ationalists on the platform. I am sure ationalists on the platform. I am sure otor and teachers would have been de-ed to have seen them there. Teachers sympathy. They should be cheered er annual meetings by an eutward testation of interest in their work by ment business men. I am well aware this appreciation is lacking through the teaching fraterpity are forgot-teach times. My object in thus writ-plain. I wish to get all in the tewn ested in the work which is done in the ute. The printed programme of suband of readers of papers was published cal papers, and this of itself should call papers, and this of itself sheald called together very many of those a I personally know are interested in tional affairs. The president's opening as was good, interesting and obsering. e session Dr. C. P. Connell's paper on ene was read by Chas. McLean, and I is say it was well read. It was a valu-apper full of instruction. The teach paper, full of instruction. The teach-ould request the doctor to have the published so that every board of per might receive the benefit of the ad-herein contained. Reports from teachtree planting were interesting. Thanks tee planting word teachers in our a districts have planted trees around districts have planted around hocl houses and thus beautified the ds; 1,600 were reported as having been it. A resolution was passed that the nute urge upon the board of education ate urge upon the board of education nportance of proclaiming at an early ) a school's arbor day in May next for whole province. I sincerely trust the will accede to the request of the instiad name 24th May for said arbor day. e fourth session the following subject iscussed: Contrast of present school and methods with those in vogue y years ago. There was only one er present at the institute who had teacher for twenty years. All who related their experiences under some ers of the olden times. It was quite to all who spoke that there was a d change for the better now. To wledge that teachers of twenty years equitted themselves more creditably to those of the present day would have casting reflections upon their own , and could you expect them to do Mr. Landell's illustrative experis in chemistry to a class before him very interesting and pleasing.

assion on county cirtificates was d by G. H. Fleming and engaged in by I teachers. The idea was to have a m examination of pupils of advanced s, and to those who passed a creditable nation, cirtificates were to be awarded. mittee of teachers or others might re the papers and the results of exittee.

last paper was read by Frank R. l on grammatical analysis. It was d paper, worthy of publication, a paper, working the inspector was pres-adgave much valuable information. His hes were full of interest and instruc-Doubtless every teacher will return or her respestive district to begin again with renewed vigor and with ation of putting into practice the solution of putting into practice the hints received at the meeting, par-rly those received from Fred. Smith ladelphis, on writing, whe gave some nens of his permanship to the teachers.

tributions already received :-Four varieties of pears, the Champion, the Vicar of Wakefield and two large unnamed varieties have been forwarded. These pears are usually fine. An interesting part of the exhibit is the collection of grapes. Hon. Judge Stevens, of St. Stephen, contributes manificent specimens grown under glass without artificial heat. H. Lowell, of Fred-ericton, contributes five varieties grown in the open air, and C. McGibbon, three varieties, and Mr. Whelpley one also grown in the open air. The following varieties are re-presented: Hartford prolific, champion, Fon-tainbleau, Clinton, Worden's seedling, early dawn, Moore's early. These grapes are all re-As a speedy cure for Dysentery, Cholers Morbus, Diarrhos, Colic, Cramps, Sick Stomach, Canker of the Stomach and Bowels, and all forms of Sumn Complaints, there is no remedy more reliable than Dr. Fowler's Extract of Wild Strawberry. Dealers who sell it, and those who buy it are on mutua grounds in confidence of its merits. tainbleau, Chinton, worden's seconday, early dawn, Moore's early. These grapes are all re-markably fine samples and will do much to disabuse the minds of those who think we live West's Cough Syrup, a sure cure for coughs, colds and all diseases of the throat and lungs, 15c., 50c. and \$1.00 per bottle. All druggists,

disabuse the minds of those who think we live in an arctic climate. Vegetable exhibits are coming in. Mr. Lu-grin received yesterday from C. Bull of Northampton a case containing some turnips which are phenomenal in size, also, some ex-traordinary large bests and very fine Indian corn. L. McConnell sent a box containing four very choice specimens of potatoes, in-cluding Burbank's Seedling, Early Rose, Harly Vermonts and Markees. Mr. Glendening of Marysville contributes very fine samples of Early Rose and White Elephant potatoes. Mr. Gibson, Mr. Whelpley and Mr. Guiou sent in choice asmples of crahberries. J. W. M. Buel will send a mammoth squash. Other contri-butisens will be in today, (23rd.,) it is expected. Mr. Lugrin would like to have as great a va-riety of vegetable samples as possible and to receive them this week. If the exhibits already prepared reach their destination safen an arctic climate. I beg leave to certify that I have used "Pattar's Emulsion with Hypophosphites" with great satisfaction, and in cases where Cod Liver Oil was called for. I can beartily recommend it as an agreeable mixture, diaguising so successfully the nauseous taste of theoil, that in no instance have I seen patients refuse to take it receive them this week. If the exhibite already prepared reach their destination safe-ly they will make a creditable show. Sixty-nine varieties of apples, four of pears and seven of grapes will afford quite a variety, Eighth Wonder of the World. and seven of grapes will afford quite a variety, but there is no reason why the exhibit of ap-ples should not be increased upwards of fifty per cent, except that in the short time available Mr. Lugrin finds it impossible to visit many localities. Although the time for shipping has been fixed at September 30th, the arrangements of the Furness Line steamers shorten the period several days. The vegetable exhibit will probably be in time if it goes by the next steamer, but to take part in the competition it is important that the exhibits should go by the Ulunda which cleared from St. John on Tuesday, but will not clear form Halifar for a few days yet. Any samples of fruit received hereafter will be forwarded by the first steamer and may be It is demonstrated by history that the Ancients in many of the Arts, notably archi-tecture, far excelled the present age, but it is reserved for the present decade to produce the eighth wonder of the world, i. e., West's World's Wonder or Facely Liniment, which is in the present decade to produce the is infallible for rheumatism, sprains, cuts, bruises, sores and all diseases requiring ex-ternal application. 25 and 50c, per bottle. All druggists. Any man, woman or child is in a dangerous condition when neglecting a constiputed state of the bowels. There can be ro perfect health without a forwarded by the first steamer and may be shown at the exhibition, though they do not

