SHE BLEW HIM UP.

The Paris police are occupied in the investigation of a curious case.

The wife of an engineer was irritated by the drunken habits of her husband. When intoxicated he beat her, but she reached the limit of patience the other day and determined to inflict a lesson.

When he arrived home about 2 in the morning in the usual state she conducted him into the worshop, flung him face downward, fastened him securely, and, taking the bellows from the forge, proceeded to blow him up. The pain he suffered brought him to his senses, and his cries summoned the neighbors, who released him, seriously ill with peritonitis. His wife was arrested. IN CHINA - REMOVAL OF THE
