WEEKLY REVIEW. The markets held here during the past six days were not very well attended, excepting on Saturday, which was the largest market since the holidays. There were no new features as the offerings were confined to the usual kind for this time of the year. Sales were brisk and higher in several lines, such as dressed hogs, butter and eggs.
Grain—Oats are about the only grain
offered, which sell well at 98% to 81 per
cwt; most of the sales are made at the latter figure

and Straw-There have been offered during the week 165 loads of hay; sales were moderately brisk, at \$8.50 per ton for most of the choice loads; inferior hay sells from \$7 to \$8 per ton. There has been more straw offered so far this week than the combined efferings of the past three weeks; sales are fairly brisk, at Butter and Eggs—Since prices have advanced the offerings of butter have in-creased; sales are brisk, at 22c to 24c for pound rolls and 19c to 22c for crocks. Eggs are firm, at 25c to 30c per dozen for fresh-laid stock. Apples—Sales are slow, at 40c per bag, or \$1 to \$1.25 per barrel for a good quality.

Potatoes—There are considerable offered; most of the sales were made at 70c

Poultry has been fairly well supplied. and there is a good demand; turkeys are higher in price at 15c to 16c per lb wholesale for nice hen turkeys; chickens bring 60c to 90c per pair, dressed, or 11c to 11½c southern per lb; alive, 8½c per lb, or 50c to 70c st. Paul... per pair; ducks, dressed, per pair, sec to \$1 25; geese, each, 90c to \$1 25.

Dressed Hogs—Prices are higher the past couple of days; sales are made at \$6 50 to \$7 25 per cwt, mostly at \$6 75. \$6.50 to \$7.25 per cwt, mostly at \$6.75.
Live Hogs—Price were advanced to \$5 U. S. Leather, pfd. 162 per cwt for selects for Monday; this is an advance of 40c per cwt over last Monday's prices; small pigs sell all the way

U. S. Steel. 20%
U. S. Steel, pfd. 944 day's prices; small pigs sell all the way from \$2 to \$450 per pair.

Butchers' Meats—There has not been as much offered as in the previous week; sales are a trifle brisker, at \$450 to \$6 per cwt for beef; \$6 to \$8 per mutton, and \$7 to \$750 for yeal; lamb is higher, at 10½c to 11c per lb by the carcase; pork sells at 8c per lb for forequarters and 9c for

straighten out. You do not get greatest value for Of his opponent, Mr. Rumball, the speaker said he had had several dif-ferences with him, but he hoped these your money unless you do use this powder. No powder can be purer-very few are as pure—and none of the powders so widely advertised can approach it either as to purity, were at an end. He referred to the time Mr. Rumball ran for hospital trustee, and also to Mr. Rumball's attitude on the extending of the L. and P. S. R. lease to the Walkers, but he can approach it either as to putity, strength or freshness. Regardless of price, Strong's Baking Powder is the best powder on the market. Buying it at 25 cents a pound, you receive just double the value that you get in any other good powder. made no comment on these matters. About Niagara Power.

In regard to Niagara power Mr. Beck said the three companies at the Falls are now negotiating to amalgamate, but The Advertiser will say that they cannot amalgamate. But why didn't the Government insert a clause, saying what price the companies shall charge for classificiate? Mr. Beck and the coming a little more freely into the market, and there has been further speculative buying. The market closes very strong, at slightly higher prices, with indications of a further upward movement. There is a great scarcity of underpriced cheese. We quote today: Finest Canadian, fall makes, white, 53s to 54s per cwt; do, colored, 52s to 53s; do, earlier makes, white and colored, 49s to 51s; medium grades, not quite full cream, meaty, States, 44s to 47s; low grades, scarce, nominally 32s to 42s.

