

## ARTICLE 24.

## Mealtime

Engineers on freight trains will be given reasonable time for meals on advising Despatcher in due time. Time occupied to be deducted in computing overtime. Engineers on switch engines working within their yard limits will not be required to remain on duty over six hours without a meal, but if held longer they will first be allowed 30 minutes off and paid for one hour.

## Time between meals on switch engines

Hostlers will be given reasonable time for meals.

## ARTICLE 25.

## Hostling

Hostlers will do roundhouse and shop switching. Engineers desiring position of hostler will receive preference.

## ARTICLE 26.

## Promotion List

A list of engineers in promotion order will be posted in each booking room in January and July of each year.

## Transfers

Engineers transferred from one division to another, or from one promotion district to another, or from another railroad, to rank as junior men.

## Reducing Staff

In case of reduction of staff, hired engineers will not be classed as firemen ahead of the men who are firing when they were hired.

## Put back firing

Engineers put back firing on account of a reduction in staff will have choice of runs according to seniority and fitness.

## ARTICLE 27.

Engineers taken over with another road will hold their seniority rights with men
