The old station which has done service for the Grand Trunk for half a century, and which, it is said, may in the near future be supplanted by a larger and modern building to be used by all the roads entering London.

LION BREAKS UP AUCTION SALE

Threat to Turn Him Loose Put an End to Quarrel With Bidders.

Moscow, Nov. 6.—Highly diverting were the proceedings at the sale by auction of the Moscow Zoo, which had for some time past been run at a loss by a private company, till at last one of the creditors lost patience and appealed to the law. In due time an execution was put in on the effects of the Zoo, and a public sale advertised.

Bidding for the elephant, lions, tigers, bears, ostriches, etc., proved very slack. There was a good attendance, but none of the would-be purchasers were in the managerial business.

The elephant, worth £2,000, fetched £50, the lion £20, and so on. A few other animals were sold at equally ridiculous prices, and the amount of the execution was satisfied. At this time the management appeared to have become aware of what was happening, and appeared on the scene, declaring the auction to be invalid, and directing the money to be returned to the buyers. A scene of great tumult followed, in which the purchaser of the African lion took a leading part.

For a few minutes it looked as if there would be a free fight between the two parties. Happily one of the auctioneers got a hearing, and delivered his judgment worthy of Solomon.

"Gentlemen," he said, turning to the bidders, "you are quite right in refusing to take your money back. What you have bought is rightfully yours. Will the gentleman to whom I knocked down the African lion kindly step forward?" The beast is yours, sir.

"By the way, I may tell you that he has eaten nothing for three days. The company had no money to buy food. Attend, upon the lion's cage and let the gentleman take his property away."

The last words caused the gathering to scatter, and soon afterwards the bidders agreed to accept the bargain. It is expected that the city of Moscow will now take over the Zoo.

U. S. ONE CONTINENT

North America To Be Ruled by Yankees Before 1940.

Chicago, Nov. 7.—"Before 1940 the Continent of North America and the Republic of the United States will be one and the same thing."

This prophecy was made by Professor Francis W. Shephardson, of the University of Chicago, in a lecture to his class in American history.

"Before 1910," said Prof. Shephardson, "Panama will belong to the United States. And if we get Panama we shall get Guatemala, and then Nicaragua, and Costa Rica, and the other little states. And if we get them we shall get the West Indies. It is not probable that we shall take Mexico. Then would Henry Clay's dream be realized."

"Let me just make this prophecy, and you watch to see if it is not fulfilled. Before 1940 North America and the United States will be the same thing. Canada will come to us through voluntary secession from Great Britain."

OPEN WEATHER RESTRICTS TRADE

But an Exceptionally Good Winter Is Expected.

COLLECTIONS REPORTED FAIR

London Houses Look for Marked Improvement As Soon As Cold Weather Sets In.

Toronto, Nov. 7.—Bradstreet's weekly review of Canadian trade says: Wholesale trade at Montreal has been moderately active this week. The approaching close of navigation has stimulated the demand for shipment to certain water points, and that has created a little more activity. The drygoods trade is suffering from the mild summer-like temperature.

This season is now about closed after one of the most successful years in the history of the trade—certainly as far as the makers are concerned. The shipping interests are very busy. The general outlook for business for the balance of the year is encouraging.

In Toronto, there has been only a moderate movement, the trade being restricted by the very open weather which prevailed till Thursday. The demand for goods for shipment to water, to the interior still continues fairly active. Values of domestic manufactures are firmly held. There are no surplus stocks in the hands of makers, but there is less complaint now about slow deliveries of goods. This is especially true of steel and iron products. The heat is yours, sir.

"By the way, I may tell you that he has eaten nothing for three days. The company had no money to buy food. Attend, upon the lion's cage and let the gentleman take his property away."

The last words caused the gathering to scatter, and soon afterwards the bidders agreed to accept the bargain. It is expected that the city of Moscow will now take over the Zoo.
