THE EXHIBITION.

Deficiency of Over Fifteen Hundred Dollars After Grants are Received.

An Interesting Comparison With the Financial Statements of Previous Shows.

Another Comparison Shows that St. John's Fair Was More Economically Managed Than that at Halifax.

The following is the complete financial statement of the St. John exhibi- Pete Sock is Summarily Expelled from tion of 1898:

EXPENDITURES. lands, buildings, furniture and Advertising, job printing, posters and stationery.

Manager and office assistants.

Superintendents of departments.

Machine v hall.

Light and fuel.

RECEIPTS. dundries... To provide for which bal-

ance we have:
Provincial grant. \$5,000 00
City guarantee. 1,500 00 The total receipts (\$15,008.20) were \$2,299.94 greater that at the fair of 1897; \$2,377.29 greater than at that of 1896, and within \$185.31 of the receipts

The total expenditure (\$23,099.92) was \$4,653.92 greater than last year, \$5,238.69 greater than in 1896, and \$11.31 greater than in 1895.

The deficiency, exclusive of grants, was \$8,091.72, which was \$2,853.98 greater than last year, \$2,861.40 greater than in 1896, and \$196.62 greater than The following table makes a com-

parison of the finances of the six St. John exhibitions held since 1889. The provincial and civic grants are not

		Total		
	Total Exp.	Receipts.	Deficit	
1890	.\$22,256 52	\$15,852 06	\$6.404 4	
1891	. 10,962 62	10,353 52	609 10	
1895	. 23,088 61	15,193 51	7,895 10	
1896	. 17,861 23	12,630 91	5,230 3	
1897	. 18,446 00	12,708 26	5,737 7	
1859	23,099 92	15,008 20	8,091 7	

Comparing this year's expen with that of last year, it is found that \$2,220.54 more was spent on the grounds and buildings, \$1,142.50 more on special attractions, and \$775.89 more in prizes. These three items of increase, all for the greater attractiveness of the \$4,553.92 which this year's spent of the \$4,553.92 which this year's spent of the \$4.553.92 which this year's them. show cost more than that of last

the deficit of 1890 was partly met by a provincial grant of \$3,000 and a civic grant of \$3,000; that of 1891 was provided for out of capital account; in 1895 there was a provincial grant of \$3,000 and a city grant of \$5,000; in 1896, a provincial grant of \$5,000 and a city grant of \$2,000; in 1897, the city a city grant of \$2,000; in 1897, the city granted \$1,500 and \$3,000 was subscribed by the citizens; this year there is a provincial grant of \$5,000 and a city grant of \$1,500 and when these are received there will still be a deficit of \$1,591.72 to be made up.

More was spent on grounds and buildings last year than in any former years except in 1890 and 1895; and more was spent in prizes and on general attractions than ever before. The figures show that the general man-

figures show that the general man-agement of the fair was far from be-

COMPARED WITH HALIFAX.

The total expenditure of the Halifax exhibition was \$25,697.53, and the re-ceipts were \$17,635.72, leaving a deficit of \$8,061.81. There was also spent \$551.45 on capital account.

But while the St. John states

shows \$4,335.44 spent on lands, buildings, furniture and fittings, the Halifax list of expenses shows no such expenditure. They spent \$1,895.53 more in prizes and \$2,461.91 more on amusements, but their general expenses of anagement were also very mucl larger, as the following statement shows. It is taken from the Halifax

By comparison of items between the above and the tabulattd statement at the beginning of this article, it is seen that the Halifax people paid more for printing and advertising, insur-ance, police, ticket department, and in the items of secretary's office, de-partments and commissioners' expen-ses (these three totalling \$3,524.94 compared with \$2,084.50 for the St. John management, including super-intendents of departments), than the St. John association paid for like ser-

way, if we deduct from the Halifax total the amount given for prizes and amusements, and from the St. John

spent on grounds and buildings, we find that the other expenses at Halifax amounted to \$11,394.37, and at St. John to only \$8,518.48—a difference of \$2,575.89 in favor of St. John.

