A newly enrolled volunteer was rather alarmed during his first experience of a sham fight, especially as he heard the colonel in command declare that everything was to be done 'the same as in actual warfare.'

'No sooner was the first blank cartridge fired than the frightened soldier dropped his gun and took to his heels.'

'Hey, why are you running away?' shouted his captain as the man dashed by him.

'It's all right, Sir, I'm doing the same as I would do in actual warfare.'

Here are two essays on the Huguenots by Chicago public school pupils: The Huguenots are people in France that are followers of Victor Hugo. Their leader is a man named Jean Valjean that was a thief, but got converted and turned out well. The Huguenots are very good people. A lady named Evangeline wrote a long poem about them, but it don't rhyme.

'The Huguenots is the name of a big thing like a steam roller that the mogul used in India to run over people. It squashed them to death, and was very terrible. It had eyes painted on it like a dragon and snorted steam when it was running. They are no huguenots enny more.'

**Renovation Rugs.**

Will you give me standing room in your corner while I offer a tip to my fellow housewives who are at this season surveying dolefully squares and stripes of faded and soiled carpeting too good to throw away, yet utterly unrepresentative in their present condition? I am the proud possessor of six fine, large, handsome rugs, thick soft and warm. They represent four old carpets, two ingrain, two Brussels, which I was ready to throw away last spring. A friend showed me a more excellent way by displaying her store of nice rugs and telling me their history. So I bundled up the shabby things without even cleaning them, and sent them off to a factory.

I was in a twitter of delight when they came back to me, and I have not got over it yet, as you see.

Two of my rugs are square. I wanted them in that shape. Two are oblong, for bedrooms. The colors are artistically arranged. I am immensely proud of my cleverness.

**Rosy Cheeks for Pale Girls.**  
Don't be debarred from strength and spirit, don't give in to illness and despair. Ferrerozine supplies tone and vigor through which all functions of womanly life are maintained and fortified. From New Richmond, Que., comes the following statement from Mrs. Isidore Boisjournault: 'I take deep pleasure in testifying to the powerful influence of Ferrerozine. For years my daughter has been pale and sickly—showed signs of advanced anaemia. Her lips got so white and her cheeks so devoid of color that I feared consumption. I can certify Ferrerozine made an excellent cure, and to-day my daughter's health is the best.' 50c. per box at all dealers.

**A Good Washing Fluid.**  
If you wish you may insert in your valuable columns the following recipe for a washing fluid, which I have found to be splendid for saving labor. It will not injure the finest clothes. Dissolve one gallon of lye, powdered borax and ammonia (5 cents worth of each) in water, put into jug. To a boiler of clothes use a small teacupful of the fluid; also chip into water one half cake of good soap. Dampen soiled clothes, and on soiled spots rub soap. Put into the boiler and boil hard for twenty minutes. They will need very little rubbing, and after rinsing well, will be as clean as it is possible to get them. I hope this will be of benefit to some hard-working woman.

May I remind the hard worker afloat of the necessity of keeping jugs containing the fluid closely corked? The ammonia is an important ingredient, and volatile.

You have indigestion, perhaps cramps, or in any case the system is overloaded with matter that should be eliminated. Breath gets bad, eyes look dull, headaches are frequent. Every man likes something to hold clippings. Take six large envelopes and put them together so that the flaps all face the same way. Take two pieces of cardboard a little larger than the envelopes, and cover with fancy paper or with cloth. Letter with writing or outline 'Favorite Clippings.' Lay covers and envelopes evenly together at the bottom, and with a sharp knife make a gash an inch from each end of the two ends and run a ribbon through these with a ribbon needle. Leave it loose, and tie in a knot. Attach ribbon at top for tying.

Awfully distressing is asthma. But worse if possible when combined with Bronchitis. Relieved quicker by Catarrhazine than anything else-cured so thoroughly by 'Catarrhazine' that it doesn't return. Catarrhazine's healing vapor is breathed right into the lungs, destroying the cause of Asthma and succeeds in the most chronic cases. Try it. Two sizes, 25c. and \$1.00, at all dealers.

Man-of-war is a phrase applied to a line-of-battle-ship, contrary to the usual rule in the English language, by which all ships are feminine. It arose in the following manner: Men of war were heavy, armed soldiers. A ship full of them was called a 'man-of-war ship'. In process of time the word 'ship' was discarded as unnecessary, and there remained the phrase 'a man-of-war.'

A curious and at the same time a most practical invention is an adjustable bed, which can be lengthened or shortened at will. Many an extraordinarily tall person will welcome this bed, for in traveling they must often sleep crosswise. The side rails telescope and carry a cog mechanism, by which the foot board can be pushed out to give the required length. The cogwheels are turned by means of a chain gearing operated by a crank. The mattress and springs are arranged in adjustable sections.

