MEDINA, Pa., June 29.—Six persons have been shot and severely wounded on a trolley car between Medina and Chester.

A negro, believed to have been seeking revenge, because the conductors of the cars recently ejected him, discharged both barrels of a shot gun at the car as it passed a lonely spot in the country. The car was crowded. Four women were among the wounded. The negro made his escape.

THE CITY LABORERS.

Will Take Definite Action Tomorrow Night.

Tomorrow will in all probability be an interesting one with the city laborers and all others who are interested in the endeavor of the laborers to get living wages.

The board of works will meet in the City Hall in the afternoon when the matter is to be considered and in the evening the laborers will hold a mass meeting in the York Theatre when they will decide definitely just what action they will take. This of course all depends upon what decision the board of works comes to. If the request of the men is granted all will be well, if it is not there are many who feel like doing as "Coke" O'Brien did today, viz. go on strike. There seems to be a general feeling throughout the city that the men should be better paid. Several of the labor leaders claim that they have many of the local clergy strongly with them, the ministers realizing that the small amount paid at present will not allow a man to keep a family and dress so that the family may attend divine service. While admitting that a man's wearing apparel is no bar to his attendance at church the man or woman, boy or girl, who cannot dress as well as his neighbor does not care to show himself or herself even in a house of worship.

The laborers feel considerably put with Mr. Murdoch and hint at all sorts of dire things. They claim they are investigating several matters having to do with the management of the department.

BEAUTIFUL POSTAL CARDS.

The Tourist Association Now Well Equipped with a Splendid Assortment.

The secretary of the Tourist Association has just received from the printer the last of the pictorial souvenir postal cards ordered by the association. The work is of a high class and reflects great credit on the printers, The Globe Publishing Co. There are twelve designs in all, and each card in addition to the scene or scene pictured has in one corner a beautifully embossed crest. The scenes depicted are Reversing falls, tide running up; glimpses of the St. John river; Martello Tower; C. F. R. tracks and elevators; Howard park; Market slip, bridges and the falls. St. John from the harbor; Royal Kennebecasis Yacht Club house and yachting scenes in the river harbor scene, the cathedral of the Immaculate Conception and Trinity church.

There are also offered for sale a number of cards with a maple leaf in colors in one corner, which are as popular with visitors as the other cards.

CONCERT AT WESTFIELD.

A very pleasant concert was held at the Public hall at Westfield on Friday evening. The entertainment was given by the children of the Westfield school, assisted by Miss Jennie Trueman, of this city, who contributed several vocal selections. The children were rehearsed by the teacher, assisted by Miss Hanington. The hall was well filled and to judge by the enthusiasm displayed by the young men in the gallery, was a great success. The proceeds will be devoted to the purchase of maps and other similar school supplies.

THREE MORE NEW STREET CARS.

Some months ago the Street Railway Company ordered six double truck cars from the Montreal Car Works and a few weeks ago received the first instalment, two cars. This morning three more came in and the sixth is expected shortly. The three that arrived today are similar in every respect to the cars which came a few weeks ago and which are now running on Douglas Avenue.

Y. M. C. A. CAMP.

Secretary Wilson of the Y. M. C. A. is in Nova Scotia to the interests of the maritime Y. M. C. A. boys' camp, which opens at St. Martins on July 15th. Quite a number of applications are being received for the camp and the advance party will go to St. Martins to make necessary arrangements on July 9th.

MAKING A BREAKFAST IN HOT WEATHER.

Leading men take four to five hours to digest, and fill the system with fuel it does not want, is like wearing your underwear all summer simply because you got into the habit in the winter.

As observing men will find that a breakfast of good wholesome gristle porridge with milk will fit him better for his morning's work than a meat breakfast.

MISS NANNARY'S COMPANY.

When Miss Nannary and her company open their engagement this evening at the Opera House in "The Diplomat," those who attend can depend upon seeing a strong and well balanced company in one of the great set plays seen here in years. One of the noticeable features of this engagement will be the absence of the prompter. This in itself will be a decided relief and is a result of long and continual rehearsing. In addition to such a strong play, Miss Nannary has surrounded herself with the strongest

company she could engage in New York. In addition to a strong company, Miss Nannary has selected as her opening piece what is probably one of the strongest plays seen here in years. As a special feature, Miss Nannary has engaged Miss Elmore Hatch, the great mezzo soprano, who will delight music lovers on Tuesdays, Thursdays and Saturdays. The company arrived this morning from Fredericton, where they pleased a large audience on Saturday evening.

