seen veh. That is all. 2 looked around
couldn't see veh. It had not come out
front of me. Were not many around lot at
time - just ascd. Homeier + 2 other drvs who
were working on their trucks. 2 other drvs were
still there after truck missing. Bell + Haight were
only 2 missing from those who had been there
before. Next saw the veh between 0200 + 0400 hrs
next morning. It was parked where it originally
was. Did not notice the 2 wheeled stretchers
on top of cab.

Bell + Haight approx 100 ft from veh when 2 saw
them. My beat up + down here (indicating).
Saw B + H about here (near 'C'). Had to come
up to one end of beat to see Homeier's truck
because of other vehs.

Cross-exam. Duty was to get lories in that lot.
Did not see veh. leave. Am able to see all
vehs from far end but not from other end.
Possible to remove without me seeing.
Haight + Bell seemed alright to me - seemed
normal. Nothing unusual in them being there.
Re-exam. nil