> (Packville Post.) Ship Railway.

take part in the competition.

Benjamin Baker, the eminent engineer, leaves England today, (23rd), in the Parisian for Amherst, Nova Scotia, to inspect en behalf of the English capitalists the line of the proposed ship railway. Mr. Baker is the partner of Sir John Fowler, the engineer in chief of the company. It will be remembered that some years since a gentleman was sent out from London, on behalf of the contractors, to test the foundation of the

#### THE SOCIAL CURIOSITIES OF NOVA SCOTIA

ECIAL CORRESPONDENCE OF THE SUN.) ING HILL MINES, Sep. 23. -This strangeprous town, which has almost sprung up ight, is one of the social curicelties of Scotia. The few farmers in this region were here ten years ago, are at a loss imes to tell exactly what has happened, indaries, land marks, brooks, forests have en covered over by streets, dwellings and abons. Houses on up at if the mark shops. Houses go up as if by magic. out in any direction and you find new exout in any direction and you ind new ex-ions, new frameworks, which were not a week previously. It is interesting to h the growth of a street; how it gradually is along like a ribbon-worm, a joint at a Is along like a ribbon worm, a joint at a , till it stretches to an unexpected degree. churches make provisions for their congre-ons, when lo, they are again calling trastees ther for more room, yet there is very little a. Hammers tapping here and there, or a k driving on the street, is all one hears. din is all at "the slopes," and there it is it perpetually. There are six much res of operation, where, day and night, go down and come up distances of from 0 400 feet, moved by immense engines and led away as they come to the ce loaded with coal. At from to six p. m. the place resembles a in Africa, full of black mes, for then the s of day workers are returning from the Every other Saturday night is "pay day," about \$20,000 are handed to from 1,000 100 workmen of the mines. The week fol-ng is sure to be brisk in business circles, g is sure to be brisk in business circles, he week following that as sure to be quiet ng is sure to be brisk in bu

angers frequently visit Spring Hill, Par are organized to visit the underground ons, where streets lead in every direction, gregate distances of the streets being be-200 and 300 miles. Men and boys live who seldom come up, and horses that rese daylight except when brought up to ared of disease or busied—for in that sub-secus town they have no cemetrice. It by universal testimony "a hard old mines" he Salvation Army came, by whose sgency ns have taken the place of songs, and "God yous" the place of the opposite phraseolo-

It now there is a peculiar fight going on reen the liquor sellers and some urknown cy. It is only understood that the great company have authorised an active prose-on, the town being in a Scott Act county. ling citizens avail themeelves of the generos-which thus provides all the means of carrying he war and have organized themselves into a lance committee. Who they are, no one ws, nor where they will next strike. Four ers were convisted and fined \$50 each a t ago, and next week sight are summoned ago, and next week eight are summoned urt, while, it is said, the third charge is burt, while, it is said, the third charge is y for the same men as soon as the second a are decided: They may thus be in jail re they know what has happened. They generally a poor lot, one of them recently lished a saloon-keeper's prayer, that was y blasphemous, though it proved the adage "Whom the gods would destroy," etc. xcited public indignation to fever heat. y one of the same class, not knowing who his foes, goes about threatening to commit ide if they persist in fining him. Novelists a scared their heroizes into marrying great ups and cowards in that way; but imagino wn of 6,000 people shocked into submission ave its laws broken and its nights made ous by the threat of a saloon keeper to ous by the threat of a saloon keeper to himself ! Uncle Toby, of Fianders repu-in, would have likely answered -- "Friend,

 Brunswick and Prince Edward Island. The survey has been made under the direction of Engineer Jonah of Moncton, whose energy and efficiency are highly spoken of, and we were pleased to learn from the senator a few days ago that the result surpasses his moet sanguine antiopations. The borings, made every quarter of a mile, prove that the bottom along the whole of the line is a solid olay beneath a few feet of sand, and the conformation in all respects is as favorable as could be desired. Samples of the clay brought up by the borer are separately boxed and labelled and it would seem that nothing more suitable for the four dation of a submarine tunnel could be desired. The survey has occupied several weeks, employing a force of six men, and the expense is defrayed by a Dominion grant, Saveral survey has borer been attempted.
