FIRST VENTURE WAS VERY SUCCESSFUL

Concert Programme Broadcast by C. N. R. A., of Moncton.

On Tuesday evening the excellent concert programme broadcast by C. N. R. A., Moncton, from the Pythian Castle, Saint John, was sent by telephone to Moncton, where it was given out over the air at the sending station and was heard to perfection in Nova Scotia and New Brunswick centres.

The venture was so successful that it is likely that St. John will figure frequently as a broadcasting centre in the future.

George A. Wright, broadcasting manager for CNRA, conducted the concert and Gordon Olive, of the radio department of the C. N. R., was the operator. Dr. P. L. Bonnell, baritone, was directing the programme and was one of the performers. Others taking part were Josephine and Nellie Lynch, Misses C. Lewis, Blenda Thompson, Mrs. M. A. Quinn, Mrs. L. M. Curren, Mrs. F. G. Spencer, J. M. Barnes, and William MacGowan. In the early part of the evening local radio fans were unable to get the concert.

The Doctor Knows

Doctors who know Minard's by the work it does are unhesitating in their praise of its healing and soothing qualities.

Dr. J. M. Aug. Sirois, of St. Idore, Que., writes:—
"I have frequently used Minard's Liniment and also prescribe it for my patients always with the most gratifying results, and I consider it the best all-round Liniment."
C. A. King, M.D., also recommends Minard's in the following words:—
"I have used Minard's Liniment myself as well as prescribed it in my practice when a Liniment was required, and have never failed to get the desired effect."

Good Roads Mean Cash Dividends

It has been stated that American motorists cash in a yearly dividend of ten per cent on the capital invested in the improved highways of the country.

This dividend actually goes into the pockets of the motorists and represents the difference between the cost of motor vehicle operation over unimproved and improved highways.

A recent survey made in Kentucky shows that there is on the average a saving of two and a half cents a mile in the cost of operation over improved roads and highways. It has been estimated many times that the average car runs approximately 6,000 miles a year. A saving of two and a half cents a mile for 6,000 miles amounts to 150 a year. For seventeen million automobiles, this means a saving of \$2,500,000,000 a year on gasoline, tires, parts, upkeep, renewals and all phases of operation.

Improved roads in New Brunswick also mean much to local motorists and in addition to the saving resulting are of a direct benefit to the province on account of the increased tourist traffic.

The study made by the Iowa States College, the Iowa Highways Commission and the Bureau of Public Roads showed that the gasoline consumed on a paved road was only approximately one-half the gasoline consumed on a dirt road per unit of traffic.

While there are very few sections of paved roads in the province, nearly all roads have been greatly improved in the past few years and undoubtedly the saving to motorists has already amounted to a considerable sum.

No Changes Pending Among Leading Officials Wire Beatty to B. C.

VANCOUVER, April 9—In view of persistent reports circulated through out Canada that important changes were pending in the personnel of leading officials of the Canadian Pacific Railway, the Province today wired Mr. E. W. Beatty, president, asking for confirmation or denial. His reply was as follows:

"The rumors of changes among the company's high officials as reported are entirely without foundation. None are in contemplation. You are at liberty to publish an emphatic denial."

Here and There

"Canada has a fine record of musical and artistic students who work under the auspices of the Royal College of Music," says Sir Hugh Allen, director of the London institution, who is making a tour of Canada in the interests of the College.

Canada exported 143,592,500 pounds of woodpulp during February, of which 133,891,000 went to the United States and to Great Britain, none. Our newsprint exports had a monetary value, in the same month of about seven and a half million dollars.

Two hundred and sixty thousand acres of land in central and northern Alberta will be settled by the British Land Settlement Corporation, it is announced. They are located north of Edmonton and from north of Vermilion to Wabunan, west of Edmonton.

Approximately 750,000 tourists, apart from delegates to conventions, visited Montreal last year by railway, steamer and automobile, according to an estimate compiled by the Montreal Tourist and Convention Bureau. It is anticipated that the influx for the current year will be even greater.

Geraldine Farrar, famous prima donna, who gave a recital of Carmen in Ottawa and Montreal recently, had a run in with the U.S. Customs at the border on her return to the United States. It was claimed that champagne and fine wines were found stored in the piano of her sumptuous private car, but the great singer says it was only near-beer.

England's great military spectacle, the Aldershot Military Searchlight and Torchlight Tattoo, which is held annually in aid of the Aldershot Command Charities, is being presented this year from the 16th to the 20th of June and will, as usual, be contemporaneous with Ascot Week. The special feature is to be a Pageant of Battle which will recall some of the famous engagements of the British Army. Nearly 100,000 patrons attended last year.

To enable French-Canadian students to become acquainted with Western Canada, the Universite de Montreal has organized a 28-day trip to the coast from Montreal next July. They will pass through Winnipeg, Regina, Moose Jaw, Calgary, Edmonton, Banff, Vancouver and Victoria, with stop-overs at Lake Louise, Field, Glacier, the Fraser Canyon and other beauty spots of the Canadian Rockies.

Student tours, operated by the Canadian Pacific in conjunction with McGill University, are to be extended this summer to include students from the British Isles. Heretofore, these tours have been restricted to scholars in other parts of Canada and in the United States. As Montreal is regarded as an ideal centre for the study of the French language, it is anticipated that the new project will attract many visitors to the Canadian metropolis.

The body of Dr. Sun Yat Sen, President of Southern China lay in state in a wonderful blue-tiled old Temple near the "Altar of Heaven," during the long drawn out ceremonies at Peking attendant upon his interment. Through the courtesy of the government the bier was viewed by a large party of Canadians and Americans touring the world on the Canadian Pacific S.S. "Empress of France." They were also invited to attend the final burial rites which, with a wealth of colorful Chinese ceremony took place later in the Western hills.