Butter—The market has been quiet, and quotations are slightly reduced. There has been some pressure to sell Australian for electricity? Mr. Beck then read the clause of the act which states that the companies cannot amalgamate, and that they must not charge Canadians more for power than they charge Amercans. He sald, however, that the companies were now charging the American people a price greater than the commercial value of electricity. Government had not properly protected the people, he said. The day, however,

was coming when the people would own the public utilities. Mr. Beck referred to his record in the Local House, and save his reasons for opposing some of the "wildcat schemes" of the Ontario Government. The James Bay Railway had been subsidized by the Dominion Government to the extent of \$6,100 a mile, nearly half as much as the cost of construction. Yet the promoters came Legislature afterwards and asked that the bonds of the road should be guaranteed to the extent of \$20,000 a mile, and this in the face of the fact that Mr. Hendry, the member for Hamilton, made the statement that

the cost of construction would not exceed \$15,000 a mile.

The Grand Trunk Pacific measure was termed "abominable" by Mr. Beck, who next dealt with the Soo indus-"Would the Government do anything to save local industries?" he asked. "No; yet the Government made a big loan to the Sco industries, backed by Americans, to save the widows and orphans." The \$2,000,000, he said, did not reach the people for whom it was intended, but benefited capitalists in Philadelphia and New York. Mr. Beck said he also opposed the right of Messrs. Conmee and George Rowntree bought 50 cattle for the Harris Abattoir Company, paying up to 4½c for picked butchers, and as low as \$2 15 per cwt for common grades, and \$2 40 to \$2 75 per cwt for cows.

It was against the traditions of the Liberal party, which has all along upheld the sanctity of the ballot, and it would few constituencies things had been done to bring the blush of shame to the Liberal party, it was only a few years since upder Consequenting and belief since under Conservative rule ballot stuffing and switching were carried on from end to end of the country, and it atives a dose of their own medicine.
The ballot-stuffing originated with the Conservative party, declared Mr. Rumball, and it was only in a few con-stituencies in Ontario that such had been practiced. So far as the Liberals were concerned, did anyone believe that the moral standing of Mr. Ross was not better than Mr. Whitney's? What did the electors think of a man like Ga-

fessions. Admitting Gamey's story to be true, the people had the Conservatives making a hero of him-an informr-who should not have the respect of er—who should not have the respect of any decent man.

Had the people ever heard of the Conservatives denouncing their own friends for corruption? No. The Conservatives made heroes of those who did the corrupt acts. Messrs. Ross, Hardy and Mowat had given good government in Ontario and had done much for the country. The administration of affairs had been properly conducted, and in athad been properly conducted, and in attacking the only thing the Conservatives could was to sling mud and cry "Corruption!" The Government's platform was one of progress, of advanced legislation in regard to education, Durity of elections agreement and term legislation in regard to education, purity of elections, assessment and taxation and temperance. The Reform party was pledged to a progressive temperance

A Glean Election. Regarding a clean ballot, Mr. Rumball said that as far as the Liberals were concerned, they had a good record, and he instanced the last Dominion election, when, with 9,000 ballots cast, few were spoiled and the Conservatives were compelled to admit that the contest was clean. Mr. Rumball referred to Mr. Beck's mayorally career, and said that during that time any man that was not a machine politician could not get an a machine politician could not get an appointment in the city service. He (Mr. Rumball) was also surprised at Mr. Beck's admission about the auditing of accounts at Toronto, for there was committee of the Legislature whose du it was to investigate accounts and show how the money was expended. A Voice—What about the Soo?

Mr. Rumball's reply to this question was that it was wiser for the Government to help the Soo industries and give work to the thousands of workingmen who had been thrown on the street through the Soo failure, than to leave them walking about idle. And as a result of what the Ontario Government had done, it was now possible to evidence to the effect that plaintiff buy in Canada first-class steel rails made in Canada by Canadian work- and that the responsibility for his inmen. Mr. Beck had said that he would not and as he did so cheers were given. be accorded fair play in the election. but Mr. Rumball said that Mr. Beck was wrong. Mr. Beck and his friends will be given the benefit of a clean ballot and a fair election. If he were elected, and he found that he had been elected by unfair means, he would resign his seat.
