

SURPRISE A PURE SOAP

Whose Was It?

In a certain Denver church one Sun-day a bright new half dollar was no-

ticed in the aisie by a woman in one of the pews. She was wondering how she'd get it, and in glancing around to

see if her discovery had been noticed she saw a woman directly behind her

looking at the coin. The first woman feared the second would "beat her to

it," so she put her hand over her mouth and whispered: "How shall I get that half dollar I

just dropped?"
"You didn't drop that. I dropped

it," replied the ether.

The women were both wondering how to get the half dollar when a man

came along with the contribution box.
As he offered her the box a woman

across the aisle from the other two

"I just dropped a half dollar on the

The man picked it up and gave it to her. The other two women, although

they are neighbors, haven't spoken to each other since.—Denver Post.

CONSTRUCTING FIREPROOF OUTBUILDINGS.

Serious efforts have recently been made, to reduce the frightful loss from lightning and fire on Canadian farms. And they have been wholly successful, not only in securing a thoroughly lightning and fireproof construction, but also in bringing the price down to, and even below, that of the old-time board and stringle harm.

Doard and shingle barn.

The new plan is to use corrugated galvanized sheets for roofing and siding barns and all outbuildings. These sheets are very rigid, and make a perfectly strong construction when used over very light framework. No sheeting boards are used at all—only light purlin strips being necessary.

Such building are now because

Sign of Big Clock,

IMPURE FOODS.

Tricks of the Trades Recorded by Diarist of 1783.

"The pure food question is as old," aid an antiquary, "as the hills." He took down a volume bound in gray calf.

"This is the diary," he said, "of Hein rich Cruger, born in Amsterdam in 1724; died in New York in 1870. Listen to the pure food kick that Henry put up in 1783."

The antiquary read: "Monday, 18th October-If I would drink water I must quaff the mawkish contents of a cursed open aqueduct, exposed to all manner of defilement and impregnated with all the filth of

"As for the intexicating potion sold as wine, it is a vile, unpalatable and pernicious sophistication, balderdashed with cider, corn-spirit and the juice of

"The bread is a deleterious paste, mixed up with chalk, alum and bone ashes, insipid to the taste and destruc-

tive to the constitution. "The table beer, guiltless of hops or malt, is vapid and nauseous. The tal-lowy, rancid mass called butter is manufactured of candle grease and kitchen stuff. The fresh eggs were

"The greens are boiled with brass halfpence in order to improve their color, while the pickles, though very in-viting to the eye, are often insupportably rank to the taste, the reason being that in their case also the house wife has boiled a shilling's worth or two of halfpence or a pound brass weight in the vinegar."

THE MORNING WAKING.

Getting Up Exercises That Will Put the Brain In Order

The difficulty most people experience in getting up in the morning can be easily overcome by a simple operation, according to a medical authority. After the night's long rest the brain is laden with somewhat impure blood, and the lymph vessels which remove waste matter are overfull and sluggish. This is why we all crave another ten min-utes in bed and why most people are so morose at breakfast. Very slowly the brain gets rid of the matters which

interfere with its vigorous action, but the process can be expedited.

If the finger tips are placed against the neck just under the ear and moved swiftly down to the front of the shoulder along the course of the jugular vein, the used up blood is drawn away and room left for a fresh supply. This should be done twice at each side of the neck. Then the hands should be placed on the back of the neck just under the skull and moved downward as far as possible. This clears out the lymph vessels and effectually pre-vents swollen glands, from which so

light purlin strips being necessary.
Such buildings are now becoming very common, and users everywhere affirm that "Acorn Quality" Corrugated Galvanized Sheets, manufactured by the Metal Shingle & Siding Co., Limited, of Preston, Ont., is the most satisfactory material known for the purpose. They are so heavily galvanized that they easily outlast a generation and never need repairs. The firm above mentioned will gladly send to inquirers their interesting literature about "Acorn Quality" Corrugated Galvanized Sheets, and give names of users in all parts of Canada. 46 many people suffer.