The receipts at Halifax were made

Rents...
Prize list and special programme...

The receipts from edmissions were \$2,056.17 greater than in St. John.
The total pain admissions were \$38,942. The largest day's attendance was
13,560, the smallest 1,515.

Children Cry for CASTORIA. THE SAGAMORE.

the Milicete Reservation,

24,335 44 334 29 179 11 4,161 90 Understand How to Carry Out a Reform Contract.

> "Mr. Paul," said the reporter, "as I approached the reservation I met a flying redskin, chasing himself down the road at a 2.40 clip. He had part of his face in his hand, and several dogs at his heels appeared to be carrying other portions of his person in their jaws."

> "Yes," said Mr. Paul, "that's Pete Sock. We drove him 'way from camp. He's bad Injun." "The punishment was severe," ob-served the reporter "What was the

> "I tell you," replied the sagamore "I give out some contracts. I got six Injuns to make me six axehandles a-piece. Them axehandles was to be all good ash—same kind of wood—no bad spots—al same rize—and put up in nice bundles tied with eelskins. Pete Sock he got one of them contracts."

"Ah!" said the reporter, "I see. I see. And he slighted the job. Just like those grit contractors. And I suppose he wanted you to pay him full prive—the same as if he had done the work according to the plans and speci-

Mr. Paul did not reply at once. He studied the reporter's face to learn whether the latter were in earnest. The scrutiny did not appear to be quite satisfactory, for he remarked present-

"Didn't I tell you we got era of economy and reform in this camp?"
"You did," said the reporter. Then what makes you talk like neap fool?" demanded the sagamore.
"No heap fool about it," angrily re-

torted the reporter. "You see them axehandles?" abruptly inquired Mr. Paul, pointing to

"I do." said the reporter. "You better go look at 'um," tersely bserved the sagamore.

"Are these the contract jobs?" ask-"Ah-hah." The reporter went over and examin-

"Why!" he ejaculated. "That's the neanest lot of rubbish I ever saw dignified by the name of axehandles. This first lot are half rotten. That second one is part ash and part green fir. This third one hasn't a straight handle in the bunch. The fourth one is all fir. The fifth one has no two the all fir. The fifth one has no two the same shape or size, and hasn't a good plece of wood in the lot. And there isn't an eelskin in sight. They're tied together with old rags and strips of willow. Ah! yes—this is better. This last bundle is properly tied. Yes—these handles are all ash, and all good ones, ton—and they're all the same size and shape. I should say the Injun that out these up carried out his contract. He did a first class job. What's his name?"

What's his name?"
"Pete Sock," replied the sagamore.
"What! The redskin I met down

"Pete Sock," replied the sagamore.

"What! The redskin I met down the road?"

"Ah-hah."

"And did I understand that you had driven him out of the camp?"

"You did," grimly replied the disciple of Blair and Tarte and Emmerson. "If any Injun comes round here and tries to carry out contracts and give value for his money—me ain't got no use for him. His name's Pete Sock. He's got to go. What we want is economy and reform. We don't want no one price jobs round here. If we can't pay two or three prices—who's gonto put up the stuff when next 'lection comes on?—But here's my palace car—I must go round and talk to these injuns some more about economy. I'm 'fraid they'll git extravagant Good day."

The sagamore went out and got into

The sagamore went out and got into his gorgeous palanquin. His brilliant-ly dressed henchmen raised it to their

something to eat.

"Economy," muttered Pete Sock at last, "is heap great thing—mabbe. Mebbe not. If people likes it they kin have all they want—but this Injuntakes to the woods." And he did.

ANNUAL SHOW

Of the Cambridge, Queens County, Agricultural Society.

A Large Attendance and a Magnificen Collection of Exhibits in the Various Classes.

JEMSEG, Oct. 28.—The Cambridge Agricultural society held their annual fair on the grounds, Lower Jemses, on the 20th inst. Notwithstanding the very rainy day, the attendance was large. The show of horses and cattle was equal to any of former years. The exhibit of roots and fruit testified to the careful cultivation of these crops, while the tables of fancy goods gave evidence of the interest taken in this daughters. The list of awards is as

The sagamore went out and got into his gorgeous palanquin. His brilliantly dressed henchmen raised it to their shoulders. The band struck up, the inspectors cheered, and away went the disriple of Blair and Tarte and Emmerson on his great mission of reform.

