The Advice of Experts:

"It is always a mistake to plant **old seed**, and often it is well to procure a supply from a different part of the country, but not very remote nor too different in climate. Seeds of weeds that are hard to kill out are sometimes found in field and garden seeds, and precautions must be exercised against them."

The above is a quotation from *Farmer's Bulletin, No. 94*, of the *United States Department of Agriculture*, and its application to Canadian Growers is this:

Rennie's Seeds are fresh. They are Northern grown and adapted to the Canadian climate. They are carefully selected and free from weeds. This is a plain statement of facts,

and we stand behind it with a record of thirty-seven years' honest service to the Canadian farmer.
