## Victrola supremacy and what makes it

\*\*\*\*\*\*\*\*\*\*\*\*

You are likely not interested in the interior mechanism of the Victrola.

What does interest you is what that mechanism, the designing, the construction, give you—the unequaled Victrola tone.

Tone and the control of the volume of tone are the things you want in a talking-machine—two dominant Victrola characteristics.

And because their development represents years of patient experiment and the expenditure of millions of dollars, it may be well for you to know about some of the exclusive features

that make the Victrola supreme among musical instruments. Come in and let us show you the advantages of these

Tapering tone arm—with its exact taper and perfectly smooth bore, which is scientifically calculated and constructed to conform to the expanding sound waves created by the sound-box.

"Goose-neck" sound-box tube—the flexible metal connection between the sound-box and tapering to earm, which enables the Victor Needle to follow the record grooves with unerring accuracy.

Conceade sounding-boards and amplifying compartment of weed—provide the very limit of area of vibrating surface and sound amplifying compartment, so absolutely essential to an exact and pure tone reproduction.

tight the volume is reduced to the minimum and when not in use the internol is any processing. Victor system of changeable needless—a perfect reproduction is possible only with a perfect point—therefore a new needle for each record is the only positive assurance of a perfect point. You also have your choice of full tone, half tone of further modification with the fiber needle.

We're glad to make you fully acquainted with the Victrola and its delightful music which is at all times in exact accord with the artist's interpretation. Stop in any time.

Liesemer & Kalbfleish THE CORNER HARDWARE.

#### LIVE STOCK MARKETS

There was a comparatively light run of cattle on the Union Stock Yards market yesterday, 116 cars altogether, comprising 2165 head of cattle, 334 calves, 1296 hogs and 41 sheep and lambs, but this fact, while it served to clean up the offerings in short order, was not reflected in any particular improvement in pric

For the extra good to choice heavy steers and heifers the market was admittedly better, from 20c to 25c per cwt. and more of this class would have sold just as readily. They were wanted and the buyers were prepared to take them off hand, at the advance, but the medium weigh butcher were not so much in lemand and barely held steady with last week's prices; indeed, it is questionable

Bulls held steady, as did the canners and cutters, waile the market for stockers and feeders was steady to strong.

There was a light run of sheep, lambs, and calves with steady prices. The market was firm at from 21c to 211c fed and watered, 211c weighed ofi

#### Rioting at Quebec

The attempts to enforce the Military Service Act in the Province of Quebec is meeting with organized resistance. In the city of Ouebec the civilians organized a mob several thousand strong, and attempted to raid the Armories. They were opposed by the military and several sharp skirmishes occurred. Hardware stores were raided in an attempt to secure firearms for the rioters, and the military had considerable difficulty in suppressing the outbreak. Three civilians were killed, many others were wounded, and scores of soldiers also suffered injury. The city is quiet now, and it is hoped that the trouble is

#### ADDITIONAL LOCALS.

Bruce Municipal Telephone System

has raised the phone rate to \$15 for 1918. A young man who was fined at Linday the other day for being drunk, had ound the necessary stimulant in a mixure of extract of vanilla and 2% beer.

A Midland township farmer sold a sow n Gueiph for \$117. It weighed 740 lbs., and as a fashion sheet says, had a waist neasurement of 77 inches.

A Walkerton hotelkeeper interviewed remier Hearst last week asking that the sale of tobaccos and cigars be given so'ely to hotelkeepers. The Premier did ot give the hotelman much encourage

Don't blame the newspaper man for what happens in the community. If there is anything in the life of the place that you do not wish to go abroad in the world, blame yourself that it exists-not the paper for saying something about it.

Not a Good Season. Mr. Adam Darling sr., who goes into the maple syrup business each spring on an extensive scale, says that this has been a rather poor sap season so far. He made the first lot of syrup last Friday and although he has a great many trees tapped, he has no trouble keeping up with the boiling.

Meatless days have been suspended for one month in the United States, The great need now is to save wheat, and Mr. Hoover says the nation is facing he most ctitical time since Gettysburg. A problem hardly less serious than that of stemming the German drive is to get wheat to our French and Italian Allies.

Prof. Zavitz, of the Agricultural College, Guelph, strongly advises the sow ing of spring wheat, and points out that when the best seed is obtained the crop should be successfully grown in Ontario In 1917 there were 182,957 acres of pring wheat in Ontario-21 per cent nore than the year previous. He highy recommends Marquis wheat as a variety to sow, which, he says, with favorable weather conditions, should give

satisfactory results in Ontario. A very unfortunate accident befel three young cattle belonging to Mr. J H. Wahl on the 10th con. last wek. During the warm days the animals hau been let out of the stables for a little sunning. When three young animals failed to return a search was made and they were discovered in the swamp where they had strayed. They had bro ken through the ice and were drowned
