Wild Time in Belfast. Belfast, July 10.—Rioting broke out in Belfast last night, and continuing throughout the day, became so serious this afternoon that the military had to be summoned to restore order. At ten o'clock tonight the casualty lists showed that fifteen persons had been killed and nearly one hundred wounded.

According to police accounts the firing at petrols by Republicans precipitated the outbreak. From then the shooting was almost continuous in the Falls district. As daybreak came on the tide of battle extended down the Falls Road until it reached Townshend street, which then became the centre of sharp rioting, with the Unionists for the first time entering the fray.

Orangemen Shout Defiance. The Carrick Hill and Millfield areas, Nationalist strongholds, next became affected. The firing here was intense, alternating with the screams of the crowds as they scurried hurriedly away.

As a group of Orangemen marched down deep along Royal Avenue from a service in Ulster Hall there were scenes of excitement as the Orangemen shouting defiance as they passed the streets down which bullets were flying.

Police rifles began to come into action and a crowd on a street corner cheered wildly when one of the shots brought down a man with a gun. Bullymacreary, the city's eastern suburb, caught the riot infection, and generally the spirit of truce was the last thing to be observed in Belfast.

Armored Cars Out. Late this afternoon armored cars thundered along the avenue, cheered by the Unionists. At North street the occupants tumbled out and, lying flat on the pavement, opened fire, which was a continuation of North street, lined up with the police and

EARL OF CRAVEN IS DROWNED AT ISLE OF WIGHT

Expert Yachtsman and Swimmer Supposed to Have Fallen Overboard.

AT COWES FOR AUGUST REGATTA. Body Was Found on Shore After His Staircase Was Found Empty.

Cowes, Isle of Wight, July 10.—The Earl of Craven was drowned in the waters of the Solent Lake last night or early today. He disappeared mysteriously from his yacht during the night, and at three o'clock this afternoon his body was found on the rocks two miles from Cowes. The body was taken to Cowes to await an inquest.

Married in New York. The Earl of Craven in 1893 married Miss Cornelia Martin, daughter of the late Bradley-Martin of New York.

The Earl, who was an enthusiastic yachtsman, had taken the Earl of Ormonde for the Marchioness Lodge belonging to the Marchioness August. He arrived yesterday on board his yacht the Sylvia, paid a visit to the Royal Yacht Squadron, and then returned to the Sylvia. He was in his usual health and in a cheerful mood, members of the crew said. He followed the common custom of sitting up on deck for a time, reading while the crew turned in.

Fell Off Stern. When his valet visited his cabin this morning the valet found the Earl dead and had not been slept in, and it was feared at once that he had fallen overboard from the stern of the vessel, which has no protective rail.

A strong tide runs at the point the Earl was moored and it is surmised that after having tripped over a rope or other obstacle and fallen into the water he was carried away by the current, although he was able to swim.

One of the guests on the yacht left for London to break the news to his wife the Countess of Craven. All of the flags on the vessels in the harbor of Cowes were half-masted when the news of the Earl's death became known.

HARDING INVITES NAVAL POWERS TO WASHINGTON TO LIMIT NAVAL PLANS

Britain, France, Italy and Japan Urged to Come to Consider Disarmament.

NEAR EAST CASE COMING UP ALSO

China May Also be Asked to Have Representatives at the Big Meeting.

Washington, July 10.—President Harding has approached Great Britain, France, Italy and Japan with a view to the holding in Washington of a conference to discuss limitation of armaments.

The president furthermore has suggested to the powers interested in problems of the Pacific and Far East that subjects relating thereto be considered at the same conference at which it is proposed that limitation of armaments be considered.

By Direction of President. These announcements were embodied in a statement issued tonight by the state department "by direction of the president." The statement said: "The president, in view of the far-reaching importance of the question of limitation of armaments, has approached with informal but definite inquiry the group of powers heretofore known as the principal allied and associated powers, that is: Great Britain, France, Italy and Japan, to ascertain whether it would be agreeable to them to take part in a conference on this subject to be held in Washington at a time to be mutually agreed upon. If the proposal is found to be acceptable formal invitations for such a conference will be issued.

