In one town 15 houses were seriously and 20 slightly damaged. In other places in which bombs were fropped the damage was insignificant. There was no military damage of im-

pelins being attacked by aircraft guns as well as airplanes, they were unable to do much damage. Lights were turned off in all towns and districts affected as soon as reports of the approach of the airships were announced. The commanders of the Zeppelins apparently had difficulty in locating themselves. A number of bombs were dropped. Although no reports of damage to any towns have been received thus far, one Zeppelin discharged a cargo of explosives on Yorkshire and Durham. She was attacked by a single airplane and fell in flames off the Durham coast. We are selling our South American securities, and if Americans really want peace and do not object to having Germany for a neighbour, why should England intervene? Any time in the last ten years we could have had an agreement with Germany by allowing her a free hand across the Atlantic. Britain stands between Germany and America like the counterscap of a fortress. If Americans induce us to make peace before this

FUNERAL OF SIR HIRAM MAXIM.

Marked by most extreme simplicity, in accordance with the late inventor's wishes, the funeral services over the body of Sir Hiram Maxim, who died on Nov. 24th, were held at noon today. There were no flowers or crepe, and no official representatives from the numberless societies and organizations of which Sir Hiram was a member were present. The coffin was made of plain oak and carried to West Norwood Cemetery Chapel in an automobile. F. J. Gould, head of a group of free thinkers, called the Religion of Humanity, conducted the service.

Pain is a blessing in disguise.

It is Nature's danger signal to warn you that there is something wrong in the system.

While headache may result from a variety of causes, it most frequently denotes a starved condition of the nerves.

The brain is the headquarters or "central" of the dervous system. Here nerve force is consumed at an enormous rate. If there is any lack of rich, red blood from hich to form new nervous energy the brain is first to feel it and the head ches.

Head hes may be stopped by powerful drugs, lat that is like breaking the semaphore which warns the engineer of danger.

e only wise way is to increase the amount of ich, red blood in the human body by using 7. Chase's Nerve Food, and thereby feed the tarved nerves back to health and vigor.

Not only will the headaches disappear, but you will sleep well, feel well and gradually regain strength and confidence. The Nerve Food will sharpen the appetite, improve digestion and build up the whole system.

In this way the headache will prove a blessing. It has warned you of approaching nervous collapse while yet there is a foundation on which to build good health.