FAN-TAN AND REFRESHMENTS.

Of the considerable number of Chinese in St. John there are some who prefer on Sunday afternoon to break the laws by playing fan-tan instead of going to Sunday school, although the police sometimes interrupt the game. Yesterday, however, the programme was varied by a lecture given in a vacant store opposite a Chinese laundry on Mill street. The lecturer was a Chinese evangelist from Montreal, who arrived in St. John on Saturday, and whose aim seems to be to reform his countrymen here and stop the playing of fan-tan. A roast chicken was present at the beginning of the ceremony, but it is not known just what part it took in the service. It is safe to say, however, that if the chicken was not absorbed in the remarks made it was probably absorbed by the listeners later on.

SCHOONER WRECKED.

The Nova Scotia schooner, Hazel Glen, of about 75 tons register, is a total wreck at what is known as Troop's Point, about one mile from Annapolis. The Hazel Glen was bound to Annapolis from this port, and when almost to her destination on Friday last went ashore. She was condemned and has been sold. The wrecked schooner was owned and sailed by Charles Anderson of Clark's Harbor.

DEER AT THE CHALET.

A deer was seen yesterday on Barber's beach, near the Chalet. A week ago one of the cottagers saw two or three in the edge of the woods near Torryburn. One morning in May Geo. A. Henderson saw three strolling around his country house.

SCHOONER FREIGHTS.

Coastwise freighters are reported rather dull at present, while the southern trade is good, from \$3 to \$9 being paid for carrying new pine from southern ports to the West Indies. This, however, is accounted for by the approach of the stormy season, and the unwillingness of owners to engage in the trade if they can get anything else.

TRAINS LATE.

The express from Boston was twenty minutes late in arriving here this morning, and the express from Montreal one hour late. The Boston express brought in a large number of passengers, the train being a particularly heavy one. Travel is picking up rapidly.

MIND YOUR SCALP.

Huh! Big Chief Sockalexis! That Me! Play Ball.

Saturday night's train brought to this city one Sockalexis, an Indian and a ball player, of whom as much has been published in the United States papers as of President Roosevelt. Sockalexis is a graduate of Holy Trinity college and it was there that he developed as an athlete. In the football field he shone as a full back, but it was in base ball that he made his mark. A fast outfielder, a wonderful long distance thrower, and a hitter from Hitterville, Sock drifted into the national league and for a time was the darling of the fans. He was petted and made much of, in fact to such an extent that his sense of usefulness to the hard hearted managers of the big teams passed quickly by. And now, straight as pine, with as fine a physique as one wants to look at, the great Indian player has signed to play with the Braves and will make his first appearance on a St. John diamond in Wednesday's games.

METHODIST MINISTERS MEET.

The Methodist ministers met at the usual time and place, Bro. Hamilton presiding. Those present were Dr. Sprague, G. M. Campbell, C. A. Whitmarsh, J. A. Clarke, O. W. Hamilton, Dr. Wilson, J. Kirby, H. D. Marr, W. Lewis, C. Combs.

Reports of churches were for two Sabbath, including conference Sunday. Wednesday last Rev. Mr. Campbell received one young man into membership of the church.

The bi-centennial was very generally observed by the ministers, both in the Sunday school and evening service.

A general discussion arose regarding the social games on Sunday, and it was considered a very unfortunate thing, as they deplete the Sunday schools, and very much affect the regular church services.

Rev. Mr. Leavon, of Milltown, addressed a meeting as did also Rev. C. A. Whitmarsh, who is supplying the Portland Methodist church in the absence of Rev. Mr. Howard on the continent. Mr. Combs, who has been on F. E. island for some weeks, delivered an interesting address regarding that very delightful province.

N. B. DEAF MUTES WILL GO TO HALIFAX.

Arrangements Made for Their Instruction at Deaf and Dumb Institution.

