New Scotch Cured Herring.

While it is known that certain re eivers of Newfoundland fall caught cotch cured herring sold their goods this market as low as \$21, there pears to be no indication on the art of importers to reduce the openng prices made with the arrival of he s.s. Florizel, which brought the st cargo of this herring from 3t. ohn's a fortnight ago. On the conrary, the tendency seems to be to old for high prices, and many imorters predict that the market will continue firm at \$28 when the next hipment shall have arrived. The denand for this grade of herring is probably stronger at this time than ver before, and the market is practically as volunteers, and are either included in the military age.

A careful inspection was made of the work now being carried out in the felling and conversion of the famous were before, and the market is practically as felling and conversion of the famous woods of Atholi Estate at Craiguibefore, and the market is pracally bare. The consumption deand was never more active, and the ger stocks which were distributade last week in St. John's at \$21 o.b. there, and it is known that curare not inclined to sell at much bethese prices at present. In view this condition it hardly seems logthat merchants here would sell

prices when it is impossible to replace their stocks at less than the Bay De Verde prices now ruling in Newfoundland. The quality of the herring from Newfoundland this year is generally excellent. Most packages received in the first shipment were mild cured and well packed. It was noted, however, that there were a few dry herring in the lot and a few poorly packod barrels. In spite of this there was no complaint from buyers. The enbing hands and there is still evidence of an eager desire on the part of buyers to secure stocks. Sales of herring to arrive on the next steamer at

MOVED TO WINCHESTER.

The Acting Minister of Militia has received communications from Baron Morris dealing with the removal of ten when Baron Morris was Prime Minister of Newfoundland, in which

ly situated at the Race Course, Ayr, ater the Race Course was taken over by the R. F. C. and the Battalion was from a grateful and a loyal and a billeted where available at Ayr. The riotic country the magnificent sum result was that it was very much scatriotic country the magnificent to the right of tered, and the valuable training forty cents a day? Just think of ground which was afforded by the Race Course, could not be replaced. It was represented to the War Office aval Reservist was promised a stand-by the Prime Minister that the train-ing of the battalion would suffer, that

> talion so split up.
>
> As a result the War Office decided to move the battalion to Winchester. At Winchester they will be nearer the

on H. M. S. Briton to have given to the training and new interest this miserable dole. displayed by all ranks in their new quarters. The reputation of the battalion has been said to be high as rend, we have done and are doing gards training and discipline and un-"bit" and are ready to do it der a new command, it is felt that all but sir, we must be treated ranks will be anxious to demonstrate that the Newfoundland Regiment is really the fine Regiment it is said to be.

Obituary.

There passed peacefully away at 11 of the ship of state.

Bay de Verde will do its duty and snow Crosbie under an avalanche of Placentia, who died at the residence an illness of twelve weeks. Decease operators in the country, was well and widely known and was for many years attached to the Anglo-American staff Heart's Content. Deceased was 61 es, but we did our duty by our try. Let that grateful country do its duty by us and treat us with the D. I. S. Co., in Sydney, and the D. I. S. Co three brothers, Edward, William and Peter, in the city. The remains were enclosed in a handsome casket and centia by the same train.

EXTRACT FROM TIMBER AND WOOD-WORKING MACHINERY,

DECEMBER 23, 1917. On Friday, December 14th, the Right Sir Edward Morris, P. C., K. C. M. G., remier of Newfoundland, accompan-

The corps at present consists of be-tween 300 and 400 men, all of whom have been recruited in Newfoundland as volunteers, and are either medical-

nean, and great admiration was felt for the manner in which these opera-

tions are being carried out.

An interesting feature in the operations is the Timber Chute being 3,200 feet in length, following the contour offer them below the opening prices view of the advancing market in wfoundland. It is reported that es of Scotch pack herring were delast week in St. John's at \$21 referred to, and the manner in which the card tournament refreshments were served after which dancing was commenced and at 1 a.m. the party disbanded. The music was furnished by Messrs. Bailey and Miskell.

referred to, and the manner in which the men are handling the mill, prove the efficiency of the corps.

