined until to-day we have but one vessel building on the river—the three masted schooner John McLagan, owned by Mr. Edward Sinclair at the principle on the production. The place was called Doak town. Other improvements followed, such as to a carding mill, a saw mill, church as we no 'clock. The man who undertakes to build a ship now seems to be fighting against the natural course of trade. It requires extreme enterprise and a brave heart, besides constant attention. As Mr. Sinclair remarked in his own way on Saturday: To build a ship in these days a man has to light candles very morning to find his boets and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and then chase the hoursall day for some thing he has little hope of catching and carding mill, which is the best known and oldest establishment of the kind on the principle on the splecitors who active the splicitors who active the splicitors who addifference between the solicitors who at the subscience of the splicitors who addifference between their solicitors and clients' costs and party and party costs.

The point was a nice one, and apparently a new one, but in his opinion it came within the principle on which a solicitor got his costs out of his back."

Littely be law of demand and supply, and a fair exchange of products. That big egg strained the source, or power of the court below, a certain proportion should be paid to the splaintiff's solicitors to cover the difference between their solicit