Meanwhile away down the road a panting redskin, who had finally got clear of the dogs, sat down on a stone and tried to think it out. He had taken a contract and carried it out. Then he had been fired out, and chased by dogs. Some of them were Micmac dogs, too, that had lately gone over to the Milicete reservation for something to eat.

Colw DOMESTIC AND FANCY WORK.

CANADIAN TURKEYS FOR BRITAIN.

(Prof. Robertson's Report for 1897.

Until recently it has been usual in Great Britain for different firms to make a specialty of dealing in the products of one particular country. It is becoming more common for individual firms to handle poultry for several countries. This will ultimately result in the poultry of the best quality and in the best condition finding its way quickly into the hands of the best customers. Poultry has not been generally used as an article of diet in the same sense as beef, mutton and bacon. The price was, relatively, considerably higher. When Canadian turkeys became known in Great Britain and are available there at the reasonable prices at which they can be laid down with a profit to the producers in Canada, they will not outst create an ever-growing demand for themselves. Formerly turkeys were obtainable only from November till March; now through the facilities provided by cold storage, they are found on the bills of fare it nearly all notels, every week of the year While they do not appear so generally after March on the tables of private houses, in doubt there will be an increasing demand for them at what was formerly out-of-seasoutimes.

As a rule the turkeys in Northern France

day time.

The shed should be kept clean. A quantity of coarse grit and sand should be protity of coarse grit and sand should be proyided. Fresh straw should be put on the vided. Fresh straw should be put on the floor quitc often.

Meal composed of a mixture of ground cats, ground barley, ground wheat and ground buckwheat, makes a first class food. It should be prepared in the form of a paste or dough mixed with skim-malk, sweet or sour. Some feedars prefer the sour milk. This soft feed should be given in the morning and also in the afternoon. During the fattening perior, it is not profitable to feed whole grain, unless it be boiled and steamed until quite soft.

During the last ten days of the fattening period, it is a good plan to add shout half an nunce of fat per bird to the fattening mixture. That gives the flesh an exquisite, soft quality. The feeding of Indian corn is said to result in a yellow shade of flesh, most noticeable in the fat of the fowl.

The effect of feeding milk is to whiten the flesh, which is desifable. Regular feeding in the menner indicated will cause the brids to pitt on a large quantity of good flesh on the most valuable parts. The French poultry fatteners put one-third ourse of sait per quart in the water used in preparing the food.

COVERING THE ENGILAGE

Prof. Robertson in his report says: It filing a silo particular pains should be taken to spread the ensilage evenly over the surface; otherwise the leaves and lighter parts may lie in one place, and the stalkt and ears in another. The ensilage at the sides and corners of the silo should be trodden down as compactly as possible. Then immediately after the silo is filled, it should be covered with a layer of four or six inches of cut straw, and that by about eighteen inches or two feet of any kind of rough straw.

In the feeding out of the enellage, it is not a good plan to expose a large surface in the silo at one time. Where practicable, only as much of the surface of the ensilage should be uncovered as will cause a depth of about six inches to be removed from it by feeding every day. A half or one-quarter of the ensilage may be removed at one time, and it may be cut down with a hay knife, leaving a perpendicular face which will mould very slightly. Where too large a surface of ensilage is exposed to the air, it becomes offensive to the smell and gives rise to the growth of moulds. These sometimes contaminate the stable, and spread he bellet that the feding of ensilage imparts a flavor to the milk. Such flavors get

trip to St. John on Thursday.

Miss Lucy Grant is also visiting re-Measies are prevalent in the upper part of the parish. The family of L. W. Miller is down with the disease.