It is a long step from the absurd and vulgar dissipations of the table to the perfection of the delicate art of dining as it's now practiced by lovers of nice eating. Thus, what diner today would be guilty of studying how to perfect it, and yet the ancient gourmands failed to realize that this is the first rudiment of the art of eating. **INTERESTING LETTER**

**WRITTEN BY A NOTABLE WOMAN**  
Mrs. Sarah Kellogg of Denver, Color. Bearer of the woman's suffrage banner. Sends thanks to Mrs. Pinkham.

The following letter is written by Mrs. Kellogg of 1028 Lincoln Avenue, Denver, Colo., to Mrs. Pinkham, Lynn, Mass.

Dear Mrs. Pinkham: For five years I was troubled with a tumor which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work and life became a bore to me. I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, but to my great surprise I found relief, but to my great surprise I found relief, but to my great surprise I found relief.

The compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and my appetite, my courage and all hope.

When women are troubled with irregular or painful periods, weakness, dizziness, or constipation, or if they are suffering from headache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, at once.

No other medicine in the world has received such widespread and unqualified commendation. No other medicine has such a record of cures of female trouble.

Mrs. Pinkham invites all the sufferers to write her for advice. She will give you in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her success has been advising sick women free of charge. She has guided thousands to health. Address, Lynn, Mass.

Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

**A Judge's Story.**  
Sir John Bridge, the well-known London magistrate, was fond of telling his friends of a curious letter he received not long before his retirement from Bow-street. It ran—"Sir, I am sorry to occupy your time, but I feel I must write to thank you for having looked up my wife for six months. My wife had often come before the court for drunkenness, and after being fined she was worse. You were kind enough to give her six months, and she came back to me as a reclined woman, and is now the best wife in England." This letter was all the more valued by Sir John Bridge because he was ordinarily a lenient judge. He was apt to be severe in cases of brutality, but no magistrate was more inclined to be merciful to his offenders. Sir John was a kindly man, but he was more especially kind to women, more especially those who had been unfortunate enough to be arraigned before him on charges of drunkenness and furious driving. In the case of Jehu who would be summoned by too vigilant policemen for 'crawling' or such minor offences, he would temper justice with mercy; but it was a bad time for the imbibing caddy found drunk while in charge of a horse and cab. It was Sir John who showed the lead to other London magistrates to make it a custom in these cases, when there were previous convictions, to send the defaulter to prison without the option of a fine. 'A drunken man in charge of a horse and cab in the public street,' he once said, 'is a source of the greatest danger to the public. The public must be protected, and I will use my best endeavors to see that they are.'

**Anti-Cigarette Convention.**  
The New England campaign against the cigarette evil was launched on Saturday, March 25, at Faneuil Hall, the old 'Cradle of Liberty.' About 800 boys besides many adults attended the first Annual Convention of the New England Branch of the World's and National Anti-Cigarette League. There was tremendous enthusiasm on the part of the boys.

The presiding officer was Ezekiel Buttersworth who has been elected President of the New England branch. The creator of the boys of the day was Hon. Chas. Bulkeley Hubbard, ex-President of the Board of Education of Greater New York. Mr. Hubbard inaugurated the first great anti-cigarette movement in the nation by personally going from school to school in New York appealing to the good sense, manliness and patriotism of New York schoolboys to abstain from smoking. Many thousands sang.

'The cigarette must go.  
The public school boys say so.'

The work spread to other parts of the nation. Boston among other cities invited Mr. Hubbard to speak on the league work and as a result of his visit in 1896 several schools organized leagues. The Phillips School has maintained an enthusiastic organization ever since and was represented 250 strong at the Convention to help welcome Mr. Hubbard.

The President of the Connecticut Mutual Life Insurance Company—one of the oldest in the country—has for years been investigating the relation of beer drinking to longevity; or otherwise, whether beer drinkers are desirable risks to a life insurance company.

He declared, as the result of a series of observations carried on among a selected group of persons who were habitual drinkers of beer, that although for two or three years there was nothing remarkable, yet presently death began to strike, and then the mortality became astounding and uniform in its manifestations. There was no mistaking it; the history was almost invariably robust, apparent health, full muscles, a fair outside, increasing weight, florid face; then a touch of cold or a sniff of malaria, and instantly some acute disease, with almost invariable typhoid symptoms, was in violent action, and ten days or less ended it. It was as if the system had been kept fair on the outside, while within it was eaten to a shell, and at the first touch of disease there was utter collapse, every fiber was poisoned and weak.

'I was informed by a London sanitary inspector this month (October, 1904), that he had never served an overweighing notice except on drinking tenants, and had never issued a notice to abate dirt or nuisance to a teetotaler.'—John Burns, M.P., L.C.C.

Out of every 100 patients whom I have charged at the London Hospital, 70 per cent of them directly owe their ill-health to alcohol—to the abuse. I do not say that these 70 per cent were drunkards, but to the excessive use.—Sir Andrew Clark.
