A young man by the name of Bishop, in the employ of the Chat-ham Electric Co., while at work on the roof of the Garner House yesterday fell. He was quite seriously in-jured. He was removed to the Publie General Hospital. Major Coogan was the first consta-

ble to receive the reward of \$20 granted by the County Council for the conviction of every thief who stole more than \$40. The Major got his money for the conviction of George Lucas on the charge of stealing \$55 from James Thomas Dungey. Lucas was released on suspended sentence. Sheriff Gemmill and his deputy, C.

E. Beeston, were in the Sherriff's office to-day but they were not doing any business. The canny Scotch reason which the Sheriff gave for beng present was "Mr. Blackburn was kind enough to put on a fire and it was warm and comfortable here." The office of County Court Clerk Jas. Holmes and the Judges' Chambers were closed. The other offices in the Hall were open.

The Warden says that the citizens must not think that the County is not loyal because the flag is not flying on Harrison Hall to-day. The flagpole is broken is the true reason. A new steel pole similar to the one at the jail has been ordered and will be erected in the grass plot at the south end of Harrison Hall. It will be put up as soon as it arrives. The flag will be an inch longer than the city's Union Jack.

#### **FAT POULTRY**

Thos. Sain bury Fid Pr pure 53 hickens for the English Market his Year.

Thomas Sainsbury, who has charge of the government poultry fattening depot here, has only 153 chickens to kill this year, as against 500 last year. The birds are chiefly Plymouth Rocks, and were in the fattening pens four weeks yesterday. They will be killed and shipped to the English market next week. Last year Mr. Sainsbury sent the best chickens sent from Ontario. In each box 12 fowl were put, and Mr. Sainsbury beat all Canada by 6 1-2 lbs in each box. Speaking this norning Mr. Sainsbury said, chickens will average as well this year. I raised 50 of them myself and bought 103. Last year, after buying the feed, and paying me, the Ontario government had quite a nice surplus from the sale of the chickens. We ed peacefully away yesterday at feed the cnickens on loatmeal and milk his home on the corner of Cross and Jeffrey streets. Deceased has been ill Jeffrey streets. Deceased has been ill for some time, so that his death was not entirely unexpected. Death was fed the chickens discattlear and mink and during the last week we mix tallow with the feed. Last year we stuffed the chickens, but we didn't this year, and they are doing just as well. One of the chickens fed this way, is caused from malaria fever. He leaves a wife and one daughter to mourn his loss. The funeral will take place on worth half a dozen barn 'yard raised Monday at one o'clock, to St. Joseph's fowls. The meat is wnite and tender. Church and thence to St. Anthony's I think I will raise some for the local market next . year. The chickens I purchased I paid 7c a pound for."

A WEDDING WITH A SEQUEL.

Since the wedding of Miss Nancy Hughson and Frank Woodworth, as announced last week, serious complications have occurred. The coupl had been but shortly acquainted when married, and certain relatives of the bride were much angered. Rumors were spread around that the groom had a wife and family in the United States, and the bride demanded ex-planations. Mr. Woodworth was given \$100 for expenses by his wife to go to Detro where he declared he go to Detro could clear to sup satisfactorily. But before they had been in Detroit very long the groom disappeared, and bride believes foul play has oc curred.-Blenh n News. SENDS HIS BILLS TO THE MEN. Shopkeeper Who Found That They Paid re Prompely Than the Wome

There is a man in an eastern city

who does a large business in babies' dresses, and clothing for very young children," writes Edward Bok, in The Ladies' Home Journal. "He makes and sells nothing else. trade is almost entirely with men. Up to within three years ago amounting to as much as \$10, In six months' time he would 000. receive less than \$3,000 in return. Yet his customers all 'stood well and were considered women of easy Then he deliberately chang ed his methods of rendering bills. He went over his books and found that he had some \$12,000 worth of unpaid accounts. He made out the bills, and addressed them to husor fathers of his customers, directing the bills to their offices. Within sixty days he had received \$9,600 in checks. His invariable rule now is to send all his bills . to the husbands, fathers or male members of his customers' families. When member exists he insists upon a cash transaction.'

Popular Christian Names.

Some romantic parents love to their infants with highchristen names. Religious parents search the Scriptures before the baptismal ceremony. Parents in search of a fortune will label their luckless babes with the surnames of the expected testator. But, nevertheless the list of common English Christian names is a very small one. Out of every hundred fathers and mothers of male children some eighty-four limit their choice to fifteen familiar names.

The favorite name is undoubtedly William. In all ranks of society in the peerage as in the workhouse-William is the commonest of male Christian names.

Stop the first thousand men you meet in the street-no fewer than 170 are Williams. A long wav be-hind come the Johns, closely followed by the Georges. Of every thou-sand men ninety-four are called John and ninety-two George.

The next commonest is Thomas, which has seventy-four owners, while claims seventy-two. Henry and Harry between them are seventy in number. Of these about one has received the name of Harry at the baptismal font. Following them come Frederick with fifty-seven; Charles, with fifty-eight; Alfred with forty-five, and Albert some ways behind, with thirty-one. -London Tit-Bits.

Questions Worth Consideration.

Rev. Mark Guy Pearse asks: "Is it too much to hope that the time will come when men in whom are many instincts that are noble and generous, shall feel that it is a mean and miserable thing to find their pleasure in excessive drinking, muddling their brains, degrading their manhood, and unfitting themselves

for their best work? "Is it too much to hope that the time will soon come when fathers and husbands shall feel it an utterly shameful thing to spend in their own self-indulgence which might add largely to the comforts of home; to add the benefit of the children, as well as providing for times of sickness and

old age?

"Is it too much to hope that the time will come when either as manufacturers or shareholders, men shall refuse to fatten upon the miseries of their fellow-men and to make a for-tune out of that which produces such widespread destitution and anguish, such want and curse? For that day let us hope. For that day work. For that day let us pray."

#### St. Louis Exposition Buildings.

The principal buildings for the St. Louis exposition, as officially decided upon, will in many cases be larger than buildings constructed for simi lar purposes at previous expositions There is to be an agricultural building, 700 by 2,000 feet; a manufac-turers' building, 600 by 600 feet; a liberal arts building, 600 by 1,200 feet; a social economy building, 550 by 700 feet; a transportation build-600 by 1,200 feet; an education building, 550 by 700 feet; an art building, 300 by 600 feet, with two wings, each 200 by 300 feet; a mine and metallurgy building, 600 by 1, 200 feet; an electricity building, 600 by 550 feet, and a government building to cover 100,000 square feet The estimated cost of these buildings is \$7,000,000. To these will prob ably be added buildings for fish and fisheries, for machinery, for forestry and for horticulture. Work of de signing buildings whose dimension are given has been assigned to arch itects, and, as in other expositions, the preliminary plans will be compared to secure harmony in design.

The Yale Record reports that "ar unknown friend" has lately presented some choice specimens to the Pea-body Museum. A few of them are as

follows:

A wag from the 'Tale of Two Cities,' some water from 'all's well,' the rollers from the 'shades of evening,' a drink from a 'sandbar,' a rocker from the 'cradle of the deep," a free lunch from the Sandwich Islands.

Meaning of Chiropody.

It would be interesting, at least to a philologist, to find out why it is that chiropody has come to mea only the care of the feet. ody's true meaning is the care of the hands and feet, for it is derived from the Greek nouns cheir, the hand, and pous, the foot. Everywhere, though, chiropody is used with reference to the feet alone, while manicuring relates to the hands.