The deaf and dumb children of New Brunswick will receive their education in Nova Scotia. Yesterday Hon. Lemuel J. Tweedie, premier of New Brunswick and Dr. Ineh, superintendent of education of that province were in the city making arrangements for the transfer of the pupils from the Deaf and Dumb Institution in Halifax. They called on Principal Pearson yesterday morning and inspected the school and work of the scholars. They expressed themselves as highly pleased with what they saw and complimented the principal on the able manner in which the work was being carried out.

To a reporter of the Chronicle yesterday afternoon Principal Pearson announced that the New Brunswick scholars would be on hand for the next term. He expects that the move will be a permanent one and that about forty or fifty deaf and dumb children will come here from the sister province.—Halifax Chronicle.

Roy Patterson, a seaman on the schooner F. W. Pickles, lying at the I. C. R. wharf, started to go on shore last evening with a friend. The schooner was some little distance from the wharf, and in trying to bridge the space with a deal Patterson was knocked overboard. A rope was thrown to him, and Patterson was hauled safely on board again.

A REMOVED RESCUE.

How Henry McIntyre got a free bath and how Howard Holder earned his Royal Humane Society medal is the theme of conversation among yachtsmen today. The affair happened at Millville between five and six o'clock last evening and was witnessed by scores of yachtsmen and their friends who were in the yacht club cove.

It appears that Mr. McIntyre left the yacht Petrel to row a friend ashore in the tender and was returning to the yacht. While the latter was maneuvering about to pick him up the two boats collided and Mr. McIntyre was quickly upset into the water. Thereupon Mr. Holder, with a supreme indifference as to the probable fate of his Sunday clothes leaped heroically into the wet water and with some difficulty saved Mr. McIntyre from swallowing more water than was good for him.

The crowd on shore and in the other yachts cheered lustily as the rescuer and rescued boarded the Petrel, leaving a broad trail of water along the smooth deck.

GONE FOR THEIR HEALTH.

On Friday evening Officer Crawford swooped down on a place on Brunswick street kept by one Sarah Bree and found there eleven bottles of liquor. The keeper of the place had no license and there seemed to be trouble ahead.

On Saturday morning at five o'clock Mrs. Bree and her husband left the city for parts unknown and have not yet been heard from. They are wanted by Officer Crawford.

The gentleman is a clergyman and his oath is as good as any man's bond.

F. A. DYKEMAN & CO.

GONE ON STRIKE.

Coke O'Brien Refuses to Work in Rockwood Park.

Coke O'Brien, the man who said he would die before going to work in the park, got out of bed in jail this morning and indulged in some slight profanity. He laid away a suit of blue to put on one of grey, and the latter had C. P. on it in big letters. Then Coke got a pickaxe and dinner pail, joined hands with a friend, and sallied forth with twelve others to do his stunt in the park. He would not work for Mr. Murdoch's \$1.20 per day and from present indications it looks as though he will not work for nothing.

On the way to the park Coke's feet got tired, then they became sore, and upon arriving at the scene of action he discovered that his boots did not fit. Then, the pick was liable to blister his hands, his pants, made for some smaller man, were too short, and "he'd be darned if he'd work, anyhow."

Additional remarks of an unparliamentary character were made by Coke and Coke's fertile vocabulary was given healthy exercise.

Ald. Lewis, chairman of the board which was responsible for the sending of the chain gang to Rockwood used his endeavors to restore peace but met with little success. Mr. Lewis came back to town and reported that O'Brien was raising Cain.

CHALLENGER PAST.

Sailed Rings Around Her Trial Horse On Saturday.

NEW YORK, June 27.—Sir Thomas Lipton's new cup challenger, Shamrock Lilian, was given her first test in American waters today in an informal trial with Shamrock I. off Sandy Hook.

In the first ten miles of a fifteen mile beat to windward in a very light air the new boat beat the old one about minutes and was in turn of loose miles to leeward nine minutes. There was a long gentle sea and the new challenger slipped cleanly over it, making little fuss under her bow.

Taking into consideration the assertion by English yachtsmen that Shamrock I. is ten minutes faster in a thirty mile course than she ever was and fully as much faster than Shamrock II., the new boat's performance on this side of the Atlantic marks her as probably the most dangerous challenger Sir Thomas has ever brought over. In a light air and smooth water she showed herself to be very fast.