Cinas. W. Dumham , harvested 58 barrels of turnips this season. Apropos of turnips, one of our merchants his customers lately, but was not sat-isfied with the trade when he found that three Monarchs, one above the other, filled the barrel.
Miss Ethel Turner and A. W. Grant are still ill with typhoid. Dr. Turner

CENTREVILLE, Oct. 30 .- James Johnston is laid by with rheumatism, so that he cannot do any work, and ohn Pryor is nearly helpless with the

same disease.

A deer was caught on the ice last winter, and while it was deprived of liberty it dropped two kids, a buck and doe, both of which are in healthy condition and are kept by R. W. Bal-

Miss Webb and Granville Page, and cently married by Rev. Joseph Cahill, who presides over the Centreville, Good Settlement, and Bloomfield Bap-

has been prostrated.—Horace Perry, teacher, is still unable to attend to

erected a Baptist church, which is be dedicated for worship, while Solomon Good of the same place has er ected a large and well appointed dwelling during the past summer. Mr. Russell of St. John, who recently married a lady of this village, gave

making a very brief visit.

Miss Josie Schaley of Boston, who recently made a visit to her family, has returned to her former scene labor in the hospital.

A gentleman from Queens county re-centily made a visit to this village after an absence of 33 years. His visit was with his brother, who re-sides in this village; both of them are

Messrs. Shoat and Miller, whose mills were burned last summer, have re-built and now are ready to saw lum-ber and grind grain. In addition to water power, Capt. Adams has added steam power for carding and grinding when water fails to materialize.

H. T. Schaley has fitted up a commodicus store and expects soon to divide the trade with the three already established in this village.

Gordon Hovey has finished a large barn on his farm across the stream.

Dr. Brown has painted has buildings outside and his house inside.

The fruit crop (plums excepted), vita

vegetables, corn, pumpkins and pota-toes, is a good average. In conse-quence of good pasturage the butter and cheese product naver was better. Prices are low: Butter, 14c.; cheese, per bbl. Farmers are placing their pork in the market at 5 cents lb. Beer is up in price and hard to get at any

with the exception of hay, the product of the soil has not met the expectation anticipated before the harvest. The rust caused the oats to ripen suddenly before they were filled out in the grain, consequently they, are not quite up to the standard in weight. This, with the bad harvest weather, has caused a partial failure quite unexpected. Bulkwheat ripened well, but from some cause unknown, does not give the expected yield from the large quantity of straw; while wheat in consequence or bad (political) seed, and other causes, has proved a failure in quantity and quality.

Interviewed in Montreal on the Yukon

(Star, Oct. 28).

Dr. P. J. B. Le Blanc of Dawson City is at the Windsor. After stopping in Quebec for a few days he will visit his old home, Moncton, N. B.

Later he will go abroad for the winter. The detor, who wears an air of prosperity, will return to Dawson in the spring in order to look after his minking interests. He is ilain of speech, last night mentioning names he had no hesitation in denouncing the maladinistration in the Klondyke and the system of blackmail practiced by the officials. One official with a nestinal reputation, said the doctor, came out after a nine months' stay, according to report, with \$90,-900. The administration, he declared, was shipply awful owing to the incompetence and in most cases the iniquity of the officials. Blackmail is their watchword. The situation is so bad that I felt ashamed to call myself a Canadian. My own experience dilustrates the point. For every document or abstract I had to pay and to pay handsomely too. The officials boast that they are after the cream, and they never fail to get it. Fawcest, the ex-gold commissioner, is an honest man but incompetent. His staff and the postal clerks were the real paraeites.

I have often paid as high as \$5 for the privilege of getting my mail out of the peet office before some less wealthy individual; it is a common sight in Dawson to see a long line of people before the post office awaiting their turn. Many have an all-day or all-night wat and while away the dreary hours in eard games on a mud heap for a card sable. Of course the government acted stupidly or without knowledge in this whole Kloadyke business.

"But I must say that a great change to be place upon Mr. Oglivie's arrival. This sensible and respected gentleman immediately set at work to better the situation. He interpreted the laws in a clever manner, and moved certain officers out of his staff.

Dr. Le Blanc is the president of the Dawson Telephone exchange. He stays the