Far East Problem. "It is manifest that the question of limitation of armaments has a close relation to Pacific and Far Eastern problems, and the president has suggested that the powers especially interested in these problems undertake in connection with this conference the consideration of all matters bearing upon their solution with a view to reaching a common understanding with respect to principles and policy in the Far East. This has been communicated to the powers concerned and China has also been invited to take part in the discussion relating to Far Eastern problems."

Announced in London. London, July 10.—The United States embassy in London tonight issued for publication President Harding's statement relative to a conference between the great powers for the discussion of the limitation of armaments.

Ballooning Who Landed At Moose Factory Very Ill

Lieut. Farrell, One of the American Guests Last Winter, May Never Fly Again.

New York, July 10.—Broken by the hardships endured last winter when he was lost with two other balloonists in the wilds near Moose Factory, Lieut. Stephen Farrell, of the United States' naval air station at Ferokeaway, has been advised by physicians at the naval hospital, where he was admitted two months ago, that he was suffering from an acute case of neurasthenia, resulting from exhaustion, and that he would never fly again.

Things happened rapidly for hardly had the first car been sighted when another was soon coming rapidly about 300 yards behind the first. The second car was halted at the sound of the shots. The car had just come down an incline and was backed rapidly up the hill and away from the Moose Factory. Lieut. Farrell, who was at the top of the hill before the deputies giving chase in their car could overtake him.

Then a dizzy race ensued. The cars were traveling, according to the deputies about 60 miles an hour clip and the fugitive smugglers succeeded in holding their own until they reached the Bloomfield road leading into Canada and about six miles from where the chase started.

After the fugitives reached Canadian soil the officers relinquish the pursuit.

RUM RUNNERS BUSY ON N.B. MAINE BORDER

Big Battle in Aroostook County Early on Friday.

ONE MAN, 275 QTS. WHISKEY CAPTURED

Second Car Escaped to Canadian Side After Stirring Chase by Officers.

Houlton, Maine, July 10.—Another thrilling chapter has been written in the crusade against rum-runners now being written in Aroostook county. Early Friday morning officers at Monticello attempted to stop a car carrying contraband. The car did not obey orders and 21 revolver shots were exchanged, the men in the car starting the fusillade which was answered by the officers. No one was injured.

Other officers then stopped the car and a battle with clubs ensued. One of the occupants of the car escaped by flight into the woods; the other was captured. A second car, closely following the first, turned and escaped after an exciting chase by the officials to Canadian territory. The officers brought to Houlton a car, containing a Hudson speeder, 1920 model, 275 quarts of Canadian whiskey, and one prisoner, who gave the name of Bill Lizotte and his residence as Arcadia, a small place in Canada.

These are the main facts of a very sensational affair.

Waited All Thursday Night. All night Thursday until 2 o'clock Friday morning a number of officers awaited rum-runners in the village. It is not disclosed if they had information of the coming of liquor cars, or if they were merely on duty when the cars came at about 2 o'clock in the morning, hustling along at a swift pace.

In the official party were Deputy Sheriff James Ross of Monticello, Deputy George Graves and his son and Passmore of Monticello, customs house representative. Two of the officers were shot by the car, one at the entrance to Monticello village. It is not disclosed if they had information of the coming of liquor cars, or if they were merely on duty when the cars came at about 2 o'clock in the morning, hustling along at a swift pace.

Car Stopped By Deputies. The car, however, was stopped by the deputies at the top of the hill who leaped aboard the running board and were met by clubs in the hands of the two occupants of the car. A sharp struggle ensued which was ended when one of the men was overthrown, the other leaping from the car and escaping by flight in the woods, pursuit at the time being useless.

The man who was captured refused to answer questions beyond giving the name of Bill Lizotte. He was considerably injured by the clubbing he received and was taken into a neighboring house where his wounds were washed.

A search of the car disclosed 275 quarts of Canadian whiskey, which was taken to Houlton.

Second Car Appears. Things happened rapidly for hardly had the first car been sighted when another was soon coming rapidly about 300 yards behind the first. The second car was halted at the sound of the shots. The car had just come down an incline and was backed rapidly up the hill and away from the Moose Factory. Lieut.
