BRITISH EXPORTS TO UNITED STATES

British Trade With U. S. Falls Off While Canada's Increases.

(Special Cable to The Daily Gleaner.) London, Nov. 1.—During the twelve months ending June 30 last, according to the London Times Trade and Engineering Supplement, the United States imported goods from the Dominion of Canada to the value of \$23,500,000 and from the United States to the value of \$24,000,000.

The time factor revealed by the study of the foreign trade returns of the United States, and states that during the five years before the war British exports to the United States averaged \$25,000,000 in value annually; the next important source of supply for the United States being Germany with \$25,100,000 worth of merchandise, then France with \$26,000,000; Cuba was fourth and Canada fifth. The market for British goods found in the United States covered a very wide variety of manufactures, mostly of high grade character, and therefore entailing the employment of a large amount of labor. Now, however, says the Times, Canada has taken the place of the mother country as the principal exporter to the United States. The reasons given why the Dominion has so greatly increased her sales to her southern neighbors are the circumstances that American capital investment in Canadian industry, and that the American demand for newspaper and pulp is very heavy, and it is commented upon as noteworthy also that a fairly wide range of manufactured goods helps to swell the total. The extent of Great Britain's loss is shown by the fact that her percentage of the value of total imports of the United States during the twelve months ended June last fell to 9.6, compared with 11.6 during the preceding twelve months; whereas Canada's percentage rose from 10.9 to 11.7.

Canada's trade position in relation to the United States and Great Britain is shown greatly to have improved during the past three years. In 1921 the Dominion was a debtor to the United States after settling her trade balance with Great Britain, of which country Canada was a creditor, to the amount of \$28,628,000; whereas as the triangular settlement for the past year leaves Canada a net creditor of Great Britain for \$16,116,000. This is brought about by the fact that Canada has greatly increased her exports to Great Britain, while imports from the United States to Canada have been reduced to a much greater extent than imports from Canada to the United States.

The other hens in the contest laid less than 1,800 and their record and owners' names are as follows: A. T. Reid, Rollingdam, 1,757; C. M. Peart, Lewisville, and N. W. Eveleigh, Sussex, 1,727; Wm. Mitchell, Doaktown, 1,707; A. C. Stevens, Hoyt, 1,666; Eugene Monahan, 1,668; Walter G. Allison, Rothsay, 1,622; Experimental Station pens, Charlottetown, 1,586; Experimental Station, Fredericton, 1,573; Mrs. F. McAlpine, Upper Hampstead, 1,515; Norton Valley Poultry Farms, 1,493; Newton Jarvis, North Devon, 1,419; Mt. Pleasant Poultry Yards, 1,395; Donald Merser, of Russborough, 1,297; Experimental Station, Fredericton, 1,223.

EMPRESS OF FRANCE MADE QUICK TRIP

Landed Passengers at Quebec in Little Over Five Days From Southampton.

(Special Despatch to The Daily Gleaner.) Quebec, Nov. 1.—Five days, three and a half hours, was the time made by the Canadian Pacific liner Empress of France, which docked here last evening on her last trip of the season to this port. Captain H. Griffiths, R. N. R., her commander, stated that the voyage had been a splendid one in every respect. The steamer sailed from Southampton at 1 o'clock on October 25th and at 5:30 o'clock last evening the passenger gangway had been placed on the liner, making it possible for Montreal passengers to arrive in that city 11:30 in the evening and those bound for Toronto to reach their destination at 9 o'clock this morning.

To secure this rapid service on landing, two special C. P. R. trains left with the saloon passengers at 7 and 7:15 p. m. for Montreal and Toronto and Chicago respectively, travellers for the latter city being due to arrive there at 9:05 this evening. This amounts to practically the same rapid service from the port of Quebec as that enjoyed by passengers arriving at New York.

Among the saloon passengers going to the American city was Mr. Samuel Issell, President of the Commonwealth Edison Company of Chicago, who came by the St. Lawrence route, fully convinced that he could reach Chicago ahead of a party of American friends who chose to return home via New York. As a result of the fast voyage of the Empress of France it is very improbable that he will be disappointed.

Dr. Mary D. Hussey, physician, residing at East Orange, N. J., finally yielded to the march of progress and retired the bicycle on which, for 25 years, she paid her professional visits.

Parker O'Donnell, of Livermore Falls, Maine, a native of Woodstock, is the guest of C. D. Johnston. Miss Muriel Merriman will leave next week to spend her holidays with friends in Montreal.

Mr. and Mrs. H. C. Churchill, of Yarmouth, N. S., and Mr. and Mrs. N. A. Madon, of Halifax, N. S., recently called on Mr. and Mrs. Herbert M. Jones, South Newbridge, on a motor trip to Montreal and Boston via Edmundston, N. B.

Mr. and Mrs. Smith Grant, of Waterville, Maine, who have been on a trip through New England States, were accompanied back by Mrs. Mary Holmes from Providence, R. I. Supt. Gilliland, of the C. P. R., returned this week from a business trip to Boston.

Hope and patience are two sovereign remedies for all—the surest reposit, the softest cushions to lean on in adversity.
