

Making Hay

As all progressive farmers are at all times ready to adopt any new machines which prove economical, we print a letter and clipping received by Dain Manfg. Co., Preston, Ont., from a party using their Loader.

Kingsmill, Feb. 27, '08

Dain Manfg. Co.:

Gentlemen,—I enclose clipping from "Aylmer Express," of July 25th, 1907:

"The haying outfit of L. M. Brown, of Kingsmill, put in 31 loads of hay one day last week, the product of 14 acres, two of which is orchard. Twenty-eight loads were loaded with a Dain Hay Loader on roller rack with only one man on the wagon, and for twenty-four loads the man drove his own team. Mostly unloaded in a shed with ordinary horse fork, although a gasoline engine is used for unloading in the barn. This looks like very fast work, and shows what can be done by an up-to-date farmer with modern machinery, even if men are scarce."

I do not regard this as a big day's work, the man with the loader easily kept the unloading gang at work, and they had long narrow sheds to work in most of the time.

I believe one man with your loader and roller racks, such as we use, will load ten loads per hour all day, if empty wagons are brought to him in the field.

Respectfully yours,

L. M. BROWN.

DON'T SIFT YOUR ASHES!
IT'S A DIRTY JOB AND DOESN'T PAY

ALWAYS INSTAL A PEASE "ECONOMY" FURNACE

With the "anti-clinker" grate and perfect combustion chamber used in the "Pease" Economy Furnaces every possible bit of coal is consumed, leaving nothing but finest ash—so you see there is nothing to sift. The result is that you get all the possible heat out of the coal—save money by requiring less fuel—and your home is happy and pleasant.

Anybody Can Kodak

The No. 2A

BROWNIE

Pictures, 2½ x 4¼. Price, \$3.00.

Built on the Kodak plan—uses Kodak film cartridges, and may be loaded and unloaded in broad daylight. No dark-room for any part of the work. A perfectly practical little camera for snap-shots or time exposures.

THE 1909 KODAK CATALOGUE fully describes and illustrates our six styles of Brownies and fifteen styles of Kodaks, ranging in price from \$1.00 to over \$100.00, and fully explains the daylight development methods which have done away with the dark-room. Free at any Kodak dealers or by mail.

Ask your local dealer, or write us for a free copy of "The Kodak on the Farm."