After two brisk rubs of the lymph vessels return to the jugular veins and then back to the glands, half a dozen or eight times, until the operation will be found far better than a cup of coffee, and whenever the brain is dull through congestion this massage will be equally effective.

Miss, Mrs. and Mistress.
s" is an abbreviation of "mistress," which, as an English law dictionary explains, is the proper style of the wife of an esquire or a gentleman. By Dr. Johnson's time it had become "the term of honor to a young girl." In the earliest part of the eighteenth century, however, it was used respectfully of girls below the age of ten alone. After that age "miss" was rude, implying giddiness of behavior. In Smollett's writings an unmarried "I don't believe it."

"It's so just the same. Some cowboys have borrowed it to hang a horse woman of mature years and her maid are both "Mrs." It is certain that "miss" has grown older, so to speak, while "master" has become confined to

> Danger in Linoleum Making. In the manufacture of linoleum unprotected lights are allowed in the mixing department. This is on account of the great danger of exploding the cork dust floating in the air. An additional danger in lindeum making is that the mixture of cement and cork dust has the unpleasant property of apontaneously igniting if left in a warm place. It is therefore cus ary to mix the material a sackful at a time in order to reduce the risks of an explos

> A Figure of Speech.
> "Dad," inquired Freddy, "what is a "figure of speech?"
> "Where's your mother?" asked dad

"She's downstairs," answered the boy.

"Well, then," began dad, "a figure of speech, my son, is a woman,".

A Paradox of Poets.

"Poets have always had scanty en-couragement."
"Yes," answered the sad eyed youth with inky fingers. "The idea seems to be that poetry is something everybody ought to read and nobody ought to

THE WORST CLIMATES.

Three Places Where Weather Conditions Are Unbearable.

"Speaking of rank climates," said a globe trotter, "I have experienced the

"Of these three unspeakable climates I give the palm to the strait of Ma-

gellan. There is rain on an average 250 days in the year. The wind blows a hurricane from January to December. The thermometer never rises much above the freezing point—

a year round of raw, bitter days of rain and snow.
"Next comes Sierra Leone, on the

African west coast. That low lying marshy region has an average temper-

ature of 81 degrees, and the annual rainfall is 189 inches—enormous! There are, too, the 'smokes.' These are mists, smelling like oyster mud, that rise continually from the marshes,

giving marsh fever to nine out of ten of the white men that breathe them— a year round of hot and sticky days,

with vile smelling clouds of mist and whirring clouds of mosquitoes. "Last come the high tablelands of

central Asia, where the lack of mois-ture in the air makes the days Saha-

ran and the nights arctic-days like a

redhot furnace, nights like a January blizzard. Before this range of tem-

perature no human constitution can

three worst.

"To run a wild animals' hotel-for what is a zoo but that?-requires a lot of special knowledge," said an animal keeper. "How would you, for instance, know how to provide for a rhinoceros or a tapir? If you don't cater right for your animal guests, if you don't give them what they want, they pack up and quit the hotel, you know—that is to say, they die. It

amounts to the same thing.

"Yes, it takes special knowledge to feed a zoo. You wouldn't know, would you, that an elephant requires 150 pounds daily - no more, no less - of rice, hay, straw, roots, bread and bis-"A hippo wants more. Give him

roots, hay and grass, 200 pounds of them, and he won't register a single "A giraffe with its dainty appetite,

asks only for fifty pounds a day of chaff, salad, grain and clover. "But don't offer vegetables to lions and tigers. Eight pounds apiece of raw horsefiesh, with plenty of bone and

Marie Antoinette's Books.

The unhappy Queen Marie Antoinette possessed an important library of 4,712 volumes, consisting of plays and romances, little books a la mode, the works of Pascal, Bossuet, Fenelon Bourdaloue, Massillon, Boileau, Cous sean, Cornellie, Moliere, Voltaire and many others. She loved music passion-ately and had a large collection of operas in eighty-nine numbers. The bindings were by Blaizot and were uniform in red morocco, with the arms of France and Austria stamped upon them. The execution of the work was poor and the decadence in the art of binding evident. The glories of the art of Padeloup and the Deromes had passed away, and the revolution effec-tually killed whatever knowledge remained of the ancient skill of the bookbinders. Half a century later saw its revival in France, and the art has flourished both there and on English soil.—London Spectator.