The corps has been organized, through the untiring energy of Mr. Mayson M. Beeton, who is perhaps more widely known in Newfoundland as originator and first President of Anglo-Nfid. Development Company, of which Lord Northcliffe and Lord Rothermere were co-directors.

Rothermere were co-directors.

The corps has received the warmes The corps has received the warmest welcome, and wish to acknowledge it freely, not only from the Duke of Atholl but from the numerous residents, who have gone out of their way to help the men with their recreations, hospital requirements, etc., and emphasis has been given to this good feeling by the kind monetary gift from the President and members of the North of Scotland Home Timber Merchants' Association to enable the men chants' Association to enable the men in the corps from our far-off colony to enjoy their Chrismas in the Old

Editor Evening Telegram.

Who never to himself has said: This is my own, my native land." I consider the above quotation applicable to the present grave crisis that has arisen in this unfortunate most casual observer that it is about

the etrxeme peril that menaces our Island Home.

Now that the mask of hypocrisy has been torn from the face of Morris and he stands revealed to an outraged and impotent people, it is no wonder that public indignation is aroused and people are beginning to realize the seriousness of the situation.

The title that has been given Morris has cost this country a tremendous price in blood and treasure.

price in blood and treasure.

The terrible, gnawing, itch disappears with the first few drops of that mild antiseptic wash— the D. D. D. Prescription for skin diseases. This new discovery, a soothing, healing lotion, kills and washes away disease germs. D. D. D. gives instant relief and permanent cure for all skin troubles.

Was fixed over 300 feet from the ground. He then climbed out on the plane and held the pilot until the arrival of Knoulton and Abbott, who passed the masthead gantline out to him.

Having secured the pilot with the gantline, Rath, with the assistance of

Connors. Peter O'Mara.

What Aunt Margaret Learned

"HOW do you like my bread, Aunt Margaret?"
"Splendid," answered she whose many years of experience qualify her to render expert judg-

"What are the qualities by which good bread is judged, Aunt Margaret?"

"Flavor, silky and even crumb, good brown crust

and whiteness of crumb, large shapely loaves, and of course, the amount of nourishment. I must say your bread meets this standard just splendidly! We couldn't bake bread like that when I was a girl. How in the world do you accomplish it?"

"When you were as young as I, Aunt Margaret, there wasn't any

Cream & West Flour

The hard wheat flour that is guaranteed for bread

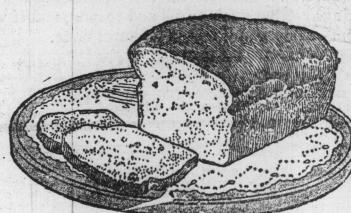

"Test why do you mention this particular flour, my dear?" "Eccarse Cream of the West is made specially for good bread from Western Canada hard wheat. This wheat has

more gluten than other wheats. And gluten is very nourishing. That is why my bread goes so far." "And you get such fine big loaves," remarked Aunt

The extra gluten in Cream of the West flour accounts for that, too. You see, gluten is a very elastic substance. It imprisons the little bubbles of gas created by the yeast and thus enables the bread to rise until it bulges away up out of the pans."

"But how do you manage to get such good bread ALWAYS?"

Because Cream of the West is ALWAYS of uniform strength. The Campbell Flour Mills Company have an up-to-date scientific laboratory at their mills for testing wheat, The same class of wheat will naturally vary in strength in different localities at different times. A trained expert at the Cambell mills finds out exactly what is IN the wheat before it is used for Cream of the West flour. Then it is easy to maintain the high standard of quality, always the same always dependable.

"The Sweetest Bread We Ever Had"

So writes a lady from Marshville, Ont. "Cream of the West is excellent flour and makes very white, light and wholesome bread" is the testimony of a Freeman, Ont., user, voicing the general opinior expressed in dezens of similar letters received.

The Campbell Flour Mills Co., Limited, West Toronto

Dealers can procure Campbell's Flours from

BOWRING BROS., LTD., St. John's, Nild., Wholesale Distributors for Newfoundland.
