The objective was to gain a clear frontal position commanding the Hindenburg line; along the whole face of attack this was practically accomplished. said the enemy was beaten on the battle field and now sought to snatch victory by camouflage and undermine the foundations of the recent Allied victories by more subtle and cunning methods. They were all delighted to read the Right Hon. A. J. Balfour's speech. Mr. Balfour certainly spoke for the people of Australia. Never was a note more curt or more to the point than the reply of President Wilson. The enemy's peace bait had failed but the enemy would bait their hooks again cunningly, a thousand times more if necessary, but the only peace that would be permitted must be the peace dictated in Potsdam, perhaps, which would ensure that the military power of Germany was broken forever.

During the week just closed, there were exported from St. John's 12, 747 qtis. dry codfain. \$2,859 gallons cod oil, \$3,375 gallons codiiver oil, and 300 cases lobsters.