How Beetles Defend Themselves Beetles have other defenses than their entrass, such as nauseous or eaustic liquids, which they expel on prove-cation, and, strange to say, certain beeties actually exude their blood, charged with noxious products. The practice is confined to the chrysomelidae, some of the timaschae and adamonia, the minelidae and the meloidae. seccinelidae and the meloidae. The blood of the coccinelidae has a strong, disagreeable odor like that of the whole insect. That of the timaschae is odor-less, but has an astringent flavor, and in the case of the Timarchae primeli-odes is venomous. The blood of the meloidae contains much cantharidine.

A Problem In Golf. A Problem in Golf.
Two young ladies were making their first essay at golf. "Dear me," said the first young lady, "what shall I do now? My ball is in a hole." The second young lady took out a book of instructions. "Let me see," she said, turning the pages. "I presume you must now take a stick of the right shape and get it out." "Oh, yes, of course," said the first young woman. "See if you can find me a stick shaped "See if you can find me a stick shaped like a dustpan and brush."

We make a lot of talk about defeewe make a lot of tak about detec-tive sight and hearing, and we do well, but it is vastly more important that we "get busy" in defective mental pro-gressive development. There is a near-sightedness of parents and pupils that

Sign of Arrested Develop

Parents often think that their son is especially promising because he wants to get to work young, wants to leave school and be earning. This is never a ign of strength, but always of weak-

much education as the other boys, but that he does not have their purpose to get ready for the doing of things.

learn in the seventh and eighth grades, whereas that is the least part of it. It is a case of arrested development usu-ally, and this is what should be treat-

is criminal. It contributes to delin-quency and, as I think, is within the

status of and subject to court punish

ness. When a boy wants to get to work instead of getting ready to work

It sometimes shows itself in diverted attention, in dissipated interest and often in overathletic or fraternity seal. The college theory is that the frater-nity chaps are the elect, but life does not show that. The data are imperfect at present, but there is enough to make it wholly probable that when the figures are in it will be clearly shown that in the last fifteen years when fraternity life has been extra social and extra political in clannishness much of the fraternity zeal indicates approaching arrested development. It is entirely clear already that this is characteristic of the high school fraternity, because it almost invariably means that a set of fellows dare not trust themselves to win honors in the open themselves to win honors in the open contest, but seek it as a favoritism by means of a little band of social high-waymen, as many of these high school fraternities are.

HEAD OFFICE, TORONTO, ONT.

H. J. BETHUNE, Chief Inspector - \$7,800,000

"Words are inadequate to ex-oss my gratitude for Culicura Remedies. I had been troubled with eczema for five years on my ear and to be an octoring with the best physicians, but found no relief whatever. When informing them that I could not bear the steining I was told by one of our best doctors, "not to scratch." As the medicines and salves did me no good I should get the "Magito Three," Cuticura Soap, Cuticura Gintment, and Cuticura Pilla, costing me one-half of one visit to my physician. After using as directed, with plenty of hot water, I can truthfully state that I found instant relief. When I had used three boxes of Cuticura Cintment and two cakes of Cuticura Cintment and two cakes of Cuticura Gong I found my skin as soft and fine as a baby's. My circle of friends is very large, and I am persuading them to use Cuticura Soap and give up the kinds they were using. I find no trouble as my case has proven to them that if Cuticura Cintment is good, Cuticura Soap must be likewise.

"I hesitate to send you the enclosed picture as it has been lying around in my desk for two years and is very soiled. At the time it was taken my ears were scaly and you will find some remnants of Cuticura Ointment on it, and, to me, it is very precious, as I can now say when looking at it that Cuticura is a bleesing, and that is why I nave kept it even though it was soiled. Miss Netta Ayers, 131 Franklin Ave., Brocklyn, N. Y., Sept. I and 16, 1966."
