

Got enough oil on hand

The grocer who has a BOWSER SELF-MEASURING OIL TANK can tell 20 feet from the tank by a glance at the float gauge how much oil he has on hand. When the tank is filled the gauge shows him how much oil he has received and he cannot be overcharged. As he SELLS the oil to his customers, the computer shows how much to charge, just as does your computing scales, and the automatic cut-off stops the flow of oil as soon as pumping ceases, so there is no dripping of oil to waste profits and damage other goods. Get a BOWSER OUTFIT, cut out the guess-work, and MAKE A PROFIT ON EVERY OIL SALE. Send a postal card asking for our FREE BOOK and full particulars. Ask us any question you want about handling oil.

S. F. BOWSER & COMPANY, Inc.
