REMARKABLE SPRING SHOWING.

T IS KEEPING very strictly within the facts to say that the stock of Carpets, Rugs and other Floor Coverings that we are showing for the present season's trade has never been equaled before in our long business history of practically half a century. We never bought in such quantities, never have shown so many beautiful and exclusive designs, and never have so many special purchases come the way of our buyers.

When we put the statement in this plain, matter of fact, but strictly correct way-then, it means that no parallel to such an exhibit has ever before been made in Canada, for it is known that this store carries a stock of Floor Coverings that has always surpassed anything shown in the trade in this

It is hardly necessary that we should emphasize any particular line, for everything has been well bought; and, yet, special attention may be directed to the item of 30,000 yards of Axminster and Brussels that appears first on our list. This is an unusual purchase in size and undoubtedly unusual in price. You never saw Brussels or Axminster Carpets, value for value, that

Shoppers who have already visited the store are simply amazed at the quantity of Oriental Rugs that we are showing-a purchase of over 1,000 Rugs, comprising the best of Eastern Rugs, and all at very astonishing prices.

Some of the particulars of Carpets and Rugs follow. These goods are found on the First Floor as you enter the store:
