

TWO CANDIDATES FOR PRESIDENCY

Liberal Club Elections To Be Held on Friday and Saturday Evenings.

The following is the list of candidates whose names will appear on the Liberal Club ballots, and who will be voted on Friday and Saturday nights, from 7:30 to 10:30 by all members of the club. Membership tickets have been selling very rapidly, and the vote is sure to be heavy:

The Candidates.

For president—Arthur Beal, Arthur Sipp.
Vice-President—McKinley Millman, A. T. Black.
Secretary—Treasurer—Dr. Claude Brown, Chester Butler.

Executive Committee.

No. 1 ward—Dr. Geo. Fraser, Frank Smyth.
No. 2 ward—Frank Jones, Perry Bradwin, Frank Miller, James McCormick, Ed Graves.
No. 3 ward—Charles Allen, John (Vic.) Brock, Alex. Purdon, Jun., Wm. Wheatcroft, Claude Nopper, Charles O. Smith.
No. 4 ward—Len Smith, Geo. Bennett, Wood Leonard, Fred Lind, Ed Nelles, Fred Floyd, Percy Stone.
No. 5 ward—Wm. Gray, L. H. Martyn, J. G. Arthur, Charles Morehead, Jun.
No. 6 ward—Frank Millson, Thomas Gerry, Charles Ferguson, James Shaw.

EXPERT REPORT IS APPROVED OF

(Continued from Page One.)

Engineer Moore's work on the commission has been so satisfactory that the opinion of an expert from the outside is needed to reassure the people.

This year the city is supplying about 3,000 more people with water than a year ago. About 600 new services were put in last year, and averaging each family at five persons, it is seen that 3,000 additional people is a moderate estimate. Consequently, it looks as though there will be no water for street purposes in any part of the city, unless it happens that some of the moves made by the commission last night to increase the supply at once meet with success.

AGRICULTURISTS MEET

Annual Meeting of the East Middlesex Society—Allan Bogue President.

The annual meeting of the East Middlesex Agricultural Society was held at the courthouse today, when officers for the coming year were elected.

Reports from the auditors and the treasurer were received and filed. The treasurer's report showed that \$423 had been received by the society from Government grants, and membership fees, while salaries, printing and other expenses amounted to \$121 25, leaving a balance of \$301 65, which was turned over to the treasurer of the Western Fair Association.

The following officers were elected for the coming year:

President—Allan Bogue, Westminster.
First Vice-President—T. H. Shore, Westminster.
Second Vice-President—Wm. Moore, West London.
Secretary—C. Treblecock.
Treasurer—Richard Oke.
Directors—
From London Township—W. H. K. Talbot, C. Treblecock, E. Douglas.
From Nissour—George Scatcherd, A. McMartin.
From Westminster—James Murray.
From Dorchester—J. Crockett, H. Jackson.
Auditors—H. Tozer and F. Elliott.
Directors for Western Fair—Messrs. Bogue, Shore, Moore, Scatcherd, Oke and Treblecock.
Representatives to Western Fair—W. H. Talbot, J. Crockett and E. Douglas.

PRISON FOR THIS CHAP

Howard Smith, Who Has a Hatred for Work, Sent to the Central.

Charles Gray appeared before Magistrate Love this morning, charged with assaulting Hugh Horner. The case was adjourned until Monday.

It is alleged that Gray attacked Horner on York street one evening recently, kicking him several times, and inflicting injuries which required the services of a doctor, and caused the complainant to lose several days' work. Howard Smith is a powerful colored man, apparently about 30 years of age, who claims to have come from Virginia, but who told the court that his last home was in the Central Prison. When first arrested it was thought Smith was insane, but this was found not to be the case. It was found that he simply would not work, and the magistrate considered that such a man was better behind the bars.

Three first-time drunks were allowed to go.

A NEW CATHOLIC CHURCH.

Paris, Jan. 15.—An attempt soon will be made to start a National French Catholic Church. Archbishop Villate, of Foz, has agreed to ordain clergy and bishops, who will be elected by parishioners.

The Latin dogma and ritual will be retained, but the authority and infallibility of the Pope denied.

Interest attaches to the question whether the French Government will support the movement.

ONTARIO FOLK IN RUINED CITY

Many Canadians Wintering in Jamaica, But No Fatalities Reported.

Toronto, Jan. 15.—When the news of the disaster at Kingston reached Toronto this afternoon great anxiety was displayed, for many Canadians are in Jamaica, and in Kingston spending the winter. The ticket agencies, which have dealings with the Jamaica excursion lines, were busy answering inquiries. The news received tonight is that they are all safe.

Many of the Canadians who are wintering in Jamaica left last November and December, with the intention of remaining until the spring. The following list of Toronto people who are at present in the island was obtained from the ticket agents for the lines running there:

Mr. and Mrs. S. F. McKinnon, Mrs. H. C. McLeod (wife of the manager of the Bank of Nova Scotia), and Misses F. Edith, Vivian and L. McLeod, Miss Isabelle Vanmater, Miss L. H. Birchell, Mr. and Mrs. F. W. Kale, Mr. I. R. Baker, Mr. C. S. S. Boone, Mr. R. A. Russell, Misses Isabelle, L. C. and M. B. Russell, Mr. William Russell, Lieut. G. Goinley, Mr. and Mrs. A. T. Blackwell, Misses Bella and Gladys Blackwell (Parkdale), Mr. G. M. Hunt, Mr. C. Conway, Mr. W. H. Parker and Miss M. Scott.

It was learned that Mr. and Mrs. S. F. McKinnon had gone to Port Antonio, having likely reached there before the earthquake.

Others who have sailed are: Mr. C. B. Taylor, manager of the Union Bank; Mr. J. A. Wales, of Markham, and Mr. Jos. Scott, of Blind River, Ont.

Mr. J. B. Bartram, of the legal firm of Pinkerton, Clute & Bartram, left some weeks ago for the island, and is said to have been married there a few days ago.

Two Toronto insurance men are located in the wrecked city, Mr. C. S. Brandon, agent for the Manufacturers' Life, and Mr. H. R. Tiley, for the Confederation.

NO LONDONERS IN EARTHQUAKE CITY

(Continued from Page One.)

Shillings and pence were used, and the papers were more English than the English themselves.

A Beautiful Island.

"When I was in Kingston," continued Mr. Wright, "the island of Jamaica reminded me of a huge greenhouse. Everywhere the fields and woods were teeming with green. The foliage and the plants were wonderful. I saw hundreds of plantations laden with coconuts on the trees and bananas in the fields."

"The people are not prosperous there, but they are contented. They can secure a living easily, and the clothing problem doesn't worry them."

"About two hundred years ago the old site of Kingston, then known as Port Royal, was swallowed up by the ocean, but the people never gave the prospect of another earthquake a thought. I never heard St. Pierre, Martinique, mentioned while I was on the island."

"During our visit, the temperature ranged between 80 and 95 degrees, but as the trade winds were blowing all the time, it did not feel the heat. In fact, the climate to me was delightful."

"Drunkness appears to be practically unknown there. Rum costs 6d a drink, and as the average workman drinks about 6d a day wages, if he buys a drink he cannot eat."

Residents of the city three weeks ago estimated the population of Kingston at between 55,000 and 60,000.

As far as known there are no Londoners in Jamaica at the present time.

HISTORY OF KINGSTON.

Picturesque City Has Suffered Much From Quake, Fire and Plague.

Kingston is a maritime city and the capital of the island of Jamaica. It is in the county of Surrey, on the south coast of the island, and a short distance from Spanish Town, the former capital. The population is between 45,000 and 50,000 people. It is situated on the steep slope of a branch of the Blue Mountains, and stands on a magnificent bay, defended by forts. It is built in the form of an amphitheater, with wide and regular streets. The houses, mostly of two stories, are built solidly of stone or brick, and painted green or white. The houses in the center of the city form blocks and squares, and in the principal streets are furnished with verandas below and above; those in the outskirts are detached and surrounded by delightful gardens. To the south of the city, on a narrow strip of land, is Port Royal, the naval station. The environs of Kingston possess many fine sugar plantations. The climate is hot, and in summer very unhealthy for Europeans. Kingston is an important commercial point. The chief exports are coffee, tobacco, dyewood, sugar and rum. Kingston was founded in 1693 after the destruction by earthquake of Port Royal. In 1782 Kingston was almost completely destroyed by fire, and in 1862 it also suffered greatly from a conflagration. Yellow fever has several times ravaged Kingston, and in 1850 one-eighth of the population was carried off by cholera.

LIFE FOR MANSLAUGHTER.

New York, Jan. 15.—Meles Raplace, a Russian, was today found guilty of manslaughter at Riverhead, L. I., and sentenced to life imprisonment. Raplace killed George Stillwell, of Wading River, several months ago, following his arrest as a vagrant. During the trial it was learned that Stillwell, who had been promised an appointment as deputy sheriff, arrested Raplace illegally, and used him roughly. Raplace freed himself on his way to a justice's office, and shot Stillwell fatally. An appeal will be taken.

CITY HALL VIEWS IT AS A BLUFF

Not at All Alarmed Over Reported Sinking of the Port Stanley Bridge.

A plate which forms a minor part of one of the spans of the London and Port Stanley Railway bridge over the Thames, just south of Trafalgar street, became loosened on Monday night, and the mishap gave rise to some very alarming rumors.

It was alleged that the bridge had sunk four inches and the company had sent for an expert to look over it.

Yesterday afternoon when spoken to regarding the matter, Supt. Tait declared that the bridge was all right, and that the loosening of the plate was not of a serious nature. A watchman was stationed at the bridge, whose duty it was to warn all trains to proceed slowly over the structure until it had been repaired.

It was stated that the watchman had been placed there because the wires between London and St. Thomas, which run down, and no word could be got over to warn the engineers to cross the bridge at a very slow rate while the men were working on it.

It was stated to The Advertiser today that the bridge has gone down on one side, and that it is in a dangerous condition.

This story, Mr. Tait denied absolutely.

"The wooden wedges which have been driven in are merely to keep the tracks level," he said. "These wedges can be seen all along the line. The bridge is all right."

Mr. Tait also stated that trains are now using the bridge as usual, and that the watchman was taken off yesterday morning just as soon as the wires were fixed.

Around the city hall there was a disposition to regard the trouble at the Port Stanley bridge as a sort of bluff to compel the city to erect new bridges. "If it is a bluff," said Mayor Judd today, "it certainly will not work. The bridges are all right for the traffic for which they were built."

So far the company has not made any representations to the city on the subject of the recent mishap to the bridge.

CODNENSED LOCAL NEWS

—Mr. Crabbe, of this city, is visiting his daughter, Mrs. T. W. Boughner, at Delhi.

—New St. James' Presbyterians hold their annual business meeting in the church tonight.

—Mr. D. W. Gibson has returned to Moose Jaw, Sask., after spending a few weeks with his parents, Mr. and Mrs. A. Gibson, St. James street.

—The following non-commissioned officers have entered Wolsey Barracks for a short course of instruction: Sergts. Lane, Lennox and Bennett, of the Thirtieth (Wellington) Rifles.

—Medical Health Officer Hutchinson stated today that the epidemic of measles is dying out in the public schools. He says the number of cases in the city now is comparatively small.

—The death occurred in Victoria Hospital today of Mrs. Clara Roberts, of 263 Horton street. The deceased had been ill for a long time with tuberculosis. Her husband died some time ago from the same disease.

Toronto Globe: Mrs. J. K. Kerr gave a charming dance last evening for her daughters and their young friends, when some 200 were present. Miss Dorothy Betts, of London, Ont., a guest of the house, wore pale rose and cream.

—The auction sale announced in last evening's Advertiser of the sale of household goods by Mr. S. W. Pelley has been cancelled. Mr. Pelley leaves for the Northwest on Monday next, but Mrs. Pelley has decided to remain in London for two months.

—The members of the High Street Methodist Church choir sprung a surprise on Mr. Fred Chambers when they called at his home, High street, last evening and presented him with a beautiful oak rocker. Mr. Chambers was for nearly three years the leader of the High Street choir, retiring recently, and it was to show their appreciation of his valuable services that the organization called on him and made the presentation. A suitably worded address was read by Miss Flora Lepper, while the presentation was made by Mr. Horwood. The kindness of the choir was suitably acknowledged by Mr. Chambers. A social evening was subsequently given by the choir, after which a lunch was partaken of.

—NEW RECTORS NAMED.

The Bishop of Huron has made the following appointments: Rev. F. Ryan, B. D., of Berville, to be rector of Dundalk and Maxwell.

Rev. R. Herbert, of Port Dover, to be rector of Preston.

—SUING PERE MARQUETTE.

The Ross vs. Pere Marquette case is being heard today at the winter assizes before Chief Justice Sir William Meredith. F. L. Ross, the Hamilton road grocer, sues to recover \$500 damages from the railway for the loss of a valuable horse at the Horton street crossing last July. Meredith, Fisher & McDonald for plaintiff; McCarthy, Osler, Hoskin & Harcourt, for defense.

—GREAT RUSH FOR SEATS.

There was a great rush for seats at the opening of the plan for the Seventh Regiment ministris this morning. There is every indication that the soldiers will have two bumper houses. Judging from the way the rehearsal went off last night, it is said that a first class performance can be expected. The choruses under the direction of Mr. Kenneth Finlay has attained a high state of efficiency. The farce comedy for the second part is said to be a most laughable burlesque.

—DAIRMEN MEETING.

This afternoon at 1:30 the annual convention of the Dairymen's Association of Western Ontario was opened at the Auditorium. From present indications, it is safe to predict that the gathering will be one of the most successful of its kind ever held. Many of the delegates have arrived in the city, and the exhibit at the city hall is complete. The exhibit of cheese is very good, both in quantity and quality, while the finish is declared to be splendid. There is also a good showing of butter, although not up to some exhibits of former years. There are a few ex-TONIGHT'S HOCKEY GAMES.

The following is the lineup for tonight's hockey matches at the Jubilee rink: Oriens—Goal, Pearson; point, Casselman; cover, Jackson; right wing, Collins; left wing, W. Woolley; center, Dewan; rover, Legg; Horton—Goal, Reynolds; point, Caruthers; cover, Knott; right wing, J. Caruthers; left wing, Arthurs; center, Pugh; rover, H. Callahan; goal, Callahan; point, B. Woolley; left wing, W. Woolley; center, Waterloos—Goal, R. Orr; point, F. Marshall; cover, Towse; right wing, J. Orr; left wing, Hague; center, Taggie; rover, Blackall.

ANALYSIS OF
Strong's Baking Powder
by the Analytical Chemist for the Dominion of Canada:
"Strong's Baking Powder is found to have very high aerating power. It is a Cream of Tartar powder, containing no alum or phosphate, and it is not adulterated."
Alum baking powders are sold to consumers at from 10, 15 to 20 cents a pound. So detrimental to health are alum baking powders considered, that in many countries their sale is prohibited. Strong's Baking Powder,
25c Per Pound.

EMINENT LECTURERS COMING.

Londoners showed that they appreciate good lectures by crowding St. Andrew's hall time after time on the occasion of Professor Monro's visit last fall. An opportunity will be given them of hearing equally eminent men in the same place this winter. Professor Coleman of Toronto University, the renowned traveler and investigator whose sensational experiences on a Mexican volcano last summer will be remembered, is to lecture on "Mountain Building" on the evening of Friday, Jan. 18. Many views illustrating the lecture will be given by means of an electric lantern. A month later Dr. Barclay of Montreal, who was offered the presidency of Queen's University in succession to President Grant, will lecture on "Literature—Its Power and the Test of Its Worth," and on April 19, Professor Dyde of Queen's University will lecture on "Shakespeare and King Lear." Hundreds will no doubt avail themselves of these opportunities to profit by university extension work.

OBIENS ENTERTAINED.

The members of the Oriens baseball club, champions of the Junior C League, together with a number of their friends were entertained last evening at the residence of Mr. and Mrs. Geo. Childs, 507 English street. A very enjoyable time was spent, vocal and instrumental music and speeches being indulged in. The whist contest, which was a feature of the evening, was won by Mr. V. Gower, the booby prize going to Mr. Loudon Kerr. The party broke up at an early hour, Monday, P. P. Stoneman, E. Pring and C. Muckler.

PROSPEROUS CONGREGATIONS.

The annual congregational meetings of Komoka and Hyde Park Presbyterian Churches were held last week, and the various reports showed both to be in a vigorous position. During the year 40 members were added to the communion from all sources.

The contributions reached the sum of \$2,400. Every branch of the life of these two churches is in a fruitful condition. In Hyde Park improvements on church property were made involving an expense of almost \$500. A pleasing feature of the Komoka meeting was the reading of an appreciative address and a presentation of a purse to Dr. Nixon, the pastor. Refreshments were served at the conclusion of the business, and a delightful hour spent in a social way.

MR. SPENCE RESIGNS

Alliance Secretary Obligated to Quit the Position Because of Health.

Toronto, Jan. 15.—Mr. F. S. Spence, for the past twenty years secretary of the Ontario branch of the Dominion Alliance, has resigned that position. His letter of resignation to the president of the Ontario Alliance in part is as follows:

"In view of the need for a change which I must make for the sake of my health and personal affairs, I am obliged to resign from my position of secretary of the Ontario branch of the Dominion Alliance. This decision has not been made without much feeling of regret at relinquishing the privilege of taking so large a part in the working out of plans for the advancement of the temperance cause, as must always be the duty of the secretary of the Alliance. I look forward to the pleasure of still continuing to work with you, though not able to take as intimate and continuous a part as before in its details."

Mr. Ben. H. Spence has been appointed to the office of secretary until the alliance meets.

Malta Vita
"The Perfect Food"

"The grocer who offers you something 'just as good' has no regard for your judgment or your health. It's delicious."

DENIES THE STORY

Canning Company Manager Says No Offer Has Been Received for Plant.

Manager Allen, of the London Canning Company, denies the story that the firm has been made an offer to sell out by the Gorman-Eckert Company. He says that the canning company is prospering, and that it is the intention of the company to double its capacity shortly. Local men say that if the Gorman-Eckert Company starts another canning factory here, there will be plenty of room for both, and that the London Canning Company has nothing to fear from the new venture.

WAY BELOW OUT WEST

Range Conditions in Montana Worst in History of That State.

Glendale, Mont., Jan. 15.—The range conditions in this section of Montana are the worst in the history of the country. The range is covered with snow from a depth of ten inches to three feet. In the Big Dry and Missouri River country, the snow is fully three feet deep, one foot of which fell in November.

A rain in early December fell on this snow, making a crust which holds up a team. Stock in that country that is not supplied with food and shelter will be a total loss. Shepherds will suffer the heaviest, as horses and cattle can be driven out to some extent.

The shepherds in this immediate section are fairly well supplied with food, and those who are not are waiting to the railroad as fast as possible. The temperature is about 26 degrees below zero.

G. T. R. PAID THE BILL

Immigration Sometimes Comes High to Transportation Companies.

Detroit, Mich., Jan. 15.—A Port Huron dispatch says:

Just what it costs the Grand Trunk Railway to bring immigrants into this country can be realized in the case of Andres Belder and family, who were taken to the Detroit Hospital for three weeks at the railway's expense. The company paid out \$160 for their lodging and food, \$49 for the services of a physician, and \$5 for a hack to and from the hospital. When the Belder family reached this city it was discovered they were suffering from a contagious disease.

PREFONTAINE'S MONUMENT

Immense Block of Granite Shipped to Montreal for the Purpose.

Barre, Vt., Jan. 15.—The largest and heaviest single block of granite ever sent from the United States into Canada, has just been shipped from here to Cote des Neiges, near Montreal. The stone is 34 feet square, 32 feet long and weighs 32 tons. It was consigned to J. Brunet, the sculptor, by whom it will be fashioned into a memorial monument to be erected in honor of the late Raymond Prefontaine, ex-minister of marine and fisheries.

MUTINOUS EMIGRANTS.

Port de-France, Island of Martinique, Jan. 15.—The French cruiser D'Estrees left Port de-France yesterday afternoon for Trinidad conveying the French Line steamer Canada, which had been detained here by a mutinous outbreak among the emigrants on board that vessel. The armored cruiser Kleber is expected to arrive here on Jan. 20.

It is announced that the executives of the London (Eng.) Young Men's Christian Association will be granted permission to deliver non-religious lectures on moral subjects to a certain class of prisoners after their day's work.

DEMAND DEATH PENALTY.

Chicago, Jan. 15.—The death penalty for criminal assaults on women and girls was demanded of the Legislature last night by the Chicago City Council. Life imprisonment for attempted assault also is advocated.

DIED AT SEA.

New York, Jan. 15.—Twenty-three of the 800 coolies who left Calcutta on the steamer India for Trinidad died during the voyage and were buried at sea, according to a report here by the India today. Measles and pneumonia caused all the deaths.

THE EPISCOPATE DIVIDED.

Paris, Jan. 15.—The French Episcopate, which continued in session here today, is divided into two parties—the Ultramontanes, who advocate a political campaign to secure a change in the Government's attitude, and the Liberals, who stand for peace without disobeying any of the Pope's wishes.

SHOT IN THE NECK.

St. Thomas, Jan. 15.—The coroner's jury at Highbury has found that the death of Thomas Stonefish, an Indian shot and killed while out hunting with his brother on the Moravian Reserve, was due to accident. The evidence of the brother was that Stonefish shot himself in the back of the neck, and the examination showed the bullet to have struck the spinal column and taken a downward course.
