

# The Vessot "Champion" Grinder

**CLEANS AND GRINDS  
ALL KINDS OF GRAIN**

**T**HE Vessot "Champion" cleans grain as well as grinds it. The spout that carries the grain to the grinder is made with two sieves, a coarse one above and a fine one below. The coarse sieve catches nails, sticks, and stones, but lets the grain fall through. The fine sieve holds the grain, but takes out all sand and dirt. The grain passes to the grinding plates as clean as grain can be.

No matter what grain is being ground, flax, barley, corn, oats, wheat, rye, peas, buckwheat, screenings, or any kind of feed stuff, it is thoroughly cleaned and ground, fine or coarse as desired.

## VESSOT Grinding Plates

are made of a special metal, the composition of which is controlled by the manufacturer. There is no Vessot plate except the original, and each one of those, for your protection, is marked plainly with the SV trade-mark. Look for it when you buy.

A "Champion" grinder does its best work when run by steady power such as is furnished by an International Kerosene Engine. A card or letter to the nearest branch house listed below will bring you full information about both these good machines.
