Prominence Over Competitors everywhere.

The reputation schieved by Dr. Williams' Pink Pills not only in Canada, but throughout the world, rests upon a very solid basis, fried, may be summed up in two worldestelling ment. The Exterprise has had one steeling ment. The Exterprise has had failed steeling ment. The Exterprise has had failed steeling ment. The Exterprise has had failed steeling the steeling ment. The Exterprise has had failed steeling the propularity of Dr. Williams' Pink Pills in the locality in which it occurred, and as we can vouch for the facts, it may well bring hope to sufferers elsewhere. Mr. Walter H. Johnson is one of the heat known residents of the northern section of Queen's county. He resides in the town of Caledonia, where he keeps a hotel, and also runs a stage that carries passengers and mail between that town and Liverpool, a distance of some thirty miles. Mr. Johnson was in Bridgewater recently, on which occasion he gave a reporter of this paper the following facts: About three years ago he was taken very ill. He had the best of medical attendance, but made very little hope that he would be able to return to his former work. The trouble appeared to have located itself in his kidneys, and for eight weeks or more he was contined to bed. He suffered greatly from constant pains in the back, his appetite became impaired, and his constitution generally appeared to be shattered. At this juncture he decided to try Dr. Williams Pink Pills and got a half dozen boxes. In the course of a couple of weeks he noticed an improvement in his condition and he continued the use of the pills until he had taken some ten or twelve boxes, when he not only felt that his cure was complete, but also felt that in all resp

driving his coach between Caledonia and Liverpool, and has not had the slightest return of the trouble, notwithstanding that he has to face at times very inclement weather, that might well bring on a return of the trouble had not his system been so strongly fortified against it through the use of Dr. Williams' Pink Pills.

If the blood is pure and wholesome disease cannot exist. The reason why Dr. Williams' Pink Pills cure so many forms of disease is that they act directly upon the blood and nerves, thus reaching the root of the trouble. Other medicines act only upon the symptoms of the trouble, and that is the reason the trouble always returns when you cease these medicines act only upon the blood and nerves, thus reaching the root of the trouble. The wind is springing up from the westerly and she will probably go to pieces during the night. The fore hold is full of water. People along Digby Neck are saving as much kerosene oil and supplies as possible. A large crowd is viewing the stranded vessel. The tug Marina will probably leave here early in the morning from White Cove. The steamer Centreville, which has just arrived at Trout Cove from St. John, will also proceed to the wreck. Several teams will drive down from Digby. The affair has created quite an excitement around town and is detracting interest from the flagship Crescent, which is still in port, atthough many visited the latter ship this afternoon.

St. Jchn's, Nfild., Sept. 22.—An unknown American vessel foundered on the Grand Banks during last week's gale and all of her crew, about 20 in number, pershed. The French "banker" Thornley foundered and 14 of her crew were drowned while six escaped. The schooner Eddie lost three men. The schooner Dolphin was dismasted and lost three men. A number of other vessels were greatly damaged and many fishermen who were away in boaks overhauling their trawls when the gale arose were drowned.

The British barque Mary Hendry, Capt. Page, from New. York for St. John's with anthracite coal, has arrived. She was dismasted during the gale, her decks were swept and her bulwarks smashed and deck gear carried away.

St. John's, Nfild., Sept. 22.—Damaged vessels continue to make this port from the Grand Banks. One reports a collision between two French fishing schooners during the gale, carrying away the mests of both. They were driven out of sight and it is feared they foundered, which would represent a loss of about forty lives.

O'Reilly, the rector of one of the prominent churches, told his congregation that the miners could not win. He advised them to refrain from acts of violence. He told them that the mines were means of support while the proceeds of Reading Company from the mines was only a small portion of its receipts. The company would not starte, he said, but the mine workers would. Father Peter Abramaitis, of the Lithuanian Church of St. George, said that,

troop and battery C will leave their camps and march out on the roads leading to the collieries. The troops will continue on the move during the time the workmen are going to the mines. It is General Gobin's intention to have a portion of the troops proceed to Mahanoy City, about 3½ miles from here, to suppress airy disturbances that may occur there.

During the afternoon Captain Daniel Christian, of the Coal & Iron police, and W. H. Richards, superintendent of the Reading Company's collieries at Mahanoy City, called on General Gobin and asked for troops. Captain Christian said the situation at Mahanoy City differed from that at this place, in that the foreigners were willing to return to work but were intimidated by the dissatisfied English-speaking employes. Eighty per cent of the foreigners, Superintendent Richards said, were in favor of remaining at work. General Gobin said he could not promise to locate troops at Mahanoy City but would endeavor to have soldiers in that vicinity early tomorrow morning.

Major W. Miller, brigade inspector was today detailed by General Gobin as provost marshal and he established head-quarters in the post office building. The guard is composed of over 100 men of the 8th infantry. Guards are located at all street corners in the central part of the town and, while the soldiers are not expected to do police duty, they have been instructed to keep a sharp lookout for disturbances. Chief Burgess David Brown today caused to be posted throughout the town proclamations prohibiting the assembling of crowds on the streets and calling on the catizens to preserve order.

Extend.

Scranton, Pa., Sept. 23—It now begins to look as if the strike would extend to the railroaders, at least in this region. The switchmen had another conference today with their national officer, Grand Master Frank T. Hawley, and Grand Secretary John E. Tipton of Buffalo, to discuss the request of the striking miners that they refuse to handle non-union coal. Nothing could be learned of what was done further than that the national offidone further than that the national men would go to New York tomorrow and that on their return something definite would be done. The purpose of their visit could not be learned but it is supposed it is to petition President Truesdale of the Delaware, Lackawanna and Western to spare them the task of handling the union washery culm and save them from the alternative of striking or refusing the miners' request.

miners' request.

The scare resulting from the announcement that the Delaware, LackTwanna and Western Company would make an effort to operate the Bellevue colliery tomorrow is now learned to be without foundation. Supt. Loomis says the story is untrue and the leaf representation at the colliery the lack of preparation at the colliery

bears him out. Rev. W. P. O'Donnell, pastor of Holy Cross parish, in which the Bellevue colliery is located, attended each of the three masses this morning and counselled the people of his congregation to keep the people of his congregation to keep away from the mine tomorrow and do nothing which would in any way tend to cause a disturbance. He announced that he would celebrate a special mass for them in the morning and entreated them, especially the men, to attend it.

Organizer Dilcher said today that the miners had been assured of outside help that would permit them to continue on that would permit them to continue on strike for six months at least after their own resources had been exhausted.

The tie up remains practically the same as when the strike went into effect a week ago. All the miners are idle but

the ten washeries continue to operate. The mine workers now claim to have 70,000 of the 75,000 men of district No. 1 enrolled in their organization. For the MILLIONS!
